National Library of Medicine Current Catalog National Library of Medicine (U.S.),1990 **Current Catalog**
National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 **Principles and Practice of Palliative Care and Supportive Oncology** Ann M. Berger,John L. Shuster, Jr.,Jamie H. Von Roenn,2012-12-03 Unlike other textbooks on this subject which are more focused on end of life the 4th edition of Principles and Practice of Palliative Care and Supportive Oncology focuses on supportive oncology In fact the goal of this textbook is to provide a source of both help and inspiration to all those who care for patients with cancer Written in a more reader friendly format this textbook not only offers authoritative and up to date reviews of research and clinical care best practices but also practical clinical applications to help readers put everything they learn to use **Palliative Care** Jean Lugton,Rosemary McIntyre,2006-01-04 This title is directed primarily towards health care professionals outside of the United States Palliative Care The Nursing Role is an introductory text for nurses and other health care professionals who deliver palliative care across a range of settings It lays a clear foundation of knowledge focusing on the needs and perspectives of patients and families who face the challenge of advanced incurable illness The style is highly accessible yet challenges readers to analyze key issues that present within palliative care Covering the wide range of care provision in hospices hospitals and patients homes the book draws widely from practice based examples to explain and expand upon theoretical issues Research evidence underpins each of the chapters Guided activities encourage readers to reflect in a focused way on their clinical experience and current practice This new edition has been fully updated to reflect ongoing developments and shifting trends in palliative care education and practice It will suit the needs of both pre and post qualifying students seeking to develop their knowledge and is well suited to practitioners working within either generalist or specialist palliative care settings or within acute or community settings as well as those studying a range of palliative care educational curricula The authors have a wide range of experience in palliative care and all are actively engaged in practice and or education A clear broad based approach offers a thorough introduction for the non specialist nurse Written and edited by an experienced team of nurses working in this field grounding it in current practice Learning outcomes listed at the start of each chapter aid learning and comprehension Reflective practice activities and an outline of CPD is especially useful for students working independently Case histories recommended reading lists and references provide a solid evidence base for clinically based practice and facilitate further study Thoroughly revised and updated to reflect changes in policy direction A new chapter on pain and symptom management Revised content reflects the recent shift in the evidence base concerning spirituality Includes psychosocial issues of loss for the patient their family and careers **Lymphoedema** Karen Jenns,Robert G. Twycross,Jacquelyne Todd,2000 This practical reference draws together the combined expertise of a wide range of health professionals in managing this condition Their work is soundly based on recent research into its pathology manifestations and treatment to develop appropriate management strategies Part

of the value in this book lies in its reference to patient perspectives and how they can contribute to the most effective care

Complementary Therapies in Rehabilitation Carol M. Davis, 2009 For over a decade Dr Carol Davis opened the minds of health care professionals worldwide to the idea of complementary therapies in rehabilitation The pages of this renowned text covered evidence for efficacy in therapy prevention and wellness unlike any other text it is the first of its kind published in the United States As science continues to evolve and change so does the expertise of Dr Davis and the experienced therapists who join together in writing the various chapters in the Third Edition of Complementary Therapies in Rehabilitation This evidence based text includes an insightful review profiling the latest peer reviewed research of holistic approaches commonly used in rehabilitation Students and practitioners are now able to evaluate the efficacy of these approaches from the evidence that is reported New to the Third Edition The latest summary of findings in energy medicine and bio energetics applied to rehabilitation therapies Updates on randomized control trials Reviews of evidence of efficiency Energy techniques as a way of returning healing to health care Professionals will also be excited to have at their hands a new chapter describing the latest discoveries in the science that helps explain how these therapies may work It appears that the future of health care will be based on this unfolding science of energy medicine and vibration Professor Davis reads the most updated reports of the latest quantum science and then translates this information into meaningful ideas that relate to what therapists observe every day with patients in their case Complementary Therapies in Rehabilitation Third Edition is the perfect text for all rehabilitation professionals looking to deepen their understanding of various holistic modalities that are making a difference in rehabilitation especially with patients who have hit the wall with the standard treatments that based on mechanistic science This text provides the latest knowledge and description of rehabilitation professionals experience with these therapies and reports the latest peer reviewed evidence for efficiency in therapy prevention and wellness

Naturopathic Physical Medicine Leon Chaitow, 2008-04-24 NATUROPATHIC PHYSICAL MEDICINE provides a philosophical naturopathic perspective as well as practical clinical applications for manual and physical approaches to health care A wide range of bodywork and movement approaches and modalities are evaluated in relation to their ability to be appropriately used in naturopathic treatment and rehabilitation settings The model of care emphasised in this text recognizes that naturopathically oriented therapeutic interventions usually focus on achieving one or all of the following enhancement of function so that the person system or part can better self regulate in response to adaptive demands modification or removal of adaptive load factors and symptomatic relief without creation of significant additional adaptive changes **International**
