Givenness Stefan Baumann, 2012-02-14 This book addresses students and researchers of phonetics phonology and the semantics and pragmatics of discourse It employs an autosegmental metrical model of intonation to investigate the marking of aspects of information structure concentrating on the Given New dimension The empirical evidence provided here is based on German It shows that the dichotomy of accented versus unaccented corresponding to New versus Given information is inadequate In fact there is evidence that a range of pitch accent types can be mapped onto the gradient scale of Givenness degrees with the pitch height on the accented syllable being the determining factor NBS Technical Note, 1976
