Rosén, 1966 **Textbooks on Israel-Palestine** Seyed Hadi Borhani, 2022-01-27 How is the Israel Palestine question narrated in Western academia What ideas dominate the key textbooks on the subject and what is presented as truth This book answers these critical questions It is widely known that Western support of Israel played a vital role in the realization of Zionist objectives in Palestine But academic support of Israel in the West has been a neglected issue with Western academic knowledge being regarded as impartial and objective This book reveals that this understanding of Western academic knowledge is wrong when it comes to the Israel Palestine question Rather knowledge has been biased misleading and dogmatic and Western college students are subscribing to factual histories based on theories at best if not fiction The book is the first empirical investigation able to document this partial reporting of history Seyed Hadi Borhani examines the most popular college level textbooks used to teach the history of the Israel Palestine in Western universities combining textbook analysis to determine how the dominant academic texts report the question and a context analysis to identify who manufactures the dominant knowledge The book provides a historical map of how the Israel Palestine conflict is understood in the West The book can be used as a critique for students and professors to use alongside textbooks and is a vital and much needed intervention into the state of affairs in Western academia

Israeli history textbooks in the past contained many biases, distortions, and omissions concerning the depiction of Arabs and the history of the Arab-Israeli conflict. Today, these misrepresentations are gradually being corrected. This study encourages the depiction of a balanced portrait in all textbooks. By reviewing curricula and textbooks used in the Israeli educational system since the establishment of Israel, the author assesses the impact of Zionist historiography and the Zeitgeist on the portrayal of Arabs in textbooks. The study unravels the biases, distortions, omissions, and stereotypes through the analysis of several major historical events, such as the 1948 war, the refugee question, the 1967 war, and the peace process. *Exile and Return* Ann M.
