[The Fruit Cure](#) Jacqueline Alnes,2024-01-16 lucid and elegant The Washington Post A deeply compelling read Spellbinding BookPage Her journey from desperation to self acceptance is moving and well rendered In the crowded medical memoir field this stands out Publishers Weekly A powerful critique of the failures in our healthcare system and an inquiry into the sinister strains of

wellness culture that prey on people's vulnerabilities through schemes, scams, and diets. Jacqueline Alnes was a Division One runner during her freshman year of college, but her season was cut short by a series of inexplicable neurological symptoms. What started with a cough escalated to Alnes collapsing on the track and experiencing months of unremembered episodes that stole her ability to walk and speak. Two years after quitting the team to heal, Alnes's symptoms returned with a severity that left her using a wheelchair for a period of months. She was admitted to an epilepsy center, but doctors could not figure out the root cause of her symptoms. Desperate for answers, she turned to an online community centered around a strict all-fruit diet, which its adherents claimed could cure conditions like depression, eating disorders, addiction, anxiety, and vision problems. Alnes wasn't alone. From all over the world, people in pain, doubted or dismissed by medical authorities or seeking a miracle diet that would relieve them of white, Western expectations placed on their figures, turned to fruit in hopes of releasing themselves from the perceived failings of their bodies. In *The Fruit Cure*, Jacqueline Alnes takes readers on a spellbinding and unforgettable journey through the world of fruitarianism, interweaving her own powerful narrative with the popularity and problematic history of fruit-based raw food lifestyles. For readers plagued by mysterious symptoms inundated by messages from media about how to attain the perfect body or caught in the grips of a fast-paced culture of capitalism, *The Fruit Cure* offers a powerful critique of the failures of our healthcare system and an inquiry into the sinister strains of wellness culture that prey on people's vulnerabilities through schemes, scams, and diets masquerading as hope. *Starving into Remission: Alzheimer's, Parkinson's and Multiple Sclerosis Nutritional Integrative Therapies* James C.

Tibbetts, 2016-11-13 Alzheimer's, Parkinson's, and MS can be brought into permanent remission on a Living Foods nutritional therapy approach. As a nutritional lifestyle, these diseases can be stopped and kept at a distance once they are put into remission through this live food nutrition therapy. This book presents real people, some cured and some not; it is about clinical experience, journal studies, testimonials, and advanced nutritional understandings. This work is about five years of research. It involves a major lifestyle change: moving into a live food or raw vegan diet and doing juice fasting, smoothies, and juicing. Having a positive spiritual approach and exercise routine is also helpful. The case studies and testimonials are part of the evidence that these neurodegenerative diseases can be put into complete remission. **The Complete Idiot's Guide to**
