Texas Marital Property Rights, Materials J. Thomas Oldham, 1987 Texas Marital Property Rights Pamela George, 1998 **Texas Marital Property Rights--Cases and Materials (2009-2010)** Pamela E. George, 2009-08
Community Property Law Richard C. Burnett, 1926 **Texas Marital Property Rights** Pamela E. George, 2014
Texas Marital Property Rights J. Thomas Oldham, 2016 In this book Oldham a professor who has taught Texas community property for 35 years uses his expertise to survey important legal concepts relating to marital property Most chapters contain introductory material regarding each topic so students have some background before wading through cases Practical information is presented to encourage students to consider the context of legal practice For example the book features material on client counseling dealing with difficult clients and the challenge of drafting unambiguous documents Notes after many cases provide more information about Texas law in a particular area and when there are no Texas cases addressing an issue cases from other states are included The book s sixth edition continues the philosophy of previous editions and includes additional material that updates the text Recent cases added in this edition cover a variety of topics and situations such as all the potential claims cohabitants can have when the relationship ends how to calculate the marital claim to goodwill relating to a business started during marriage the impact of ERISA preemption on community property law what happens when spouses have lived in other states before moving to Texas and filing for divorce and when a premarital agreement will be perceived to be involuntarily signed and therefore unenforceable This edition also features a substantial discussion about the current state of reimbursement law in Texas after recent statutory enactments **Searching the Law - The States** Francis R Doyle, 2022-11-14 This revised two volume set reproduces the easy to use logically organized format of Searching the Law for each of the 50 U S states Arranged by state and by topic within each state it features a complete list of all the legal research materials available for each state jurisdiction thousands of citations to the legal literature of each state materials applicable to more than one topic listed under each topic repeated listings under each state and topic where they apply and author title publisher format and the latest known supplement for each citation Searching the Law The States is the companion text to Searching the Law Together the sets form one of the most comprehensive logical legal reference sources available Published under the Transnational Publishers imprint The print edition is available as a set of two volumes 9781571052872 *Reports of the Tax Court of the United States* United States. Perspective Jens M Scherpe, 2012-02-24 This book deals with a subject that has recently been the focus of debate and law reform in many jurisdictions how much scope should spouses have to conclude agreements concerning their financial affairs and under what circumstances should such agreements be binding and enforceable These marital agreements include pre nuptial post nuptial and separation agreements The book is the result of a British Academy funded research project which investigated and compared the relevant law of England and Wales Australia Austria Belgium France Germany Ireland the Netherlands New Zealand Scotland Singapore Spain Sweden and the jurisdictions of the United States In addition to chapters on these jurisdictions the book includes a chapter on the English practitioner's view It also provides a comparative analysis of the different matrimonial property regimes and the rules on marital agreements that explores underlying themes and principles and makes recommendations for regulating marital agreements A key theme is the function and effect of marital agreements in the different jurisdictions Thus each chapter first explains the underlying default rules for ancillary relief matrimonial property and maintenance It then analyses the current rules for marital agreements and gives a brief account of the private international law rules The book provides a comprehensive source of reference on ancillary relief matrimonial property and maintenance and the rules on pre nuptial post nuptial and separation agreements in 14 jurisdictions It offers guidance for academics and practitioners dealing with international matters and a basis for discussions on law reform I applaud the vision and perseverance of Jens Scherpe in having conceived this book and with so much distinguished help in now bringing it to birth I will be using it for many years and I warmly invite my fellow family lawyers across the world to do likewise Foreword by The Rt Hon Lord Wilson of Culworth Justice of the Supreme Court of the United Kingdom This title is included in Bloomsbury Professional's Family Law online service
