Not My Mother's Sister Astrid Henry, 2004-09-07 No matter how wise a mother's advice is we listen to our peers At least that's writer Naomi Wolf's take on the differences between her generation of feminists the third wave and the feminists who came before her and developed in the late 60s and 70s the second wave In Not My Mother's Sister Astrid Henry agrees with Wolf that this has been the case with American feminism but says there are problems inherent in drawing generational lines Henry begins by examining texts written by women in the second wave and illustrates how that generation identified with yet also disassociated itself from its feminist foremothers Younger feminists now claim the movement as their own by distancing themselves from the past By focusing on feminism's debates about sexuality they are able to reject the so called victim feminism of Catherine MacKinnon and Andrea Dworkin Rejecting the orthodoxies of the second wave younger feminists celebrate a woman's right to pleasure Henry asserts however that by ignoring diverse older voices the new generation has oversimplified generational conflict and has underestimated the contributions of earlier feminists to women's rights They have focused on issues relating to personal identity at the expense of collective political action Just as writers like Wolf Katie Roiphe and Rene Denfeld celebrate a new feminist hetero sexuality posited in generational terms queer and lesbian feminists of the third wave similarly distance themselves from those who came before Henry shows how 1970s lesbian feminism is represented in ways that are remarkably similar to the puritanical portrait of feminism offered by straight third wavers She concludes by examining the central role played by feminists of color in the development of third wave feminism Indeed the term third wave itself was coined by Rebecca Walker daughter of Alice Walker Not My Mother's Sister is an important contribution to the exchange of ideas among feminists of all ages and persuasions

Line Drawings Cressida Heyes, 2018-08-06 At the heart of feminist theory lies the seemingly intractable issue of essentialism Feminism has thus far failed to transcend critiques of essentialism and currently offers only two inadequate positions against it One response reifies the category women representing the experience of oppression of privileged women as archetypal for feminism and the other denies the category because it unjustly overgeneralizes thus undercutting the possibility of a robust theory of gender oppression To spur anti essentialist methods and practice around such issues as sexual violence feminist theory crucially needs a constructive and politically powerful strategy for defining women Cressida J Heyes deftly elucidates and then travels beyond the essentialism debates to rescue the efficacy of feminist theory for activism and research She offers a genealogy of essentialism specifically as it applies to the work of Carol Gilligan and Catharine MacKinnon and employs a Wittgensteinian approach to feminism that understands similarities between women as family resemblances and political decisions about inclusion and exclusion as

contextual and purposive Line Drawings argues for an anti essentialist method that enables generalizing feminist discourse but insists on paying close attention to the operations of power in constructing claims about women This is a fresh and vitally important step past stymied debate on what is arguably the most pressing issue in cross disciplinary feminist theory
