Moore,Barbara B. Wilson,2013-07-24 The book shines light on the problem of judgment particularly in the realm of architectural technics and the codes that regulate it The struggle to define sustainability and thus judge architecture through such lenses is but one dimension of the contemporary problem of judgment By providing the reader with an inherently interdisciplinary study of a particular discipline architecture it brings to the topic lenses that challenge the too frequently unexamined assumptions of the discipline By situating architecture within a broader cultural field and using case studies to dissect the issues discussed the book emphasizes that it is not simply a matter of designing better more efficient or more stringent codes to guide place making but a matter of reconstructing the boundaries of the systems to be coded The authors are winners of the EDRA Place Research Award 2014 for their work on the Green Alley Demonstration Project used in the book *Captain Ransom, Texas Ranger* Pat Hill Goodrich,2007-10

Captain Henry Lee Ransom lived during a rarely researched era and was never written about before despite serving three times as a Texas Ranger Quiet but authoritative his phenomenal marksmanship and bravery earned him much respect And though an incorruptible and courageous lawman Captain Ransom adored his children and proved to be a gentle loving family man He lived during turbulent times especially during the Border s Bandit Wars Fighting with the US Army in the Spanish American War he served in the Philippines twice While there he earned a medal and promotion for bravery One astounding feat is described when he and others spent six months in the jungles to rescue soldiers kidnaped by savages When he wasn t serving in the capacity of a soldier he was a detective in Houston and was also appointed by the mayor as chief of police to clean up the town Though his stint as police chief was short the women of hte town said they could walk safely in the streets afterwards Termed one of the great captains by his peers he was loved by the law abiding and feared by criminals He believed all should obey the law including high public officials Perhaps this could have attributed to his assassination at age 44 in 1918 he knew too much and was about to report it His death was claimed to be an accident but extensive research in the State Archives produced clues revealed in this book that would indicate otherwise Ransomware and Cyber Extortion Sherri Davidoff,Matt Durrin,Karen
