Colosseums for Dinosaurs Stant Litore, In the far future an

empire's Independence Day is celebrated by dinosaur races and gladiatorial games on the backs of armored titans. Join us aboard the orbital colosseums. This omnibus edition includes *The Running of the Tyrannosaurs* by Nyota's Tyrannosaur and *The Screaming of the Tyrannosaur*. Once each year on orbital space stations nano-engineered young women compete on the backs of dinosaurs in races as brutal and bloody as any witnessed in the Roman Circus 3,000 years before. Highly skilled and capable of superhuman feats, these gladiators live isolated lives except for the resurrected beasts with whom they form their deepest bonds. Tonight on the red sands of the arena and inside the hollow asteroid where the dinosaurs are grown, the secrets these gladiators discover will shake their entire world. Join Livia Tanning Egret, Nyota Madaki, Jaguar, and Mai Changying Timberwolf in the three thrilling tales included in this omnibus edition: *The Running of the Tyrannosaurs* by Nyota's Tyrannosaur, *The Screaming of the Tyrannosaur*. This is a pulse-pounding story, a triumph of world-building, a story of gladiatorial combat and of bonds strange and transcendent. Without a doubt, one of the most enthralling stories I've come across.

Samuel Peralta *The Future Chronicles* *The Bare Bones* Matthew F. Bonnan, 2016-02-15 Bonnan combines wit and passion with the sensibilities of a talented instructor in this encyclopedic tour of the vertebrate skeleton. Publishers Weekly: What can we learn about the evolution of jaws from a pair of scissors? How does the flight of a tennis ball help explain how fish overcome drag? What do a spacesuit and a chicken egg have in common? Highlighting the fascinating twists and turns of evolution across more than 540 million years, paleobiologist Matthew Bonnan uses everyday objects to explain the emergence and adaptation of the vertebrate skeleton. What can camera lenses tell us about the eyes of marine reptiles? How does understanding what prevents a coffee mug from spilling help us understand the posture of dinosaurs? The answers to these and other intriguing questions illustrate how scientists have pieced together the history of vertebrates from their bare bones. With its engaging and informative text plus more than 200 illustrative diagrams created by the author, *The Bare Bones* is an unconventional and reader-friendly introduction to the skeleton as an evolving machine. No bones about it: a text like *The Bare Bones* was sorely needed in the popular literature of vertebrate paleontology. Matthew Bonnan's tome on the evolution, form, and function of the vertebrate skeleton may seem daunting in size, but it is written in an enjoyable and readable fashion that will absolutely delight all sorts of readers, from expert to soon-to-be expert. *Palaeontologia Electronica*: A remarkably fun book to read, his conversational style and wit make this an unintimidating yet highly informative book that would work wonderfully in college courses. *The Quarterly Review of Biology*

BILDUNGSROMAN & THE AMAZON PRINCESS Melvin Karew, 2012-10-30 A thick white mist hangs over the Eastern Sea, covering all of the ships that are attempting to navigate the grey waters. The pirates sit on the bottom of their sleek ship, huddled amongst their chests of gold, shivering in fear despite the warmth of the night. Humfard, the one-eyed hobgoblin, jumps lithely up onto the aft castle towards Elkira, who steers the

ship It s unnatural this fog he grumbles at this time of year it is Aye Humfard responds the pirate woman I sense the work of a spell caster Look I cannot even see the bottom of the ship from up here Through the fog on the forecastle two pirates stand and look over the side trying to peer through the deep forbidding wall of whiteness Did you hear something one of them asks It was like a splashing on the water It is just the ship Actually it was me says a feminine voice from the gloom They jump up startled as a soaking wet Mora steps from the ship s wooden railing onto the top of the forecastle The water on her cape and hood is evaporating turning into steam as she moves I am looking for a band of travellers who stole the cargo of a ship called the Peregrine How stammers one of the pirates The other draws his falchion and jumps at the cloaked figure The scythe spins around and the man falls back his arm severed The second pirate jumps to the back of the forecastle and yells for help Mora s scythe slices across and cuts off his cry in mid yell His head falls down from the forecastle amongst his comrades The second pirate is pulling himself away from Mora dragging himself with his left hand She is almost nonchalant in her execution of him the point of her scythe stabbing down as she investigates the remainder of the forecastle She walks to the edge of the forecastle and looks into the mist filled hull of the ship She can hear the shouts and yells of the pirates and she smiles to herself She readies her scythe and jumps down from the forecastle amongst the confused pirates Humfard stares intently into the mist What is happening he growls I cannot see a thing Behind him Elkira ties the steering in place and draws her falchion We must investigate she says Our dog brothers need our help No he mutters If we go down into the mist we will be ambushed We will wait up here and catch them if they come up the ladder They wait standing at the top of the ladder that leads from the hull They can hear the sounds of cries and shrieks of muffled movements and the swish of sword and scythe strikes A head flies out of the mist and crashes against the side of the forecastle before dropping back into the hull Two pirates run out of the mist towards the forecastle screaming in fright One appears to trip over and his body falls forward Elkira notices that his legs are severed below the knee The second pirate jumps up onto the ladder and Humfard reaches down a hand to help him up He grabs the pirate by the hand and pulls him upwards dragging him towards the top The pirate shrieks in pain and Humfard grunts unable to drag any further Then the pirate is free and Humfard falls backwards the body of the pirate falls onto him Elkira gasps in fright there is a huge hole in the pirate s back Elkira turns back to the ladder and looks into the depths of the fog her falchion ready Humfard pushes the body from him and staggers to his feet Humfard backs away from the edge with fear in his eyes He hears a creaking sound behind him like a door opening and he turns around slowly Mora is standing behind him next to the trapdoor that leads from the cabin below inside the aft castle There are cuts on her cloak and blood splattered over it Elkira notices that although most of the blood is red some of appears to be white and actually burns the cloak where it drips onto
