Educational Assessment and Accountability for All Students Stephen N. Elliott, 2000 This guide provides information about the assessment and inclusion of all students in statewide and district assessment programs. In particular, it focuses on tactics for including students with disabilities in assessment to achieve a more complete picture of student learning and educational accountability. It is designed to help Wisconsin educators become familiar with the state's academic content standards and knowledgeable of the general content of tests in the Wisconsin Student Assessment System so that they can actualize the requirements of the recently reauthorized Individuals with Disabilities Education Act and the potential of standards-based education for all students. In addition, the book provides detailed information on the state's testing guidelines, the valid use of testing accommodations and alternate assessments, and how to communicate these assessment results to educational stakeholders. Specific chapters include 1. Educational Assessment Today 2. Characteristics of Good Assessment 3. Understanding and Using the Wisconsin Student Assessment System 4. Facilitating the Participation of All Students in Assessments and 5. Best Practices in Assessment Programs for Educational Accountability. Appendices include standards for teacher competence in educational assessment of students, guidelines for testing procedures, and a code of fair testing practices in education. Chapters include references.

CR Glencoe Mathematics William Collins, 1999 **Teaching Reading in the 21st Century** Michael F. Graves, Connie Juel, Bonnie B. Graves, 2001 Expanding the book's critical literacy theme, this edition emphasizes a full, balanced range of knowledge and skills for teaching reading to all learners. Informed by the latest research on topics ranging from phonemic awareness and phonics to reader response and teaching for understanding, the book gives teachers the knowledge and skills to successfully guide elementary students toward critical literacy, the use of reading and writing to think clearly, solve problems, and communicate effectively. The content is rich in first-person accounts, classroom vignettes, and hands-on literacy activities. Some principal themes include balancing skills instruction and more holistic approaches, fostering the love of reading, using reader response theory to enhance reading instruction, and successfully teaching all students to become able and eager readers. For teachers of elementary reading methods.
