Baudin, Napoleon and the Exploration of Australia Nicole Starbuck, 2015-10-06 This is the first in depth study of the sojourn in Sydney made by Nicolas Baudin's scientific expedition to Australia in 1802 Starbuck focuses on the reconstruction of the voyage during the expedition s stay in colonial Sydney and how this sheds new light on our understanding of French society politics and science in the era of Bonaparte Romantic Colonization and British Anti-Slavery Deirdre Expeditions as Experiments Marianne Klemun, Ulrike Spring, 2016-10-18 This Coleman, 2005-01-13 Publisher Description collection focuses on different expeditions and their role in the process of knowledge acquisition from the eighteenth century onwards It investigates various forms of scientific practice conducted during after and before expeditions and it places this discussion into the scientific context of experiments In treating expeditions as experiments in a heuristic sense we also propose that the expedition is a variation on the laboratory in which different practices can be conducted and where the transformation of uncertain into certain knowledge is tested The experimental positioning of the expedition brings together an ensemble of techniques strategies material agents and social actors and illuminates the steps leading from observation to facts and documentation The chapters show the variety of scientific interests that motivated expeditions with their focus on natural history geology ichthyology botany zoology helminthology speleology physical anthropology oceanography Napoleon: A Life Told in Gardens and Shadows Ruth Scurr, 2021-06-15 Marking the 200th meteorology and magnetism anniversary of his death Napoleon is an unprecedented portrait of the emperor told through his engagement with the natural world How should one envisage this subject With a great pomp of words or with simplicity Charlotte Bront The Death of Napoleon The most celebrated general in history Napoleon Bonaparte 1769 1821 has for centuries attracted eminent male writers Since Thomas Carlyle first christened him our last Great Man regiments of biographers have marched across the same territory weighing campaigns and conflicts military tactics and power politics Yet in all this time no definitive portrait of Napoleon has endured and a mere handful of women have written his biography a fact that surely would have pleased him With Napoleon Ruth Scurr one of our most eloquent and original historians emphatically rejects the shibboleth of the Great Man theory of history instead following the dramatic trajectory of Napoleon's life through gardens parks and forests As Scurr reveals gardening was the first and last love of Napoleon offering him a retreat from the manifold frustrations of war and politics Gardens were at the same time a mirror image to the battlefields on which he fought discrete settings in which terrain and weather were as important as they were in combat but for creative rather than destructive purposes Drawing on a wealth of contemporary and historical scholarship and taking us from his early days at the military school in Brienne le Ch teau through his canny seizure of power and eventual exile Napoleon frames the general s story through the green spaces he cultivated Amid Corsican olive groves ornate menageries in Paris and lone garden plots on the island of Saint Helena Scurr introduces a diverse cast of scientists architects family members and gardeners all of whom stood in the shadows of

Napoleon's meteoric rise and fall Building a cumulative panorama she offers indelible portraits of Augustin Bon Joseph de Robespierre the younger brother of Maximilien Robespierre who used his position to advance Napoleon s career Marianne Peusol the fourteen year old girl manipulated into a Christmas Eve assassination attempt on Napoleon that resulted in her death and Emmanuel comte de Las Cases the atlas maker to whom Napoleon dictated his memoirs As Scurr contends Napoleon's dealings with these people offer unusual and unquarded opportunities to see how he grafted a new empire onto the remnants of the ancien r gime and the French Revolution Epic in scale and novelistic in its detail Napoleon with stunning illustrations is a work of revelatory range and depth revealing the contours of the general s personality and power as no conventional biography can **Conquerors of Time** Trevor Fishlock, 2012-10-04 Conquerors of Time celebrates 150 years of courage energy innovation resourcefulness and grand ideas from the late 17th century to the early 20th It s about the seafarers engineers inventors and trailblazers who enabled the British to hold together a vast empire and the Americans to push their frontiers west Some such as Captain Cook and Robert Stephenson are famous Others like the makers of chromonometers the collectors of tropical plants or the railway engineers who roughed it in the Canadian wilderness are less well known What they all had in common is a desire to understand the world and a determination to harness the forces of nature Trevor Fishlock's brio and broad vision matches those of his subjects and makes for a rattling good read Lawrence James Daily Mail Fact filled and highly evocative the sheer romance of the story is irresistible Sunday Telegraph *Platypus* Ann Moyal, 2004-10-29 Eloquent and concise Platypus uncovers the earliest theories and latest discoveries about this delightfully odd member of the animal kingdom The Cambridge History of Science: Volume 6, The Modern Biological and Earth Sciences David C. The recovery of storm wrecked ships Diplomatic treaties Priority of discovery disputes Military and civil explorers and surveyors Topographical features Geographical terms and places Rivers and river system Dark Writing Paul Carter, 2008-10-31 We do not see empty figures and outlines we do not move in straight lines Everywhere we are surrounded by dapple the geometry of our embodied lives is curviform meandering bi pedal Our personal worlds are timed interpositional and contingent But nowhere in the language of cartography and design do these ordinary experiences appear This Dark Writing argues is a serious omission because they are designs on the world architects and colonizers use their lines to construct the places where we will live But the rectilinear streets squares and public spaces produced in this way leave out people and the entire environmental history of their coming together How this book asks can we explain the omission of bodies from maps and plans And how can we redraw the lines maps and plans use so that the qualitative world of shadows footprints comings and goings and occasions all essential qualities of places that incubate sociality can be registered In short Dark Writing asks why we represent the world as static when our experience of it is mobile It traces this bias in Enlightenment cartography in inductive logic and in contemporary place design This is the negative critique Its positive argument is that when we look closely at these designs on the world we find traces of a repressed movement form Even the ideal lines of geometrical figures turn out to contain traces of earlier passages and there are many forms of graphic design that do engage with the dark environment that surrounds the light of reason How can this dark writing so important to reconfiguring our world as a place of meeting of co existence and sustaining diversity be represented And how therefore can our representations of the world embody more sensuously the mobile histories that have produced it Dark Writing answers these questions using case studies the exemplary case of the beginnings of the now world famous Papunya Tula Painting Movement Central Australia and three high profile public place making initiatives in which the author was involved as artist and thinker These case studies are nested inside historical chapters and philosophical discussions of the line and linear thinking that make Dark Writing both a highly personal book and a narrative with wide general appeal **Tautai** Patricia O'Brien, 2017-05-31 Tautai is the story of a man who came from the edge of a mighty empire and then challenged it at its very heart This biography of Ta isi O F Nelson chronicles the life of a man described as the archenemy of New Zealand and its greater whole the British Empire He was S moa s richest man who used his wealth and unique international access to further the S moan cause and was financially ruined in the process In the aftermath of the hyper violence of the First World War Ta isi embraced nonviolent resistance as a means to combat a colonial surge in the Pacific that gripped his country for nearly two decades This surge was manned by heroes of New Zealand s war campaign who attempted to hold the line against the groundswell of challenges to the imperial order in the former German colony of S moa that became a League of Nations mandate in 1921 Stillborn S moan hopes for greater freedoms under this system precipitated a crisis of empire It led Ta isi on global journeys in search of justice taking him to Geneva the League of

Nations headquarters and into courtrooms in S moa New Zealand and the United Kingdom Ta isi ran a global campaign of letter writing petitions and a newspaper to get his people's plight heard. For his efforts he was imprisoned and exiled not once but twice from his homeland of S moa Using private papers and interviews O Brien tells a deeply compelling account of Ta isi s life lived through turbulent decades By following Ta isi s story readers also learn a history of S moa s Mau movement that attracted international attention The author's care for detail provides a nuanced interpretation of its history and Ta isi's role in the broader context of world history The first biography of Ta isi O F Nelson Tautai is a powerful and passionate story that is both personal and one that encircles the globe It touches on shared histories and causes that have animated and enraged populations across the world throughout the twentieth century to the present day **City Museums and City Development** Ian Jones, Robert R.
