Brooks, 2011-11-25 Global justice and international affairs is perhaps the hottest topic in political philosophy today This book brings together some of the most important essays in this area Topics include sovereignty and self determination

cosmopolitanism and nationalism global poverty and international distributive justice and war and terrorism *Terrorism and Criminal Justice* Ronald D. Crelinsten, Danielle Laberge-Altmejd, Denis Szabo, 1978 This book derives from a conference entitled The impact of terrorism and skyjacking on the operations of the criminal justice system held in February 1976 in Rochester Michigan **Interpol: Issues in World Crime and International Justice** Michael Fooner, 1989-08-31 Often

regarded as a mystery Interpol the world association of national police forces for mutual assistance in the fight against international crimes and criminal conspiracies is analyzed in this book by a research scientist and its inner workings scrutinized Annotation copyright Book News Inc **Problems Of International Justice** Steven Luper-foy, 2019-06-04

When the topic of international justice did arise discussion rarely got beyond recommendations about how nations could avoid war as well as suggestions about when a declaration of war was morally justifiable and what sorts of methods might be used in the course of a justifiable war the topics of so called just war theory Such is no longer the case To be sure just war theory is reaching greater states of sophistication much of it focused around Michael Walzer's book Just and Unjust Wars Excerpts from Walzer's book appear here in Part Two along with a set of newly written chapters that deal with issues arising from the use of violence among nations The topics of these chapters are foreign interventionism and states rights deterrence and the threat of nuclear reprisal and terrorism But issues of international justice other than just war theory have been discussed by an ever increasing group of twentieth century scholars These issues deal with what might be called for lack of a better term distributive justice which concerns the distribution of the world's natural resources and the goods produced

by laborers across the world as well as the duties rights and liberties possessed by individuals How such items ought to be distributed within nation states has been discussed extensively by social and political philosophers Only in recent years has any attention been paid to the proper distribution of goods internationally The chapters in Part One all do so With one exception all of these chapters are written for this volume The exception is an excerpt from Charles Beitz's book *Political Theory and International Relations* Part Three of which is reproduced here almost in its entirety The other chapters in this part are devoted to the topics of justice and the distribution of the world's resources the obligation to assist the needy the responsibilities of international corporations and justice and the global environment

Assisting International Justice Tom Buitelaar, 2023-10-04 Although the International Criminal Court ICC as the only permanent international court that addresses crimes against humanity genocide and war crimes has important potential to end impunity and find justice for victims of atrocities it is dependent on others for almost all aspects of its functioning The Court has frequently relied on the peacekeeping operations that the UN deploys in the field and over the past two decades UN peacekeepers have provided logistical assistance and security to Court investigators shared large amounts of information and have even been involved in the arrest of Court suspects But their track record has been inconsistent they have sometimes refused to take action against people accused of war crimes and have found it difficult to balance their impartiality with court prosecutions Despite the empirical importance of this phenomenon we know precious little about the circumstances under which it occurs In Assisting International Justice Buitelaar reveals the conditions under which UN peacekeepers address impunity in their mission areas He presents an original single country case study of assistance provided by the UN mission in the Democratic Republic of the Congo and a plausibility probe of other peace operations in ICC situation countries Relying on new empirical material including over 130 interviews of key decision makers and comprehensive archival research this scholarly volume explores how the UN navigates the terrain of conflict mediation and punitive accountability and demonstrates the collaborative but contingent relationship between the UN and the ICC
