

Traditional Teams

Agile Teams

What is a self-organizing team? Unlike traditional teams, self-organizing teams do not wait for managers to assign any work to them. Instead, they identify all the work that needs to be done, prioritize tasks that are required, and manage the timelines on their own.

Traditional Organizations	Self-Organized Teams
Management-driven	Customer-driven
Workforce of isolated specialist	Multiskilled workforce
Information is limited	Information shared widely
Segregated goals	Shared goals
Focus on problem-solving	Focus on achievement of objectives
High management commitment	High worker commitment

Allied Health Workforce and Services Institute of Medicine, Board on Health Care Services, 2012-01-02 The demand for health care is growing as the nation ages and seeks to provide coverage for the millions of Americans who lack health insurance At the same time escalating costs have led to a variety of initiatives to make the delivery of health care more effective and efficient The allied health workforce is critical to the success of these efforts The IOM held a workshop May 9 10 2011 to examine the current allied health care workforce and consider how it can contribute to improving health care access quality and effectiveness

Engineering the System of Healthcare Delivery Denis A. Cortese, 2010-05-15 As the United States continues to debate reform of its healthcare system this book argues that providing health insurance for all without improving the delivery system will not improve the current problems of access affordability and quality The US healthcare system has many excellent components strong scientific input extraordinary technology for diagnosis and treatment dedicated staff and top class facilities among them But the system has evolved haphazardly over time and although it has not failed entirely the authors argue that like any system where attention is paid to individual components at the expense of the system as a whole it can never hope to succeed Above all they point out that the US system does not provide high value healthcare it has the highest costs in the world and yet many other countries have lower infant mortality rates and better life expectancy Together with a team of highly regarded thought leaders the authors of this publication advocate a complete re thinking of healthcare from a systems perspective an engineering approach to healthcare and they then describe how to set about it Covering a wide range of subjects including health care costs and economics barriers to change integrated health systems electronic records and computer based patient support as well as patient safety and palliative and chronic care this book will be of interest to all those involved in healthcare provision whose goal is affordable care to promote healthy high quality lives
