The M1 Garand Leroy Thompson,2012-05-20 The M1 Garand gave the US infantryman a marked edge during World War II It shot faster and further than enemy infantry rifles and hit harder No less an authority on killing the enemy than General George S Patton called the Garand The greatest battle implement ever devised At a time when opposing forces were armed with bolt action rifles US troops had a highly reliable self loader The eight round clips which were used to load the M1 Garand were however viewed with mixed emotions by the troops on the ground Some Army and Marine Corps troops allegedly felt that the

distinctive twang as the Garand's clip was ejected when empty alerted the enemy that the soldiers were reloading and resulted in an attack. But the Garand became the defining mankiller of the war despite its weight and magazine problems and many US combat veterans consider it one of the key reasons they survived the war. *From Under Iron Eyelids* Thomas K. Tate, 2005-05-11. Contrary to popular belief the Minie ball was not used by either side during America's Civil War. Instead infantry soldiers fired the Harpers Ferry bullet, a hollow-based cylindro-conical bullet designed by acting master armorer James Henry Burton. His reward was to be driven from his position by partisan politics and into the lap of Great Britain where he helped to establish the Royal Small Arms Factory at Enfield. Based heavily on Burton's own papers, this book explains the problems and solutions to the armory production of small arms. A complete inventory of machine tools used to manufacture the Springfield rifled musket is listed in an appendix along with details and diagrams of three patents awarded to Burton.

General Edwin Vose Sumner, USA Thomas K. Tate, 2013-10-01. This biography of General Edwin Vose Sumner emphasizes his role in developing the mounted arm of the U.S. Army. Born in Boston in 1797, he abandoned a merchant's career and entered the U.S. Infantry in 1819. Transferring to the Dragoons in the 1830s, Sumner established the Cavalry School of Practice at Carlisle Barracks, Pennsylvania. Among his students was the future Confederate General Richard S. Ewell. Sumner served with distinction throughout the Mexican War and maintained a balance between the warring factions in Kansas in the mid-1850s, his efforts earning him the displeasure of the Pierce administration. He led an expedition against the Cheyennes with subordinates that included future Civil War generals John Sedgwick and Samuel Sturgis, as well as the capable but headstrong Lieutenant Jeb Stuart. Replacing Albert Sidney Johnston in California in 1861, Sumner kept the state in the Union. Returning east, he commanded the Second Corps throughout 1862 and died of pneumonia in March 1863.
