Better Sleep, Better You Frank

Lipman, Neil Parikh, 2021-04-13 Sleep is the most important part of anyone's journey to a healthy and happy life and with this book you can learn how to fix your sleep schedule and recover precious hours of relaxation. If you're like most people, odds are you aren't getting enough sleep. Thanks to shifts in our culture, America is in the midst of an epidemic of sleeplessness and unfortunately, sleep deprivation has bigger consequences than one might think, ranging from irritability, brain fog, and weight gain to serious conditions like hormone dysregulation, heart disease, memory impairment, diabetes, and Alzheimer's. In *Better Sleep Better You*, functional medicine pioneer and sleep expert Frank Lipman MD and Casper co-founder Neil Parikh team up to offer a one-stop resource to help you reap the benefits of sleeping well every night. Unlike the dozens of articles offering a quick fix for insomnia, Lipman and Parikh understand that there's no such thing as a one-size-fits-all solution. By clearly explaining the latest developments in sleep science and all the factors that affect your sleep, including when and how you eat and exercise, how you handle stress, how you nap, and how you engage with technology, *Better Sleep Better You* helps readers create a personalized sleep protocol that works for their lifestyle and needs. Packed with fascinating science, engaging case studies, and easy-to-implement practical advice, *Better Sleep Better You* provides everything you need to optimize your sleep, productivity, and happiness for life. *Sweet Sleep*, La Leche League International, Diane

Wiessinger, Diana West, Linda J. Smith, Teresa Pitman, 2014-07-29 *Sweet Sleep* is the first and most complete book on nights and naps for breastfeeding families. It's mother wisdom, reassurance, and a how-to guide for making sane and safe decisions on how and where your family sleeps, backed by the latest research. It's 4 A.M. You've nursed your baby five times throughout the night. You're beyond exhausted. But where can you breastfeed safely when you might fall asleep? You've heard that your bed is dangerous for babies. Or is it? Is there a way to reduce the risk? Does life really have to be this hard? No, it doesn't. *Sweet Sleep* is within reach. This invaluable resource will help you sleep better tonight in under ten minutes with the Quick Start guide and sleep safer every night with the Safe Sleep Seven checklist. Sort out the facts and fictions of bedsharing and SIDS, learn about normal sleep at every age and stage from newborn to new parent, direct your baby toward longer sleep when he's ready, tailor your approach to your baby's temperament, uncover the hidden costs of sleep training and cry-it-out techniques, navigate naps at home and daycare, handle concerns from family, friends, and physicians, enjoy stories and tips from mothers like you, make the soundest sleep decisions for your family and your life. Advance praise for *Sweet Sleep*: Chock-full of advice and information. The editors smartly break the information into digestible bits organized by topics and age ranges. And for any parent desperate for an uninterrupted few hours of sleep, the advice is worth the read. *Sweet Sleep* includes extensive information on creating a safe sleep space, helping children learn to sleep on their own, and defusing criticism of your family's choices. This book is nothing but supportive of whatever your choices are about nursing and sleeping. BookPage An essential guide for parents, detailed practical advice on bed sharing and breast feeding with basic guidelines for safe bed sharing outlined in seven steps. *The Human Mind* Lord Robert Winston, 2014-07-30 It is the most complex and mysterious object in the universe Covered by a dull grey membrane it resembles a gigantic convoluted fungus Its inscrutability has captivated scientists philosophers and artists for centuries It is of course the human brain With the help of science we can now begin to understand the extraordinary complexity of the brain's circuits we can see which nerve cells generate electricity as we fall in love tell a lie or dream of a lottery win And inside the 100 billion cells of this rubbery network is something remarkable you

In this entertaining and accessible book Robert Winston takes us deep into the workings of the human mind and shows how our emotions and personality are the result of genes and environment He explains how memories are formed and lost how the ever changing brain is responsible for toddler tantrums and teenage angst plus he reveals the truth behind extra sensory perception d j vu and out of body experiences He also tells us how to boost our intelligence how to tap into creative powers we never knew we had how to break old habits and keep our brain fit and active as we enter old age The human mind is all we have to help us to understand it Paradoxically it is possible that science may never quite explain everything about this extraordinary mechanism that makes each of us unique      **Cognitive Psychology** Sandie Taylor,Lance

Workman,2021-09-15 Cognitive Psychology The Basics provides a compact introduction to the core topics in the field discussing the science behind the everyday cognitive phenomena experienced by us all The book considers laboratory and applied theory and research alongside technological developments to demonstrate how our understanding of the brain s role in cognition is improving all the time Alongside coverage of traditional topics in the field including attention and perception learning and memory thinking problem solving and decision making and language the book also discusses developments in interrelated areas such as neuroscience and computational cognitive science New perspectives including the contribution of evolutionary psychology to our understanding of cognition are also considered before a thoughtful discussion of future research directions Using real world examples throughout the authors explain in an accessible and student friendly manner the role our human cognition plays in all aspects of our lives It is an essential introductory text suitable for all students of Cognitive Psychology and related disciplines It will also be an ideal read for any reader interested in the role of the brain in human behavior      *It's Never Too Late to Sleep Train* Craig Canapari, MD,2019-05-07 From a leading pediatric sleep

physician comes a revolutionary program that will have everyone in the house sleeping through the night When Dr Craig Canapari became a father he realized that all his years of 36 hour hospital shifts didn t even come close to preparing him for the sleep deprivation that comes with parenthood The difference is that parents don t get a break it s hard to know if there s a night of uninterrupted sleep anywhere in the foreseeable future Sleepless nights for kids mean sleepless nights for the rest of the family and a grumpy group around the breakfast table in the morning In *It s Never Too Late to Sleep Train* Canapari helps parents harness the power of habit to chart a clear path to high quality sleep for their children The result is a streamlined two step sleep training plan that focuses on cues and consequences the two elements that shape all habits and that take on special importance when it comes to kids bedtime routines Dr Canapari distills years of clinical research and experience to make sleep training simple and stress free Even if you ve been told that you ve missed the optimal window for sleep training Dr Canapari is here to prove that it s never too late whether your child is 6 months or 6 years old He s on your side in the battle against bedtime and with his advice parents and children alike can expect a lifetime of healthy sleep

**Arthur's Lady's Home Magazine** ,1862      **Electromagnetic Risks** Felicia Dunbar,AI,2025-02-21 Electromagnetic

Risks explores the growing concern over the impact of electromagnetic fields EMFs from everyday technology on human health The book investigates how pervasive devices like smartphones and Wi Fi routers emit EMFs potentially affecting our biological systems It presents evidence suggesting links between EMF exposure and health issues such as sleep disturbances and chronic fatigue highlighting the need for proactive management in our increasingly electromagnetic environment The book begins by explaining the physics of EMFs and identifying their sources in residential and occupational settings It then examines the biological effects of EMFs drawing on scientific studies to explore potential health connections Uniquely the book concludes with a practical guide offering concrete strategies for reducing EMF exposure empowering readers with actionable solutions to optimize their living and working spaces and choose safer technologies This comprehensive guide is valuable for health conscious individuals seeking to understand and mitigate EMF risks It provides an evidence based approach presenting scientific information objectively while addressing areas of uncertainty By advocating for responsible technological development and offering practical advice Electromagnetic Risks equips readers to make informed decisions about their health in the face of EMF pollution
