## **Sunset Limited The Southern Pacific Railroad And The Development Of The American West 1850 193:**

**Sunset Limited** Richard J. Orsi, 2005 The only major US railroad built from west to east the Southern Pacific played a major role in the shaping of the West the development of southern California in particular **Sunset Limited** explores the corporate strategy over time to reveal how the company saw its place in the world **Sunset Limited** Richard J. Orsi, 2005-05-16 The only major U S railroad to be operated by westerners and the only railroad built from west to east the Southern Pacific acquired a unique history and character It also acquired a reputation especially in California as a railroad that people loved to hate This magisterial history tells the full story of the Southern Pacific for the first time shattering myths about the company that have prevailed to this day A landmark account **Sunset Limited** explores the railroad s development and influence especially as it affected land settlement agriculture water policy and the environment and offers a new perspective on the tremendous often surprising role the company played in shaping the American West Based on his unprecedented and extensive research into the company s historical archives Richard Orsi finds that contrary to conventional understanding the Southern Pacific Company identified its corporate well being with population growth and social and economic development in the railroad s hinterland As he traces the complex and shifting intersections between corporate and public interest Orsi documents the railroad s little known promotion of land distribution small scale farming scientific agriculture and less wasteful environmental practices and policies including water conservation and wilderness and recreational parklands preservation Meticulously researched lucidly written and judiciously balanced **Sunset Limited** opens a new window onto the American West in a crucial phase of its development and will forever change our perceptions of one of the largest and most important western corporations in the late nineteenth and early twentieth centuries **The American West** Michael P. Malone, 2007-11-01 Chronicles the history of the American West during the twentieth century tracing economical political social and cultural developments in the region from 1900 to the turn of the twenty first century in an updated edition that includes new sections that explore the roles of ethnic groups in the new West urban developments western women and events since the mid 1980s Original **Octopus's Garden** Benjamin T. Jenkins, 2023-07-10 As Southern California recovered from the collapse of the cattle industry in the 1860s the arrival of railroads attacked by newspapers as the greedy octopus and the expansion of citrus agriculture transformed the struggling region into a vast idealized and prosperous garden New groves of the latest citrus varieties and new towns like Riverside quickly grew directly along the tracks of transcontinental railroads The influx of capital industrial technology and workers especially people of color energized Southern California and tied it more closely to the economy and culture of the United States than ever before Benjamin Jenkins s **Octopus s Garden** argues that citrus agriculture and railroads together shaped the economy landscape labor systems and popular image of Southern California Orange and lemon growing boomed in the 1870s and 1880s while railroads linked the region to markets across North America and ended centuries of geographic isolation for the West Coast

Railroads competed over the shipment of citrus fruits from multiple counties engulfed by the orange empire resulting in an extensive rail network that generated lucrative returns for grove owners and railroad businessmen in Southern California from the 1890s to the 1950s While investment from white Americans particularly wealthy New Englanders formed the financial backbone of the Octopus s Garden citrus and railroads would not have thrived in Southern California without the labor of people of color Many workers of color took advantage of the commercial developments offered by railroads and citrus to economically advance their families and communities however these people also suffered greatly under the constant realities of bodily harm low wages and political and social exclusion Promoters of the railroads and citrus cooperatives touted California as paradise for white Americans and minimized the roles of non white laborers by stereotyping them in advertisements and publications These practices fostered conceptions of California s racial hierarchy by praising privileged whites and maligning the workers who made them prosper The Octopus s Garden continues to shape Southern Californians understanding of their past In bringing together multiple storylines Jenkins provides a complex and fresh perspective on the impact of citrus agriculturalists and railroad companies in Southern Californian history

**Railroaded: The Transcontinentals and the Making of Modern America** Richard White, 2011-05-31 A Finalist for the Pulitzer Prize A powerful book crowded with telling details and shrewd observations Michael Kazin New York Times Book Review The transcontinental railroads were the first corporate behemoths Their attempts to generate profits from proliferating debt sparked devastating economic panics Their dependence on public largesse drew them into the corridors of power initiating new forms of corruption Their operations rearranged space and time remade the landscape of the West and opened new ways of life and work Their discriminatory rates sparked a new antimonopoly politics The transcontinentals were pivotal actors in the making of modern America but the triumphal myths of the golden spike Robber Barons larger than life and an innovative capitalism all die here Instead we have a new vision of the Gilded Age often darkly funny that shows history to be rooted in failure as well as success

*Replenishing the Earth* James Belich, 2011-05-05 Pioneering study of the anglophone settler boom in North America Canada South Africa Australia and New Zealand between the early 19th and early 20th centuries looking at what made it the most successful of all such settler revolutions and how this laid the basis of British and American power in the 19th and 20th centuries

**Garden of the World** Cecilia M. Tsu, 2013-06-01 Nearly a century before it became known as Silicon Valley the Santa Clara Valley was world renowned for something else the succulent fruits and vegetables grown in its fertile soil In *Garden of the World* Cecilia Tsu tells the overlooked intertwined histories of the Santa Clara Valley s agricultural past and the Asian immigrants who cultivated the land during the region s peak decades of horticultural production Weaving together the story of three overlapping waves of Asian migration from China Japan and the Philippines in the nineteenth and twentieth centuries Tsu offers a comparative history that sheds light on the ways in which Asian farmers and laborers fundamentally altered the agricultural economy and landscape of the Santa Clara Valley as well

as white residents ideas about race gender and what it meant to be an American family farmer At the heart of American racial and national identity in the nineteenth and twentieth centuries was the family farm ideal the celebration of white European American families operating independent self sufficient farms that would contribute to the stability of the nation In California by the 1880s boosters promoted orchard fruit growing as one of the most idyllic incarnations of the family farm ideal and the lush Santa Clara Valley the finest location to live out this agrarian dream But in practice many white growers relied extensively on hired help which in the late nineteenth and early twentieth centuries was largely Asian Detailing how white farmers made racial and gendered claims to defend their dependence on nonwhite labor how those claims shifted with the settlement of each Asian immigrant group and how Chinese Japanese and Filipinos sought to create their own version of the American dream in farming Tsu excavates the social and economic history of agriculture in this famed rural community to reveal the intricate nature of race relations there Hoboes Mark Wyman,2025-09-23 When the railroad stretched its steel rails across the American West in the 1870s it opened up a vast expanse of territory with very few people but enormous agricultural potential a second Western frontier the garden West Agriculture quickly followed the railroads making way for Kansas wheat and Colorado sugar beets and Washington apples With this new agriculture came an unavoidable need for harvest workers for hands to pick the apples cotton oranges and hops to pull and top the sugar beets to fill the trays with raisin grapes and apricots to stack the wheat bundles in shocks to be pitched into the maw of the threshing machine These were not the year round hired hands but transients who would show up to harvest the crop and then leave when the work was finished Variouslly called bindlestiffs fruit tramps hoboes and bums these men and women and children were vital to the creation of the West and its economy Amazingly it is an aspect of Western history that has never been told In Hoboes Bindlestiffs Fruit Tramps and the Harvesting of the West the award winning historian Mark Wyman beautifully captures the lives of these workers Exhaustively researched and highly original this narrative history is a detailed deeply sympathetic portrait of the lives of these hoboes as well as a fresh look at the settling and development of the American West *Selling America* Christina A. Ziegler-McPherson,2017-02-16 An in depth look at the motivations behind immigration to America from 1607 to 1914 including what attracted people to America who was trying to attract them and why Between 1820 and 1920 more than 33 million Europeans immigrated to the United States seeking the American Dream an image of America as a land of opportunity and upward mobility sold to them by state governments railroads religious and philanthropic groups and other boosters But Christina A Ziegler McPherson shows that the desire to make and keep America a white man s country meant that only Northern Europeans would be recruited as settlers and future citizens while Africans Asians and other non whites would either be grudgingly tolerated as slaves or guest workers or be excluded entirely This book reframes immigration policy as an extension of American labor policy and connects the removal of American Indians from their lands to the settlement of European immigrants across the North American continent Ziegler McPherson contends that western and

midwestern states with large American Indian Asian or Mexican populations developed aggressive policies to promote immigration from Europe to help displace those peoples while Southern states sought to reduce their dependency upon Black labor by doing the same Chapters highlight the promotional policies and migration demographics for each region of the United States     **U.S. Environmental Policy and Politics** Kevin Hillstrom,2010-05-04 This new reference shows readers the many ways throughout American history in which environmental concerns have intersected with issues of energy production and consumption government regulation private property rights economic growth and lifestyle choices

**Sacramento and the Catholic Church** Steven Avella,2008-08-22 This work examines the interplay between the city of Sacramento and the Catholic Church since the 1850s Avella uses Sacramento as a case study of the role of religious denominations in the development of the American West In Sacramento as in other western urban areas churches brought civility and various cultural amenities and they helped to create an atmosphere of stability so important to creating a viable urban community At the same time churches often had to shape themselves to the secularizing tendencies of western cities while trying to remain faithful to their core values and practices Besides the numerous institutions that the Church sponsored it brought together a wide spectrum of the city s diverse ethnic populations and offered them several routes to assimilation Catholic Sacramentans have always played an active role in government and in the city s economy and Catholic institutions provided a matrix for the creation of new communities as the city spread into neighboring suburbs At the same time the Church was forced to adapt itself to the needs and demands of its various ethnic constituents particularly the flood of Spanish speaking newcomers in the late twentieth century     **The British National Bibliography** Arthur James Wells,2006
