Faster than Light Robert J. Nemiroff,2023-09-09 Albert Einstein knew already in the early 1900s when he first published his famous paper about the constancy of the speed of light that not only did this constancy imply that mass contains energy $E = mc^2$ but that faster than light motion could lead to paradoxes some that seemed to involve backwards time travel What are these paradoxes Why is light and its speed relevant This book will lead you through an obstacle course of conundrums and oddities building up your understanding of how light s speed creates simple but mind expanding paradoxes one conceptual riddle at a time This is not your average popular science book This is also not a textbook This book takes one theme the universally constant speed of light and shows how it may appear compromised on scales from the quantum mechanics of the very small to the cosmology of the very large and the resulting surprising implications can result Book Review 1 Imagine embarking on a journey to comprehend the physics of the entire universe with a guide who s not only an expert but makes the concepts digestible and entertaining Robert J Nemiroff offers such a journey

in *Faster Than Light* a book that initially describes the speed of light then touches on subjects as esoteric as time travel using the theory of relativity and speculation on how to send information back in time among other subjects blue ink Book Review 2 takes readers on a wild ride through the ins and outs of the speed of light in this mind bending guide His primary approach is through a series of humorous thought experiments explanations are clear and concise and most of them require only logic to sort out making the book more accessible than similar titles Booklife Book Review 3 A fresh and joyous ride through the mind bending puzzles at the heart of nature s most fundamental speed that remind us that the universe is strange beyond belief Caleb Scharf Author *The Ascent of Information* Book Review 4 Better than a new particle collider Sabine Hossenfelder Author *Existential Physics* *Alcohol safety public information materials catalog* ,1985
