Terres Indiennes:

Terres indiennes Gil Renaud, 2007 **La démocratie mexicaine en terres indiennes** David Recondo, 2009 Dans les confins indiens du Mexique la démocratisation s'accompagne d'une reconnaissance de la nature pluriculturelle de la société L'indianité fait son entrée dans la sphère publique sous l'effet combiné de la mobilisation sociale et du calcul politique Dans l'une des provinces à plus forte densité de population indienne l'Oaxaca cette politique du multiculturalisme a pris une forme particulière Plutôt que de mettre l'accent sur une refonte des programmes d'éducation dans un esprit interculturel ou bien de toucher la question territoriale la reconnaissance a porté sur l'autonomie politique des communautés indiennes L'État a légalisé les formes traditionnelles d'élection et de délibération politique au niveau municipal Alors que la promotion d'élections compétitives domine l'agenda politique national le régime post-révolutionnaire a établi un système politique dual dans les campagnes du Sud mexicain Les communautés indiennes y sont autorisées à pratiquer leurs coutumes sans l'intervention des partis politiques et selon des procédés qui contredisent souvent les normes de la démocratie électorale conventionnelle Cet ouvrage s'attache à élucider cette énigme de la transition mexicaine Dans une perspective comparative il enrichit les problématiques de la démocratie et nourrit la réflexion sur la question indienne à l'échelle du continent

Mok,Claudine Raynaud,2019-03-22 Hinting at Rimbaud s provocative dictum that I is an other this anthology discusses a wide ranging array of twentieth century and contemporary minority American modes of life writing prompted by the

following questions Who else hides behind this I that the author narrator character contractually claims to be What generic aesthetic political and socio cultural issues are at stake in a conception of the self as other The essays analyze autobiographical works from major Native American writers John Milton Oskison and Louise Erdrich an African American music hall artist Josephine Baker and writers John Edgar Wideman and Ta Nehisi Coates Caribbean American writers Jamaica Kincaid and Edwidge Danticat and Asian American writers Ruth Ozeki Cathy Park Hong Theresa Hak Kyung Cha and Loung Ung They shed light on autobiography as a collaborative writing and reading practice rather than as a self oriented genre probing the relational dimension of life writing Building on the feminist theorization of relationality and the political and aesthetic power of relational bonds they put forward the necessarily intersubjective dynamics of minority American self conceptions which originate in the writers experiences of otherness The articles highlight that the relational ethnic self characteristically inhabits the liminal spaces where modes of life writing overlap and can thrive in dialogical intertextual readings They foreground the subversive cathartic and memorializing potential of minority American modes of other writing whose ontological dimension is manifest in the writers quest for a sense of repossession and agency beyond communal boundaries Contributing to the up to date critical discussion on relationality not as a genre but rather as a reading and a storytelling practice they examine the ways it participates in a global transcultural approach to ethno racial issues in the United States

Indian and Northern Affairs Canada,2006 **Theory of the Border** Thomas Nail,2016-08-02 Despite and perhaps because of increasing global mobility there are more types of borders today than ever before in history Borders of all kinds define every aspect of social life in the twenty first century From the biometric data that divides the smallest aspects of our bodies to the aerial drones that patrol the immense expanse of our domestic and international airspace we are defined by borders They can no longer simply be understood as the geographical divisions between nation states Today their form and function has become too complex too hybrid What we need now is a theory of the border that can make sense of this hybridity across multiple domains of social life Rather than viewing borders as the result or outcome of pre established social entities like states Thomas Nail reinterprets social history from the perspective of the continual and constitutive movement of the borders that organize and divide society in the first place Societies and states are the products of bordering Nail argues not the other way around Applying his original movement oriented theoretical framework kinopolitics to several major historical border regimes fences walls cells and checkpoints Theory of the Border pioneers a new methodology of critical limology that provides fresh tools for the

analysis of contemporary border politics Aboriginal Rights and Self-government Curtis Cook, Juan David Lindau, 2000 A timely study of the Aboriginal rights movements this collection of essays explores the situation in Canada and Mexico where demands by Native peoples for political autonomy and sovereignty are increasing and suggests why there is little corresponding activity in the United States The contributors address practical questions about the viability of multiple governments within one political system and epistemological questions about recognizing and understanding the other Curtis Cook is professor of political science The Colorado College Juan D Lindau is professor of political science The Colorado College , **Ownership and Nurture** Marc Brightman, Carlos Fausto, Vanessa Grotti, 2016-05-01 The first book to address the classic anthropological theme of property through the ethnography of Amazonia Ownership and Nurture sets new and challenging terms for anthropological debates about the region and about property in general Property and ownership have special significance and carry specific meanings in Amazonia which has been portrayed as the antithesis of Western property based civilization Through carefully constructed studies of land ownership slavery shamanism spirit mastery aesthetics and intellectual property this volume demonstrates that property relations are of central importance in Amazonia and that the ownership of persons plays an especially significant role in native cosmology **Great Peace of Montreal of 1701** Gilles Havard, 2001-05-25 The last decades of the seventeenth century were marked by persistent bloody conflicts between the French and their Native allies on the one side and the Iroquois confederacy on the other In the summer of 1701 1 300 representatives of forty First Nations from the Maritimes to the Great Lakes and from James Bay to southern Illinois met with the French at Montreal Elaborate month long ceremonies culminated in the signing of The Great Peace of Montreal which effectively put an end to the Iroquois wars In The Great Peace of Montreal of 1701 Gilles Havard brings to life the European and Native players who brought about this major feat of international diplomacy He highlights the differing interests and strategies of the numerous First Nations involved while giving a dramatic account of the colourful conference The treaty Havard argues was the culmination of the French colonial strategy of Native alliances and adaptation to Native political customs It illustrates the extent of cultural interchange between the French and their Native allies and the crucial role the latter played in French conflicts with the Iroquois and the British As we approach the 300th anniversary of the treaty's signing in August 1701 Gilles Havard emphasizes its contemporary significance in signing a treaty with forty separate parties the French recognized the independent sovereignty of every First Nation This translation is significantly revised and updated from the original French publication of 1992
