Russia Engages the World, 1453-1825 Cynthia H. Whittaker, Edward Kasinec, Robert H. Davis, 2003 Russia Engages the World 1453 1825 an elegant new book created by a team of leading historians in collaboration with The New York Public Library traces Russia s development from an insular medieval liturgical realm centered on Old Muscovy into a modern secular world power embodied in cosmopolitan St Petersburg Featuring eight essays and 120 images from the Library s distinguished collections it is both an engagingly written work and a striking visual object Anyone interested in the dramatic history of Russia and its extraordinary artifacts will be captivated by this book Before the late fifteenth century Europeans knew virtually nothing about Muscovy the core of what would become the Russian Empire The rare visitor merchant adventurer diplomat described an exotic alien place Then under the powerful tsar Peter the Great St Petersburg became the architectural embodiment and principal site of a cultural revolution and the port of entry for the Europeanization of Russia

From the reign of Peter to that of Catherine the Great Russia sought increasing involvement in the scientific advancements and cultural trends of Europe Yet Russia harbored a certain dualism when engaging the world outside its borders identifying at times with Europe and at other times with its Asian neighbors The essays are enhanced by images of rare Russian books illuminated manuscripts maps engravings watercolors and woodcuts from the fifteenth to the nineteenth centuries as well as the treasures of diverse minority cultures living in the territories of the Empire or acquired by Russian voyagers These materials were also featured in an exhibition of the same name mounted at The New York Public Library in the fall of 2003 to celebrate the tercentenary of St Petersburg Russia and The Commonwealth of Independent States 2014 M. Dostoevsky and the Epileptic Mode of Being Paul Fung,2017-07-05 For Fyodor Dostoevsky 1821 81 who lived with epileptic seizures for more than thirty years illness is an ineradicable part of existence Epilepsy in his writings denotes both a set of physical symptoms and a state of survival in which the protagonists incessantly try to articulate theorize or master what is ungraspable in their everyday experience Their attempts to deal with what they cannot control or comprehend results in disappointment or what Dostoevsky called a mystical terror Dostoevsky s heroes are unable fully to understand this state and their existence becomes epileptic in so far as self knowledge and self coincidence are never achieved Fung explores new critical pathways by reexamining five of Dostoevsky s post Siberian novels Drawing on insights from writers including Benjamin Blanchot Freud Lacan and Nietzsche the book takes epilepsy as a trope for discussing the unspeakable moments in the texts and is intended for students and scholars who are interested in the subject of modernity critique of the visual and dialogues between philosophy and literature Paul Fung is Assistant Professor in English at Hang Seng Management College Hong Kong
