Sacraments of Initiation, Second Edition Liam G. Walsh OP,2022-01-07 This title is no longer available The original edition of this book presented a theology of sacraments that emerged out of a Church stirred into new life by the Second Vatican Council It is a theology that can claim to have been continuously received in the Catholic Church since then It is the theology that has been widely practiced and preached in pastoral life has been given catechetical shape in the Catechism of the Catholic Church However during the past 23 years some trends developed in pastoral theology and practice that were taking directions that seemed hard to reconcile with the decisions of the Council This new edition examines the way some theological counter currents have developed over those years both in theory and in practice The sacramental theology contained in this study maintains the broad on going agreement between what it proposes and mainstream Church teaching and practice The book examines the tradition of sacramental practice and teaching Biblical and historical studies continue to uncover new riches of the tradition and recent findings are discussed A careful listening to the tradition of rite and word is truly indispensable for sacramental theology It was out of such listening that Vatican II teaching on sacraments emerged and provision was made for recovering the full richness of the tradition Not all of the recent theological speculations and pastoral strategies given an equally serious acknowledgement to the tradition The liturgies that are studied in this book have been given to the Church in the wake of Vatican II The historical chapters will show the liturgies to be a contemporary expression of fidelity to core values of the Apostolic Tradition The chapters on the rite of each sacrament are mainly descriptive and historical but also include anthropological reflections that unveil the human significances of the various rites The chapters on the word examine the biblical and traditional word spoken in the churches about each sacrament and conclude with what is called a systematic essay The bibliography has updated to reflect the development in the field Worship in the Early Church: Volume 2 Lawrence J. Johnson,2017-07-14 Named a 2010 Outstanding Academic Title by Choice magazine Fourth Century West Optatus of Milevis Zeno of Verona Ambrose of Milan Pope Siricius Hilary of Poitiers Pacian of Barcelona Synod of Elvira ca 300 Fourth Century East Lactantius Basil the Great Gregory of Nazianzus Pseudo Ignatius Gregory of Nyssa the Council of Nicaea 325 John Chrysostom Apostolic Constitutions and others Lawrence J Johnson is the former executive secretary of the Federation of Diocesan Liturgical Commissions and the former editor director of The Pastoral Press He has written several books on the liturgy and its music including The Mystery of Faith A Study of the Structural Elements of the Order of the Mass
