Jemison has the perfect plan to escape the memories of her ex return home to Magnolia Lake to run her sister's country inn But when a snowstorm strands her alone with tempting workaholic Sebastian Valentine neither can deny their explosive chemistry nor their desire for a more permanent connection Two sizzling romances one great value **The Price of Everything** Eduardo Porter, 2011-01-04 Everything has a price but it isn't always obvious what that price is Many of the prices we pay seem to make little sense We shell out 2.29 for a coffee at Starbucks when a nearly identical brew can be had at the corner deli for less than a dollar We may be less willing to give blood for 25 than to donate it for free Americans hire cheap illegal immigrants to fix the roof or mow the lawn and vote for politicians who promise to spend billions to keep them out of the country And citizens of the industrialized West pay hundreds of dollars a year in taxes or cash for someone to cart away trash that would be a valuable commodity in poorer parts of the world The Price of Everything starts with a simple premise there is a price behind each choice that we make whether we're deciding to have a baby drive a car or buy a book We often fail to appreciate just how critical prices are as a motivating force shaping our lives But their power becomes clear when distorted prices steer our decisions the wrong way Eduardo Porter uncovers the true story behind the prices we pay and reveals what those prices are actually telling us He takes us on a global economic adventure from comparing the relative price of a vote in corrupt S. O. Tom and in the ostensibly uncorrupt United States to assessing the cost of happiness in Bhutan to deducing the dollar value we assign to human life His unique approach helps explain Why polygamous societies actually place a higher value on women than monogamous ones Why someone may find more value in a 14 million license plate than the standard issue 95 one Why some government agencies believe one year of life for a senior citizen is four times more valuable than that of a younger person Porter weaves together the constant and often unconscious cost and value assessments we all make every day While exploring the fascinating story behind the price of everything from marriage and death to mattresses and horsemeat Porter draws unexpected connections that bridge a wide range of disciplines and cultures The result is a cogent and insightful narrative about how the world really works Watch a Video **Cyber Physical System**
