Testimony and Witnessing in Psychoanalysis Zipi Rosenberg Schipper,2023-12-01 In this fascinating volume Zipi Rosenberg Schipper approaches the fundamental topic of testimony seeking to recognize its value as a distinct and vital function in psychoanalytic work separate from its inherited importance to work on trauma Rosenberg Schipper introduces a revivifying philosophical linguistic and psychoanalytic approach to the act of testimony focusing on the role of witnessing in daily life and the importance it has as a therapeutic tool in psychoanalytic and psychological therapy Throughout she pinpoints three key psychoanalytic theories on patient testimony She begins by looking at Freud s foundational work on testimony as a means of concealing the unconscious and the questions of credibility in the consulting room this creates before looking at Winnicottian and Kohutian theories whereby therapists take everything the patient says as a definitive truth She concludes by looking at the Intersubjective and Relational schools of thought where the therapist assumes the role of witness By providing a comprehensive overview of the conflicting theories on the topic Rosenberg Schipper equips practicing psychoanalysts and analysts in training with the tools necessary to utilize this vital therapeutic device and engage with it in treatment for all patients

History, Memory and Nostalgia in Literature and Culture Regina Rudaitytė,2018-07-27 The advent of the new age has alerted us to the conflicted nature of historical memory which defined the 20th century while simultaneously assaulting us with new historical upheavals that demand responsibility and critical consideration As the historical text bears traces of the writing subject the element of deception is remarkable meaning historical memory easily lends itself to forgery and false and subjective projections As such how do we think about the past about history about memory and how does memory function Is history an objective account a collection of dry reliable facts Is it an imaginative narrative tinged with nostalgia a projection of our wishful thinking the workings of our subjective perceptions and attitudes our states of mind The essays in this volume focus on the relevance of the past to the present and future in terms of the shifting attitudes to personal and collective experiences that have shaped dominant Western critical discourses about history memory and nostalgia The contributors here take issue with the epistemological hermeneutic ethical and aesthetic dimensions of the representational practices through which we revisit and revise the meaning of the past Political Conversion Don Waisanen,2018-04-20 Stories of religious conversion have been told for millennia Yet many prominent figures such as Ronald Reagan Hillary Clinton and Rick Perry have also used stories of their change from one political worldview to another as a communication strategy aimed at winning the hearts and minds of the public This book is about political conversion stories in public discourse in their evolution from and interactions with religion From a historical perspective it charts the development of conversion narratives from religious contexts to their contemporary applications as specifically political messages Since these narratives continue to be used in the culture wars this book examines several related autobiographies that contributed to the use of this strategy in contemporary U S politics Each case shows how shifts during the postwar period called for conversion texts under varying

guises and illustrates how and why the majority of these stories have been of conversions from the ideological left to the right
Examining political conversion as a form of public persuasion Political Conversion ultimately provides insight into what these
types of civic religious stories mean for democratic communication and communities
