Ornamentation in Baroque and Post-baroque Music Frederick Neumann, 1983-12-21. Ornaments play an enormous role in the music of the seventeenth and eighteenth centuries and ambiguities in their notation as well as their frequent omission in the score have left doubt as to how composers intended them to be interpreted. Frederick Neumann himself, a violinist and conductor, questions the validity of the rigid principles applied to their performance. In this controversial work, available for the first time in paperback, he argues that strict constraints are inconsistent with the freedom enjoyed by musicians of the period. The author takes an entirely new look at ornamentation and particularly that of J. S. Bach. He draws on extensive research in England, France, Germany, Italy, and the United States to show that prevailing interpretations are based on inadequate evidence. These restrictive interpretations have been far-reaching in their effect on style. By questioning them, this work continues to stimulate a reorientation in our understanding of Baroque and post-Baroque music. The Musical Times and Singing-class Circular, 1903. Catalog of Copyright Entries Library of Congress. Copyright Office, 1949. Bach's Musical Universe: The Composer and His Work Christoph Wolff, 2020-03-24. A concentrated study of Johann Sebastian Bach's creative output and greatest pieces capturing the essence of his art. Throughout his life, renowned and prolific composer Johann Sebastian Bach articulated his views as a composer in purely musical terms; he was notoriously reluctant to write about his life and work. Instead, he methodically organized certain pieces into carefully designed collections. These benchmark works, all of them without parallel or equivalent, produced a steady stream of transformative ideas that stand as paradigms of Bach's musical art. In this companion volume to his Pulitzer Prize finalist biography *Johann Sebastian Bach: The Learned Musician*, leading Bach scholar Christoph Wolff takes his cue from his famous subject. Wolff delves deeply into the composer's own rich selection of collected music, cutting across conventional boundaries of era, genre, and instrument. Emerging from a complex and massive oeuvre, *Bach's Musical Universe* is a focused discussion of a meaningful selection of compositions from the famous *Well-Tempered Clavier*, violin and cello solos, and Brandenburg Concertos to the *St. Matthew Passion*, *Art of Fugue*, and *B-minor Mass*. Unlike any study undertaken before, this book details Bach's creative process across the various instrumental and vocal genres. This array of compositions illustrates the depth and variety at the essence of the composer's musical art as well as his unique approach to composition as a process of imaginative research into the innate potential of his chosen material. Tracing Bach's evolution as a composer, Wolff compellingly illuminates the ideals and legacy of this giant of classical music in a new, refreshing light for everyone, from the amateur to the virtuoso. *The Cambridge Companion to the Harpsichord* Mark Kroll, 2019-01-03. Covers every aspect of the harpsichord and its music, including composers, genres, national styles, tuning, and the art of harpsichord building. **The**

Cambridge Companion to Bach John Butt, 1997-06-26 The Cambridge Companion to Bach first published in 1997 goes beyond a basic life and works study to provide a late twentieth century perspective on J S Bach the man and composer The book is divided into three parts Part One is concerned with the historical context the society beliefs and the world view of Bach's age The second part discusses the music and Bach's compositional style while Part Three considers Bach's influence and the performance and reception of his music through the succeeding generations This Companion benefits from the insights and research of some of the most distinguished Bach scholars and from it the reader will gain a notion of the diversity of current thought on this great composer
