## **Social Action And Nonviolence:**

Reconstructing Nonviolence Roberto Baldoli, 2018-09-03 Nonviolent methods of action have been a powerful tool since the early twentieth century for social protest and revolutionary social and political change and there is diffuse awareness that nonviolence is an efficient spontaneous choice of movements individuals and whole nations Yet from a conceptual standpoint nonviolence struggles to engage with key contemporary political issues the role of religion in a post secular world the crisis of democracy and the use of supposedly nonviolent techniques for violent aims Drawing on classic thinkers and contemporary authors in particular the Italian philosopher Aldo Capitini this book shows that nonviolence is inherently a non systematic and flexible system with no pure immaculate thought at its core Instead at the core of nonviolence there is praxis which is impure because while it aims at freedom and plurality it is made of less than perfect actions performed in an imperfect environment by flawed individuals Offering a more progressive transformative and at the same time pluralistic concept of nonviolence this book is an original conceptual analysis of political theory which will appeal to students of international relations global politics security studies peace studies and democratic theory

**The Critique of Nonviolence** Mark Christian Thompson, 2022-06-28 How does Martin Luther King Jr understand race philosophically and how did this understanding lead him to develop an ontological conception of racist police violence In this important new work Mark Christian Thompson attempts to answer these questions examining ontology in Martin Luther King Jr s philosophy Specifically the book reads King through 1920s German academic debates between Martin Heidegger Rudolf Bultmann Hans Jonas Carl Schmitt Eric Voegelin Hannah Arendt and others on Being gnosticism existentialism political theology and sovereignty It further examines King s dissertation about Tillich as well other key texts from his speculative writings sermons and speeches positing King s understanding of divine love as a form of Heideggerian ontology articulated in beloved community Tracking the presence of twentieth century German philosophy and theology in his thought the book situates King s ontology conceptually and socially in nonviolent protest In so doing The Critique of Nonviolence reads King s Letter from a Birmingham Jail 1963 with Walter Benjamin s Critique of Violence 1921 to reveal the depth of King s political theological critique of police violence as the illegitimate appropriation of the racialized state of exception As Thompson argues it is in part through its appropriation of German philosophy and theology that King s ontology condemns the perpetual American state of racial exception that permits unlimited police violence against Black lives

**Strategic Nonviolent Power** Mark A. Mattaini, 2013-10-01 History indicates that there are powerful routes to liberation from oppression that do not involve violence Mohandas Gandhi called for a science of nonviolent action one based on satyagraha or the insistence on truth As Gandhi understood nonviolent resistance is not passive nor is it weak rather such action is an exercise of power Despite the success of Gandhi's Quit India movement the resources dedicated to the application of rigorous science to nonviolent struggle have been vanishingly small By contrast almost unimaginable levels of financial and human resources have been devoted to the science and technologies of killing war and collective violence Mark Mattaini reviews the history and theory of nonviolent struggles against oppression and discusses recent research that indicates the substantial need for and advantage of nonviolent alternatives He then offers a detailed exploration of principles of behavioral systems science that appear to underlie effective strategic civil resistance and people power Strategic Nonviolent Power proposes that the route to what Gandhi described as the undreamt of and seemingly impossible discoveries of nonviolent resistance is the application of rigorous science Although not a simple science Mattaini's application of ecological science grounded in the science of behaviour brings exceptional power to the struggle for justice and liberation At a time when civil resistance is actively reshaping global political realities the science of nonviolent struggle deserves the attention of the scientific activist strategic military spiritual and diplomatic communities as well as the informed public
