Spying In Guru Land Inside Britains Cults:

Spying in Guru Land William Shaw,1994 **A Reader in New Religious Movements** George D. Chryssides,Margaret Wilkins,Margaret Z. Wilkins,2006-05-10 There are over 600 New Religious Movements NRMs in Great Britain alone and more than 2000 in the United States A Reader in New Religious Movements provides an introduction to the main teachings of a selection of these organizations focusing on those that are well established in the West The contemporary and in some cases controversial NRMs covered include the Unification Church the International Society for Krishna Consciousness the Family Osho Soka Gakkai International and the Western Buddhist Order **This Shrinking Land** Robert Duck,2019-07-29 The oceans are the graveyards of the lands Lands become eaten away by the action of the seas and it is no surprise to find that most of the world s shorelines are in a state of erosion The fringes of Britain its cliffs and beaches are shrinking disappearing into the surrounding sea as a result of coastal flooding erosion and landsliding Is climate change speeding up the process are our homes our villages and towns at risk This book examines how the British coast is changing and why and what is being done to protect this island nation Are we doing enough Should we abandon vulnerable towns and villages to the seas as our forebears did and relocate coastal settlements inland These are some of the difficult and potentially emotive questions that this book explores Blending contemporary earth science and societal themes with historical and cultural records and a hint of myth and romance for good measure This Shrinking Land is a fascinating study of what we must learn from the past in order to manage the future of Britain s coasts With more than 100 illustrations most of them in colour this is a stunning book *New Religious Movements in the Twenty-First Century* Phillip Charles Lucas,Thomas Robbins,2004-06-01 New Religious Movements in the 21st Century is the first volume to examine the urgent and important issues facing new religions in their political legal and religious contexts in global perspective With essays from prominent NRM scholars and usefully organized into four regional areas covering Western Europe Asia Africa and Australia Russia and Eastern Europe and North and South America as well as a concluding section on the major themes of globalization and terrorist violence this book provides invaluable insight into the challenges facing religion in the twenty first century An introduction by Tom Robbins provides an overview of the major issues and themes discussed in the book *The to Z of New Religious Movements* George D. Chryssides,2006-04-17 Alongside the older and more established religions there are hundreds indeed thousands more which have recently emerged These new religious movements or NRMs for lack of a better name are not only numerous they are also extremely varied and stem from a wide array of sources They run the gamut from small to large and all possess a tendency to constantly expand And while their potential for good is considerable more often than not it is their abuses that are noticed Still writing them off as sects is too easy especially when they are as poorly understood as they often are The A to Z of New Religious Movements is a major contribution to understanding these new and formative religions While leaving any evaluation to the reader it offers brief descriptions of well over a hundred NRMs in the

dictionary section along with information on the founders and leaders and also their roots in Christianity Buddhism Hinduism Islam and other more traditional religions The impact of modern philosophy and science are also weighed Since their roots often lay further back the chronology starts in the 18th century and continues to the present and the introduction attempts the arduous task of defining and categorizing the NRMs The extensive bibliography provides further reading

The Secret World of Cults Sarah Moran,1999 Presents insight into the beliefs activities and followers of the some of the most unusual organizations on the fringes of society

New Religious Movements Bryan R. Wilson,Jamie Cresswell,1999 Focusing on five countries Italy Brazil Germany Britain and the United States New Religious Movements offers a comprehensive and wide ranging study of the phenomena and impact of new religions

Yearning to Belong John Paul Healy,2016-02-11 Cutting across three areas of interest within New Religious Movements insider perspectives sociology of religion and the helping professions this book explores insiders experience of the Indian Guru disciple Yogic tradition and is authored by a former member of that tradition Highlighting the rich spiritual experience of devotees of Guru disciple Yoga and broadening the understanding of Guru disciple Yoga Practice this book also adds considerably to knowledge of conversion to New Religious Movements and to issues of affiliation and disengagement Exploring participants experience of attraction affiliation and disengagement these themes highlight individuals personal experience of Guru disciple Yoga Practice

Understanding Social Change Anthony Francis Heath,John Ermisch,Duncan Gallie,2005-02-17 These essays not only describe the major changes in British society in recent years but seek to understand and explain what is happening They consider the wide variety of mechanisms that underlie these changes in particular processes of social interaction The ill understood nature of these mechanisms may be a major reason why so much social reform has proved ineffective By highlighting the complexities of the causal mechanisms sociological research can make a major contribution to policy and public debate While these papers do not claim that sociology will provide all the answers they demonstrate that it has made real progress in understanding the social changes that Britain has experienced in recent decades

EBOOK: Qualitative Psychology Ian Parker,2004-12-16 An introduction to the varieties of qualitative research in psychology is long overdue and Parker s book should with its broad scope accessible style and controversial viewpoints on trends of the current qualitative wave have a wide audience Steinar Kvale Aarhus University Denmark This is a wonderful insightful and necessary book It takes students through this complex terrain in a clear readable and yet challenging way Bronwyn Davies University of Western Sydney Australia This book makes important contributions to theoretical political and methodological debates on qualitative and action oriented research Bernardo Jim nez Dom nguez Universidad de Guadalajara Mexico For me personally the book worked very well I very much appreciated the fact that the book went beyond a presentation of the state of the art and that it offered new ideas and suggestions about how to take qualitative research further Qualitative Research in Psychology This book is designed as a practical guide for students that is also grounded in the latest developments in theory in psychology Readers are introduced

to theoretical approaches to ethnography interviewing narrative discourse and psychoanalysis with each chapter on these approaches including worked examples clearly structured around methodological stages A case is made for new practical procedures that encourage students to question the limits of mainstream psychological research methods Resource links guide students to theoretical debates and to ways of making these debates relevant to a psychology genuinely concerned with critical reflection and social change The book includes numerous boxes that clearly outline Key issues in the development application and assessment of qualitative research methods Current debates and problems with particular qualitative methods taught in psychology Summaries of methodological stages and points to be aware of in the marking of practical reports in relation to specific methods Coverage of ethical issues reflexivity and good report writing Qualitative Psychology is essential reading for students of psychology and other related social sciences who want a polemical account that will also serve as a well balanced and rigorous introduction to current debates in qualitative psychology

Uncover the mysteries within Crafted by is enigmatic creation, Discover the Intrigue in **Spying In Guru Land Inside Britains Cults** .
