regulatory process short circuited with government and industry alike turning a blind eye to symptoms like earthquakes and nosebleeds Briggles decides to take action Though our field philosopher is initially out of his element joining fierce activists like Texas Sharon once called the worst enemy of the oil and gas industry his story culminates in an underdog victory for Denton now nationally recognized as a beacon for citizens rights at the epicenter of the fracking revolution **The Family** Kitty Kelley,2004-09-14 From the First Lady of unauthorized tell all biography this is the first real inside look at the most powerful and secretive family in the world From Senator Prescott Bush s alcoholism to his son George Herbert Walker Bush s infidelities to George Walker Bush s religious conversion shady financial deals and military manipulations Kitty Kelley captures the portrait of a family that has whitewashed its own story almost out of existence *Gathering Together, We Decide* Margo Tamez,Cynthia Bejarano,Jeffrey P. **Grand Delusion** Steven Simon,2023-04-11 A comprehensive even magisterial review This is strong stuff but Simon does not flinch Foreign Affairs A longtime American foreign policy insider s penetrating and definitive reckoning with this country s involvement in the Middle East The culmination of almost forty years at the highest levels of policymaking and scholarship Grand Delusion is Steven Simon s tour de force offering a comprehensive and deeply informed account of U S engagement in the Middle East Simon begins with the Reagan administration when American perception of the region shifted from a cluster of faraway and frequently skirmishing nations to a shining urgent opportunity for America to in Reagan s words serve the

cause of world peace and the future of mankind Reagan fired the starting gun on decades of deepening American involvement but as the global economy grew bringing an increasing reliance on oil U S diplomatic and military energies were ever more fatefully absorbed by the Middle East Grand Delusion explores the motivations strategies and shortcomings of each presidential administration from Reagan to today exposing a web of intertwined events from the history of the Israel Palestine conflict amid Israeli domestic politics Cold War rivalries and Saudi Arabia s quest for security to 9 11 and the war on terror managed by a Washington policy process frequently ruled by wishful thinking and partisan politics Simon s sharp sense of irony and incisive writing brings complex history to life He illuminates the motives behind America s commitment to Israel explodes the popular narrative of Desert Storm as a good war and calls out the devastating consequences of our mistakes particularly for people of the region trapped by the onslaught of American military action and pitiless economic sanctions Grand Delusion reveals that this story while episodically impressive has too often been tragic and at times dishonorable As we enter a new era in foreign policy this is an essential book a cautionary history that illuminates American s propensity for self deception and misadventure at a moment when the nation is redefining its engagement with a world in crisis

**Land Grabbing and Global Governance** Matias E. Margulis, Nora McKeon, Saturnino Borrás Jr., 2016-05-23 Land grabbing per se is not a new phenomenon given its historical precedents in the eras of imperialism However the character scale pace orientation and key drivers of the recent wave of land grabs is a distinct historical event closely tied to the changing dynamics of the global agri food feed and fuel complex Land grabbing is facilitated by ever greater flows of capital goods and ideas across borders and these flows occur through axes of power that are far more polycentric than the North South imperialist tradition Land grabs occur in the context of changes in the character of the global food regime formerly anchored by North Atlantic empires the integrated food energy complex seems to be headed towards multiple centres of power especially with the rise of the BRICS and the proliferation of middle income countries participating in many of the land transactions Land Grabbing and Global Governance offers insights from leading scholars and experts on contemporary land grabs This volume examines land grabs in direct relation to a global economy undergoing profound change and the role of new configurations of actors and power in governance institutions and practices This book was published as a special issue of Globalizations
