Squeeze Cities Without Space:

The Role of the Federal Government in Urban Mass Transportation James B. Meanor, 1963 *Urban Mass Transportation, 1961* United States. Congress. House. Committee on Banking and Currency, United States. Congress. House. Committee on Banking and Currency. Subcommittee No. 3, 1961 Considers H R 7787 to amend the Housing Act of 1954 to authorize Housing and Home Finance Agency grants to local governments for urban mass transportation system development and operation Includes Advisory Commission on Intergovernmental Relations report Intergovernmental Responsibilities for Mass Transportation Facilities and Services in Metropolitan Areas Apr 1961 p 79 135 **The Bulldozer in the Countryside** Adam Rome, 2001-04-16 The concern today about suburban sprawl is not new In the decades after World War II the spread of tract house construction changed the nature of millions of acres of land and a variety of Americans began to protest against the environmental costs of suburban development By the mid 1960s indeed many of the critics were attempting to institutionalize an urban land ethic *The Bulldozer in the Countryside* was the first scholarly work to analyze the successes and failures of the varied efforts to address the environmental consequences of suburban growth from 1945 to 1970 For scholars and students of American history the book offers a compelling insight into two of the great stories of modern times the mass migration to the suburbs and the rise of the environmental movement The book also offers a valuable historical perspective for participants in contemporary debates about the alternatives to sprawl *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1961 Includes Part 1 Number 1 2 Books and Pamphlets Including Serials and Contributions to Periodicals January December **Urban and Regional Dimensions of Manpower Policy** Niles M. Hansen, 1969 **Housing and Planning References**, 1961 Let Us Now Praise Famous Gullies Paul S. Sutter, 2015-12-15 Providence Canyon State Park also known as Georgia's Little Grand Canyon preserves a network of massive erosion gullies allegedly caused by poor farming practices during the nineteenth century It is a park that protects the scenic results of an environmental disaster While little known today Providence Canyon enjoyed a modicum of fame in the 1930s During that decade local boosters attempted to have Providence Canyon protected as a national park insisting that it was natural At the same time national and international soil experts and other environmental reformers used Providence Canyon as the apotheosis of human and particularly southern land abuse *Let Us Now Praise Famous Gullies* uses the unlikely story of Providence Canyon and the 1930s contest over its origins and meaning to recount the larger history of dramatic human induced soil erosion across the South and to highlight the role that the region and its erosive agricultural history played in the rise of soil science and soil conservation in America More than that though the book is a meditation on the ways in which our persistent mental habit of separating nature from culture has stunted our ability to appreciate places like Providence Canyon and to understand the larger history of American conservation *Urban Mass Transportation--1961* United States Congress. House. Banking and Currency Committee, 1961 **An Analysis of Retail Trade Districts Within**

Selected British and American Seaside Resorts Charles Arthur Stansfield, 1968 **Urban Policy in Twentieth-century America** Arnold Richard Hirsch, Raymond A. Mohl, 1993

The recent riots in Los Angeles brought the urban crisis back to the center of public policy debates in Washington D C and in urban areas throughout the United States. The contributors to this volume examine the major policy issues: race, housing, transportation, poverty, the changing environment, the effects of the global economy confronting contemporary American cities. Raymond A. Mohl begins with an extended discussion of the origins, evolution, and current state of Federal involvement in urban centers. Michael B. Katz follows with an insightful look at poverty in turn of the century New York and the attempts to ameliorate the desperate plight of the poor during this period of rapid economic growth. Arnold R. Hirsch, Mohl, and David R. Goldfield then pursue different facets of the racial dilemma confronting American cities. Hirsch discusses historical dimensions of residential segregation and public policy, while Mohl uses Overtown Miami as a case study of the social impact of the construction of interstate highways in urban communities. David Goldfield explores the political ramifications and incongruities of contemporary urban race relations. Finally, Carl Abbott and Sam Bass Warner Jr. examine the impact of global economic developments and the environmental implications of past policy choices. Collectively, the authors show us where we have been, some of the needs that must be addressed, and the urban policy alternatives we face.
