The World Sugar Market Sergey Gudoshnikov, Linday Jolly, Donald Spence, 2004-07-01 Since the first book published by Woodhead on the global sugar business The international sugar trade was released in 1996 the world sugar market has undergone fundamental change Over the past decade the industry's key economic and policy drivers have created a new regional distribution of sugar production that has had an enormous impact on the price finding process as well as changing the type of sugar on offer to the world market Brazil has become a dominant supplier whilst Cuba's production has collapsed to the pre World War One level Russia has become the world's greatest importer and structural surpluses have seen stocks rise to historic highs and the world price fall to a level below the production costs of some of the most competitive exporters The world sugar market focuses on these changes by identifying describing and assessing the key industry drivers and their future potential impact on the market Part one provides an overview covering the history of sugar production and consumption cultivation of beet and cane and the current state of the market for sugar and alternative sweeteners Part two focuses on identifying describing and assessing the key market drivers both economic and political on sugar demand Part is devoted to a similar analysis of sugar supply whilst part four covers the future for the sugar markets The world sugar market is aimed at a wide audience from the sugar specialist looking for in depth information on a specific topic to the newcomer needing to gain an overview of the current state of play and future for the world sugar market The book is published in collaboration with the International Sugar Organization whose statistics and studies are used extensively throughout

Provides a comprehensive overview of this complex and rapidly changing business Written by three of the world's leading authorities on the global sugar industry and its economics Includes data from the International sugar Organization

Global Agricultural Trade and Developing Countries M. Ataman Aksoy, John C. Beghin, 2004-11-01 Global Agricultural Trade and Developing Countries presents research findings based on a series of commodity studies of significant economic importance to developing countries The book sets the stage with background chapters and investigations of cross cutting issues It then describes trade and domestic policy regimes affecting agricultural and food markets and assesses the resulting patterns of production and trade The book continues with an analysis of product standards and costs of compliance and their effects on agricultural and food trade The book also investigates the impact of preferences given to selected countries and their effectiveness then reviews the evidence on the attempts to decouple agricultural support from agricultural output The last background chapter explores the robustness of the global gains of multilateral agricultural and food trade liberalization Given this context the book presents detailed commodity studies for coffee cotton dairy fruits and vegetables groundnuts rice seafood products sugar and wheat These markets feature distorted policy regimes among industrial or middle income countries The studies analyze current policy regimes in key producing and consuming countries document the magnitude of these distortions and estimate the distributional impacts winners and losers of trade and domestic policy reforms By bringing the key issues and findings together in one place Global Agricultural Trade and Developing Countries aids policy makers and researchers both in their approach to global negotiations and in evaluating their domestic policies on agriculture The book also complements the recently published Agriculture and the WTO which focuses primarily on the agricultural issues within the context of the WTO negotiations

Sugar: Refined Power in a Global Regime B. Richardson, 2009-09-23 Sugar is a commonplace product with a complex background mainly because of the high degree of protectionism given to the industry and the benefits of ensuring domestic producers stay in business This book asks why there are such disagreements over trade policy who profits within the current regime and where power ultimately lies

Reinventing the Cuban Sugar Agroindustry Jorge F. Pérez-López, Jose Alvarez, 2005-01-01 The demise of the international socialist community led to a loss in preferential markets for Cuban sugar industry In response to the current crisis this volume gathers over a dozen recognized world experts on Cuban agroindustry to analyze specific topics and make recommendations that would reinvent the industry for effective transition to a free market environment

Analysis of U.S.-Mexico Sugar Trade Daisuke Sano, 2010-08 This study examines U S Mexico sugar trade with special attention given to the impact of changes in trade and market environments caused by implementation of the North American Free Trade Agreement NAFTA and the introduction of high fructose corn syrup HFCS These two factors contributed to shaping sugar markets in the United States and Mexico as well as sugar trade between the two countries The study includes two sections 1 a description of the sugar markets from an historic point of view and 2 an empirical study forecasting the market and trade

outlook In section one characteristics of the sugar industry and transition of the sugar markets brought by the two factors NAFTA and HFCS are presented Adoption of HFCS shaped the U S sweetener market in the 1980s and a similar phenomenon appears to be beginning in Mexico This is explained by not only income growth but also the provisions of NAFTA that facilitate U S HFCS to enter the Mexican market and restrict Mexican sugar to the U S market Although Mexico is promised favorable access to the U S market under NAFTA it has not been successful in exporting sugar rather the focus has been to suppress HFCS adoption in the domestic market Next an empirical study comprised of three analyses is presented Regression results from the market analysis showed that the estimated price elasticities for both sugar demand and supply are significant and inelastic These estimates are built into the second model that examines bilateral trade Results from simulations of the trade analysis indicate Mexico s HFCS adoption rate will determine the magnitude of Mexico s sugar export which consequently poses a significant influence on U S markets Also the way the U S government allocates quotas among exporters will have a significant impact particularly on the costs of the U S sugar program Game theory analysis is then used to assess what strategies the involved participants will prefer The results suggest that there will be a conflict of interests and that the U S HFCS industry may play an influential role in forming a sugar policy

The Economic Impact of Public Support to Agriculture Virgil Ball,Roberto Fanfani,Luciano Gutierrez,2010-07-27 Despite a gradual and sustained decline in the contribution of agriculture to the economies of the member countries of the Organization for Economic Cooperation and Development OECD the sector remains socially and politically important Although agriculture accounts for less than 2% of the gross domestic product of the OECD countries it occupies over 35% of their total land area Predominantly rural regions where agriculture remains particularly important contain almost one quarter of the population of OECD countries The past quarter century has witnessed significant changes in agricultural policies in OECD countries Although total support remains high a shift has taken place from price linked measures to direct income support most notably in the European Union Policies have been adapted to meet pressing social concerns such as ensuring food security and improving environmental quality OECD countries face major economic issues due to the ageing of their populations and the need to adapt to globalization and increasing competition from emerging economies Continued pressure to reform agricultural policies will be exerted by the need to economize on the use of scarce public resources At the same time agriculture faces new challenges generated by climate change the greening of the economy increasing scarcity of energy and water and the demands placed on the food system by an expanding world population

Agricultural Trade Liberalization Marcos Sawaya Jank,Inter-American Development Bank,2004 Agricultural Trade Liberalization investigates key issues in the Western Hemisphere including potential scenarios for liberalization at the regional and multilateral levels the effects of U S and European Union agricultural policies on trade and the outcomes that a Free Trade Area of the Americas and a European Union Mercosur trade agreement might have on agricultural trade flows The book also examines the impact of sanitary and

phytosanitary measures and biotechnology on agricultural trade integration of sugar and dairy markets in the Americas and a comparison of agri food industries in the United States and Brazil Finally the book provides an overview of agricultural liberalization in the U S Central American Free Trade Agreement and suggests a food security typology to be utilized by the World Trade Organization BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Agriculture and International Trade Michael Cardwell, Margaret R. Grossman, C. P. Rodgers, 2003 The World Trade Organization WTO Agreement on Agriculture has had a fundamental impact on agricultural policy worldwide The new WTO

agreements will cover agriculture sanitary and phytosanitary measures technical barriers to trade and trade in intellectual property rights This book addresses the interface between the law of international agricultural trade the emerging legal and economic order for agricultural trade under the auspices of the WTO and its impact on agricultural policy reform both in the European Union and the USA With contributions from leading authorities in the appropriate areas **Annual Research Report** University of Florida. Institute of Food and Agricultural Sciences,2002 Food and World Culture Linda S. Watts,Kelty Clark-Mahoney,2022-08-23 This book uses food as a lens through which to explore important matters of society and culture In exploring why and how people eat around the globe the text focuses on issues of health conflict struggle contest inequality and power Whether because of its necessity pleasure or ubiquity the world of food and its lore proves endlessly fascinating to most people The story of food is a narrative filled with both human striving and human suffering However many of today s diners are only dimly aware of the human price exacted for that comforting distance from the lived world realities of food justice struggles With attention to food issues ranging from local farming practices to global supply chains this book examines how food s history and geography remain inextricably linked to sociopolitical experiences of trauma connected with globalization such as colonization conquest enslavement and oppression The main text is structured alphabetically around a set of 70 ingredients from almonds to yeast Each ingredient s story is accompanied by recipes Along with the food profiles the encyclopedia features sidebars These are short discussions of topics of interest related to food including automats diners victory gardens and food at world s fairs This project also brings a social justice perspective to its content weighing debates concerning food access equity insecurity and politics Agricultural Policy, Agribusiness, and Rent-Seeking Behaviour, Third Edition Andrew Schmitz,Charles B. Moss,Troy G. Schmitz,G. Cornelis van Kooten,H. Carole Schmitz,2022-04-27 Costing billions of dollars annually international trade in agricultural products is impactful and influenced by several factors including climate change food policy and government legislation The third edition of Agricultural Policy Agribusiness and Rent Seeking Behaviour provides comprehensive economic analyses of the policies that affect agriculture and agribusiness in Canada and the United States Looking at current agricultural policies the third edition includes new chapters on food pyramids climate change and GMOs while also highlighting the effect of international policies on Canadian trade including the problematic US ethanol policy The new edition addresses current issues including how the COVID 19 pandemic has negatively affected agricultural value chains and played a hand in the ongoing growth in opioid use Including a number of key findings and discussing current debates on topics including foreign ownership of Canadian farmland Agricultural Policy Agribusiness and Rent Seeking Behaviour will appeal to students in agricultural economics and policy as well as policymakers agricultural firms energy companies and readers wishing to reduce their nation s carbon footprint **The Shadows of Consumption** Peter Dauvergne,2010-09-24 An environmentalist maps the hidden costs of overconsumption in a globalized world by tracing the environmental consequences of five commodities The Shadows of

Consumption gives a hard hitting diagnosis many of the earth s ecosystems and billions of its people are at risk from the consequences of rising consumption Products ranging from cars to hamburgers offer conveniences and pleasures but as Peter Dauvergne makes clear global political and economic processes displace the real costs of consumer goods into distant ecosystems communities and timelines tipping into crisis people and places without the power to resist In *The Shadows of Consumption* Peter Dauvergne maps the costs of consumption that remain hidden in the shadows cast by globalized corporations trade and finance Dauvergne traces the environmental consequences of five commodities automobiles gasoline refrigerators beef and harp seals In these fascinating histories we learn for example that American officials ignored warnings about the dangers of lead in gasoline in the 1920s why China is now a leading producer of CFC free refrigerators and how activists were able to stop Canada s commercial seal hunt in the 1980s but are unable to do so now Dauvergne s innovative analysis allows us to see why so many efforts to manage the global environment are failing even as environmentalism is slowly strengthening He proposes a guiding principle of balanced consumption for both consumers and corporations We know that we can make things better by driving a high mileage car eating locally grown food and buying energy efficient appliances but these improvements are incremental local and insufficient More crucial than our individual efforts to reuse and recycle will be reforms in the global political economy to reduce the inequalities of consumption and correct the imbalance between growing economies and environmental sustainability

Agricultural Policy, Agribusiness, and Rent-seeking Behavior Andrew Schmitz,2010-01-01 The second edition of the groundbreaking *Agricultural Policy Agribusiness and Rent Seeking Behaviour* expands upon its original analysis of the economic policies that affect agriculture and agribusiness Widening their lens to include information on the European Union the authors continue to emphasize the role of farmers and agribusiness in the formation of policy exploring the issues from both economic and historical perspectives More theoretical than the first volume in its discussions of welfare economics and the theory of public choice the second edition also addresses the broad significance of agricultural policies such as biofuels nutrition multifunctionality genetically modified organisms and multinational firms The authors maintain and expand the empirical content to provide more practical examples suited to teaching and analyse specific problems including price and income stabilization science policy environmental policy and food quality and safety
