The condition of sports and sports journalism in India is almost similar Despite being home to over one billion people India has failed to become a sporting powerhouse in the world Similarly despite having a long cherished history of the press in the country sports journalism is yet an emerging profession This is quite in contrast with some of the most developed countries of the world Countries like the USA UK France Australia etc are not only developed but are also sporting powerhouses where sports journalism share equal status concerns and pride along with other streams of journalism Sports Journalism as a profession these days is as challenging as any other branch of journalism Now it is not only about the happenings of a sporting event but also about its various implications It is also about the law of the land crime controversies scams trends statistics history implications personalities politics diplomacy economics and many other items which constitute the major ingredients of news every day This can be understood from the fact that sports stories these days regularly find some space on the front pages of newspapers and in the prime time programmes of TV news channels Sports Journalism these days is also about public opinions their expectations and their interests People love to play and read about various 5 sports While this is an exciting prospect for sports journalists it also offers challenges for them as their readers are most of the time well aware of all the happenings in the world of sports **Sports Journalism** Tom Bradshaw, Daragh Minogue, 2019-08-16 Based on interviews with leading sports journalists and grounded in the authors experience and expertise in both the sports journalism industry and sports media research Sports Journalism gives in depth insight into the editorial and ethical challenges facing sports journalists in a fast changing media environment The book considers how sports journalism s past has shaped its present and explores the future trends and trajectories that the industry could take The far reaching consequences of the digital revolution and social media on sports journalists work are analysed with prominent sports writers broadcasters and academics giving their insights While predominantly focused on the UK sports media industry the book also provides a global perspective and includes case studies research and interviews from around the world Issues of diversity or a lack of it in the industry are put into sharp focus Sports Journalism gives both practising sports journalists and aspiring sports journalists vital contextualising information to make them more thoughtful and reflective practitioners
