Terror And Consensus:

Terror and Consensus Jean-Joseph Goux, Philip R. Wood, 1998 This volume of twelve essays focuses on two interrelated issues First it addresses the historical and cultural determinants that have given rise to what frequently has been described as the French exception the unusually conflictual French political process inherited from the revolutionary past in the eighteenth and nineteenth centuries and its accompanying avant gardism in artistic literary and philosophical practice both of which distinguish France from other European countries Second the contributors assess the exhaustion of this tradition in recent years noted prominently on the occasion of the celebration of the bicentennial of the Revolution in 1989 in a progressive normalization of French society that has been the final outcome of the liquidation of the colonial empire the collapse of Marxism as a social force and the integration of France into the European Union The contributors are Jean Marie Apostolidis Marc Augé Barbara Cassin Françoise Gaillard Maurice Godelier Jean-Joseph Goux Françoise Lionnet Jean-François Lyotard Mark Poster Pierre Saint Amand Susan Suleiman and Philip R Wood

The Sublime, Terror and Human Difference Christine Battersby, 2013-01-11 Christine Battersby is a leading thinker in the field of philosophy gender studies and visual and literary aesthetics In this important new work she undertakes an exploration of the nature of the sublime one of the most important topics in contemporary debates about modernity politics and art Through a compelling examination of terror transcendence and the other in key European philosophers and writers Battersby articulates a radical female sublime A central feature of *The Sublime Terror and Human Difference* is its engagement with recent debates around 9/11 race and Islam Battersby shows how since the eighteenth century the pleasures of the sublime have been described in terms of the transcendence of terror Linked to the feminine the sublime was closed off to flesh and blood women to Orientals and to other supposedly inferior human types Engaging with Kant Burke the German Romantics Nietzsche Derrida Lyotard Irigaray and Arendt as well as with women writers and artists Battersby traces the history of these exclusions while finding resources within the history of western culture for thinking human differences afresh *The Sublime Terror and Human Difference* is essential reading for students of continental philosophy gender studies aesthetics literary theory visual culture and race and social theory

Tripping Points on the Roads to Outwit Terror Yair Sharan, Ted J. Gordon, Elizabeth Florescu, 2021-04-26 This book assesses potential developments of terrorism and ways to prevent it the growing threats as new technologies become available and how the same new technologies may help trap those with potential mal intent The drumbeat of terror resonates from everywhere how can we stop it What are the tripping points along the road and how can we avoid them Increasingly more people have access to increasingly more information and increasingly more destructive technologies In the meantime increasingly advanced technologies help us create an increasingly safer and more harmonious world Advantages and disadvantages are accelerating each other While hybrid threats are intensifying so are the opportunities to address them But what are the compromises and how can we mitigate them This book also looks at the unexpected and often random

success and failure of policies to counter the evolving terror threat The various aspects of the terrorism phenomena are presented in a unique way using scenario vignettes which give the reader a realistic perception of the threat The combination of positive and negative implications of emerging technologies is describing what might well be one of the most important dimensions of our common future

Representing Scientific Knowledge Chaomei Chen, Min Song, 2017-11-25 This book is written for anyone who is interested in how a field of research evolves and the fundamental role of understanding uncertainties involved in different levels of analysis ranging from macroscopic views to meso and microscopic ones We introduce a series of computational and visual analytic techniques from research areas such as text mining deep learning information visualization and science mapping such that readers can apply these tools to the study of a subject matter of their choice In addition we set the diverse set of methods in an integrative context that draws upon insights from philosophical sociological and evolutionary theories of what drives the advances of science such that the readers of the book can guide their own research with their enriched theoretical foundations Scientific knowledge is complex A subject matter is typically built on its own set of concepts theories methodologies and findings discovered by generations of researchers and practitioners Scientific knowledge as known to the

scientific community as a whole experiences constant changes Some changes are long lasting whereas others may be short lived How can we keep abreast of the state of the art as science advances How can we effectively and precisely convey the status of the current science to the general public as well as scientists across different disciplines The study of scientific knowledge in general has been overwhelmingly focused on scientific knowledge per se In contrast the status of scientific knowledge at various levels of granularity has been largely overlooked This book aims to highlight the role of uncertainties in developing a better understanding of the status of scientific knowledge at a particular time and how its status evolves over the course of the development of research Furthermore we demonstrate how the knowledge of the types of uncertainties associated with scientific claims serves as an integral and critical part of our domain expertise **The Routledge**

Preventing the Maritime Facilitation of Terrorism Robin Bowley, 2022-12-30 In the aftermath of the 9 11 attacks concerns that terrorists might utilise vessels to transport weaponry terrorist operatives and or to finance their activities prompted several international legal developments This book evaluates the extent to which the international maritime security measures developed following the 9 11 attacks would be likely to prevent the utilisation of vessels to facilitate terrorist activities It considers the likely effectiveness of the International Ship and Port Facility Security Code for improving vessel and port security and the 2005 Protocol to the Convention for the Suppression of Unlawful Acts Against Maritime Navigation in facilitating the interdiction of suspected terrorist vessels It also explains how the US led Proliferation Security Initiative a cooperative effort through which participant governments agree to prevent the illicit transfers of Weapons of Mass Destruction and related materials has provoked debate about the legality of vessel interdictions under the United Nations Convention on the Law of the Sea the LOSC After exploring alternative interpretations of the LOSC and states self defence rights under Article 51 of the Charter of the United Nations it formulates suggested guidelines for the unilateral interdiction of suspected terrorist support vessels in exceptional circumstances The book also discusses the relevant recommendations by

the OECD's Financial Action Taskforce for preventing the financing of terrorism and the national maritime security legislation for preventing the maritime facilitation of terrorist activities in the United Kingdom and in Australia The book concludes by emphasising the importance of the continual active implementation of ship port facility and supply chain security measures and of further enhancing international cooperation to facilitate vessel interdictions It will be of interest to those working in the areas of Law and Terrorism Law of the Sea Maritime Law and Insurance and International Law

Using Human Rights to Counter Terrorism Manfred Nowak, 2018-03-30 While providing a substantive legal analysis of the links between human rights and counter terrorism this book provides the tools to successfully argue that a human rights approach does not undermine the fight against terrorism Through practical examples it shows that a State's lack of respect for human rights hinders its fight against terrorism and can be counter productive The contributing experts represent a wide breadth of experience at the national and international levels and bring their unique approach to each cross cutting topic

The 'War on Terror' and the Framework of International Law Helen Duffy, 2015-04-09 Helen Duffy's analysis of international law and practice in relation to terrorism and counter terrorism provides a framework for analysing the lawfulness of the many legislative policy and judicial developments which have proliferated since 9 11 Among the many specific issues she addresses are targeted killings and the death of Osama bin Laden detentions including Guantanamo Bay sanctions regimes surveillance extraordinary renditions the prohibition on association or support for terrorism and the evolving preventive role of criminal law She also considers the unfolding responses to political and judicial wrongs committed in the war on terror such as the impact of the courts on human rights protection While exploring areas of controversy uncertainty and flux she questions post 9 11 allegations of gaping holes inadequacies or transformation in the international legal order and concludes by highlighting characteristics of the war on terror and questioning its longer term implications

Spectrum of Terror R. Hrair Dekmejian, 2006-02-07 Since 9 11 images of fanatical jihadists have become the international symbol of terrorism In the wake of the attacks journalists and academics alike have taken up the task of trying to make sense of these seemingly alien terrorist organizations Many of these sources have perpetuated the idea that terrorists are unknowable or irrational What is often missed is the degree to which terrorists have motivations that can be grasped and understood In his new text Dekmejian places terrorism within a spectrum of political violence creating a typology of terror based on scale and intent as well as by type of actor from isolated attacks by individual bombers to large scale attacks against state targets by organized networks to state sponsored genocide and politicide thus facilitating comparisons across multiple cases As well the book's model of conflict is informed by game theory enriched with understandings of psychological cultural and historical contexts helping students focus on the strategies and desired outcomes of different parties to conflict This analytic approach enables students to trace the changes in mutual perceptions and preferences between terrorists and their targets and leads to a fuller understanding of the causes and dynamics of political violence The book's uniquely
