Springboards to Inquiry Paige Jaeger, Mary Boyd

Ratzer, 2019-07-23 This collection of ideas for lessons provides school librarians with inspiration for meeting the tsunami of new standards dictating change for today's next generation learners. Today's school librarian has less and less time to prepare for instruction. This book delivers lesson plans for the librarian to implement immediately as is or with a little adaptation. Using the new AASL standards and an Information Literacy scope and sequence carefully crafted for K-6 students, the authors package lessons that are both engaging and challenging. This book inspires librarians to go beyond their usual role in literacy promotion and instruction only and moves to preparing students to be inquiry learners by embracing inquiry-based learning. Lessons include the Essential Question, begin with the end in mind, pre and post assessment ideas, technology integration ideas, where applicable, reading and research ideas, and collaboration ideas when applicable. AASL Standards and others are noted via an integrated standards checklist while new educational research demonstrates that standards can be met via engaging, collaborative, and interesting lessons modeled throughout the text. **Springboard G.** Richard

Shell, 2014-04-29 Wharton professor Richard Shell created the Success Course to help his world-class MBA students answer two questions that aren't as obvious as they seem: What for me is success and How will I achieve it. Then it helps you figure out your unique passions and capabilities so you can focus more on what gives meaning and excitement to your life and less on what you are supposed to want.
