Things I Learned While Breathing on a Regular Basis Bill Kirvan, 2015-10-29. Why would someone who in his early academic years was a C minus student in all subjects relating to the English language write a book? My beginning started when I realized what going to basketball camp in the fourth grade meant to me. Finding something that infatuated me and over time making slow and steady progress while doing something I loved was an eye opener. I didn't mind the effort required to become a better player. The next important step was getting married and understanding how important it was to have a sense of purpose. I was part of a team that was raising a family. A sense of purpose is a great motivator. My final driver was realizing my children and grandchildren should understand that I wasn't a grandfather from birth. Growing up is filled with a multitude of highs and lows, and it is important to move forward, taking the good with the bad. I wanted to give them a taste of the things I learned over time. In the early stages of life, so many young people have absolutely no clue as to how much they will learn, growing physically and intellectually as they advance from teenagers to young adulthood. My suggestion is find something you love to do early in life and decide to be very good in your field. There are no losses from this strategy as you will find something meant for you or something to stay away from. For me, it was important I stay away from engineering.

Who Would Have Thought It: My Story of the American Civil War María Ruiz de Burton, 2021-05-07 This book details the struggles of a Mexican American girl born in Indian captivity, Lola, in an American society obsessed with class, religion, race, and gender. The first part of the book follows the central family in the years leading up to the start of the American Civil War and the attack on Fort Sumter, 1857-1861, and flashbacks are meant to take the readers back further than that time line, such as the kidnapping of Lola's mother in 1846. The second part chronicles the events that took place during the Civil War, 1861-1864. Each chapter focuses on a particular character and is told from an omniscient point of view. *Who Would Have Thought It* is a semi-autobiographical novel written by María Ruiz de Burton, and it reflects the author's ambiguous position between the small number of Californio elite and the Anglo American populace, which form the majority of the United States population.
