## Sketch Theory Of Emotions:

Sketch for a Theory of the Emotions Jean-Paul Sartre, 2015-10-15 Philosopher novelist dramatist and existentialist Jean Paul Sartre is one of the greatest writers of all time He was fascinated by the role played by the emotions in human life and placed them at the heart of his philosophy This brilliant short work which contains some of the principal ideas later to appear in his masterpiece Being and Nothingness is Sartre at his best insightful engaging and controversial Far from constraining one's freedom as we often think Sartre argues that emotions are fundamental to it and that an emotion is nothing less than a transformation of the world With a new foreword by Sebastian Gardner

Sketch for a Theory of the Emotions Jean-Paul Sartre, 2024-11-01 Although written fairly early in his career in 1939 Sketch for a Theory of the Emotions is considered to be one of Jean Paul Sartre's most important pieces of writing It not only anticipates but argues many of the ideas to be found in his famous Being and Nothingness By subjecting the emotion theories of his day to critical analysis Sartre opened up the world of psychology to new and creative ways of interpreting feelings Emotions are intentional and strategic ways of coping with difficult situations We choose to utilize them we control them and not the other way around as has been posited elsewhere Emotions are not fixed they have no essence and indeed are subject to rapid fluctuations and about turns For its witty approach alone Sartre's Sketch for a Theory of the Emotions can be enjoyed at length It is a dazzling journey to one of the more intriguing theories of our time
