Sport Identity And Ethnicity:

Ethnicity, Sport, Identity Andrew Ritchie, 2004-03-01 The struggle for status within sport is a microcosm of the struggle for rights freedom and recognition within society Injustices within sport often reflect larger injustices in society as a whole In South Africa for example sport has been crucial in advancing the rights and liberty of oppressed groups The geographical and chronological range of the essays in *Ethnicity Sport Identity* reveal the global role of sport in this advance The collection examines cases of discrimination directed at individuals or groups resulting in their exclusion from full participation in sport and their consequent struggle for inclusion It shows how ethnic and national identity are sources of social cohesion and political assertion within sport and it illustrates the manner in which sport has served to project ethnicity in various often contradictory ways It depicts sport as an agent of conservatism and radicalism superiority and subordination confidence and lack of confidence and as a source of disenfranchisement and enfranchisement That sport has been and continues to be a potent means of both ethnic restriction and release can no longer be ignored

Sport, Identity and Ethnicity Jeremy MacClancy, 1996-03 Sport is now a major industry and one of increasing importance throughout both the developed and developing world but until now it has received little serious attention from anthropologists In this first general book on the anthropology of sport the contributors look at how different sports are used by a wide variety of peoples to express manipulate and negotiate their identities and to challenge the way they are defined by others Chapters address the role played by football teams in colonial Zimbabwe to express locals autonomy from their British rulers the evolution of one of Venice s central festive occasions its regatta from a ritual of state to a sport of the people modern and postmodern transformations of polo in Pakistan its original home the resolution of problematic aspects of social life in Turkey through wrestling the manner by which Catalan nationalists successfully exploited the Barcelona Olympics for their own political ends and the controversy between anglers and anti anglers in Britain This pioneering volume will be of interest to anthropologists sociologists sport historians and all those interested in this popular subject

Ethnicity, Sport, Identity J. A. Mangan, Andrew Ritchie, 2004 This text deals with discrimination directed at those excluded from full participation in sport and the consequent struggle through sport for inclusion recognition and respect It deals also with sport as a source of cohesion between individuals and groups from persecuted ethnic minorities

Sporting Nationalisms Mike Cronin, David Mayall, 1998 This collection examines the ways in which sport shapes the experiences of various immigrant and minority groups and in particular looks at the relationship between sport ethnic identity and ethnic relations

Sport, Representation and Evolving Identities in Europe Philip Dine, Seán Crosson, 2010 Sport annually mobilizes millions of people across Europe as practitioners in a wide variety of competitive educational or recreational contexts and as spectators who are physically present or following events through the mass media This book presents original research into modern sport funded by the Irish Research Council for the Humanities and Social Sciences Its aim is to examine the distinctive

contribution made by this complex phenomenon to the construction of European identities Attention is focused on sport's social significance as a set of mass mediated practices and spectacles giving rise to a network of images symbols and discourses The book seeks to explore and ultimately to explain the processes of representation and mediation involved in the sporting construction and subsequent renegotiation of local national and increasingly global identities It offers a survey of key developments in sporting Europe from the mid nineteenth century to the present and from the Atlantic to the Urals presenting findings by acknowledged international experts and emerging scholars at the level of individuals communities regions nation states and Europe as a whole in both its geographical and political incarnations Its focus on representation offers a broadly conceived and consciously inclusive approach to issues of Europeanness in modern and contemporary sport

Sport, Tourism and National Identities John Harris, 2016-03-23 The role of both sport and tourism in the re creation and re presentation of national identities is well established yet relatively little work has critically explored the inter relationship between sport tourism and the creation and maintenance of national identities Despite the advances of globalization the nation continues to be an important part of both sport and tourism discourse and offers fertile ground for the exploration of identities in postmodern society The chapters in this collection consider the significance of important sports events and how this is understood in relation to the collective identities of some countries Authors outline some of the ways in which the nation matters and consider how and why national identities are important in contemporary sport tourism This book was originally published as a special issue of the Journal of Sport Tourism Routledge Handbook of Sport, Race and Ethnicity John Nauright, David K Wiggins, 2016-09-13 Few issues have engaged sports scholars more than those of race and ethnicity Today globalization and migration mean all major sports leagues include players from around the globe bringing into play a complex mix of racial ethnic cultural political and geographical factors These complexities have been examined from many angles by historians sociologists anthropologists and scientists This is the first book to offer a comprehensive survey of the full sweep of approaches to the study of sport race and ethnicity The Routledge Handbook of Sport Race and Ethnicity makes a substantial contribution to scholarship presenting a collection of international case studies that map the most important developments in the field Multi disciplinary in its approach it engages with a wide range of disciplines including history politics sociology philosophy science and gender studies It draws upon the latest cutting edge research to address key issues such as racism integration globalisation development and management Written by a world class team of sports scholars this book is essential reading for all students researchers and policy makers with an interest in sports studies Chapter 18 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Sport: Sport and power relations* Eric Dunning, Dominic Malcolm, 2003 A collection of texts providing a useful resource for students in the field of sports studies Subject headings include approaches to the study of sport the development and structure of modern sport
