

made some exploratory remarks about a unitary party system, than the preliminary figures on the 1963 census were released. These revealed that Northern Nigeria had a population exceeding that of the three southern regions combined, by a margin sufficient to insure the north's perpetual control of the federal Parliament and government. This gave rise to strong feeling in the south and, particularly, in Eastern Nigeria, since the allegedly inflated figures of the east, in the 1962 census, were the ostensible reason for taking a new census in 1963. At one point, early in 1964, there was a separatist call from the Ibo Union (the Ibo tribe predominates in the east). This brief clamor subsided, but the tensions remain and, during 1964, found expression in a realignment of political parties and forces in anticipation of the 1964 elections.

Pakistan. The Development of its Laws and Constitution. Second edition. By ALAN GLEDHILL. The British Commonwealth. The Development of its Laws and Constitutions, Volume 8. Under the general editorship of George W. Keeton. [London: Stevens & Sons. 1967. xi and 393 pp. £4 17s. 6d.]

THE price should not affright, because this revised edition covers legal and constitutional history, the Constitution of 1962, and the personal laws and statute law of Pakistan, the last of which (excluding the constitutional documents) is to occupy fifteen thick volumes of the *Laws of Pakistan*. The method is like that employed in the volume on India. The laws and their history are expounded and illustrated concisely, without academic discussion. What the series promises is information such as can be used for almost any purpose, and this volume gives it with no distractions. For those interested in the capacity of a modern Muslim State to work a democratic constitution and to observe the Rule of Law this provides circumstantial, compelling and agreeable evidence. For those who need to know how a State can be, legally speaking, a full member of the Commonwealth and at the same time an Islamic republic, this is the only book, altogether convincing.

The unique feature called "Basic Democracies" (p. 116) is introduced with a rare personal comment, giving a glimpse of the author's sympathetic grasp of his protean complex of topics: "... local government boards provide the best training ground for national politicians and, while one could not expect it to be heard with patience in the Indo-Pakistan sub-continent today, it could be argued that constitutional progress . . . has introduced democratic government at the higher levels too fast to avoid the strains resulting from the slower progress at lower levels. . . ." No comment was (or is) necessary on the Supreme Court's finding that the average woman's vote was a second vote for a male relative (so that votes for women were frequently a farce): p. 219. Since the first edition in 1957 Pakistan has been through experiences which tested her commitment to constitutionality and indeed to law: this edition chronicles what has been achieved thereby, and it is possible that it will be more significant in this way than any other volume or edition in the series.
