**Sun Pictures** David Bruce, David Octavius Hill, Robert Adamson, 1974      *Sun Pictures* David Bruce, David Octavius Hill, Robert Adamson, 1973      **Encyclopedia of Nineteenth-Century Photography** John Hannavy, 2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century It sets out to be the standard definitive reference work on the subject for years to come Its coverage is global an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena Coverage includes all the key people processes equipment movements styles debates and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool creative medium and recorder of everyday life which it had become by the dawn of the twentieth century The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics students researchers and libraries worldwide      Hill and Adamson David Octavius Hill, J. Paul Getty Museum, Robert Adamson, 1999 Publisher Fact Sheet Presents nearly 50 photographs from the unlikely partnership 1843 1848 between the respected painter David Octavius Hill the young engineer Robert Adamson including experiments with portraits staged dramatic photographs architectural landscape images      *The Collection of Alfred Stieglitz* Metropolitan Museum of Art (New York, N.Y.), Weston J. Naef, 1978      *The Global Flows of Early Scottish Photography* Anthony W. Lee, 2019-05-30 Almost immediately after the invention of photography Scottish photographers took their clunky cameras on the road to capture the stories of peoples and communities touched by the forces of British imperialism For the next thirty years their journeys would take them far from their homes in the Lowlands to the Canadian wilderness and the treaty ports and rivers of China The Global Flows of Early Scottish Photography is about the interplay between these photographers ambitions and the needs and desires of the people they met Anthony Lee tracks the work of several famous innovators of the art form including the pioneering team of D O Hill and Robert Adamson in Edinburgh Canada s first great photographers the Scottish immigrants William Notman and Alexander Henderson in Montreal the globetrotting John Thomson in Hong Kong and Lai Afong the first widely known Chinese photographer Lee reveals their pictures in the context of migration and the social impact wrought by worldwide trade and competing nationalisms A timely book it tells of an era when cameras emerged to give shape and meaning to some of the most defining moments brought about by globalization in the nineteenth century Beautifully written and richly illustrated in full colour The Global Flows of Early Scottish Photography weaves stories together to show that even the earliest pictures were sites of fierce historical struggle      **The Cinematic Footprint** Nadia Bozak, 2011-10-28 Film is often used to represent the natural landscape and increasingly to communicate environmentalist messages Yet behind even today s

green movies are ecologically unsustainable production distribution and consumption processes Noting how seemingly immaterial moving images are supported by highly durable resource dependent infrastructures *The Cinematic Footprint* traces the history of how the hydrocarbon imagination has been central to the development of film as a medium Nadia Bozak's innovative fusion of film studies and environmental studies makes provocative connections between the disappearance of material resources and the emergence of digital media with examples ranging from early cinema to Dziga Vertov's prescient eye from Chris Marker's analog experiments to the digital work of Agnès Varda James Benning and Zacharias Kunuk Combining an analysis of cinema technology with a sensitive consideration of film aesthetics *The Cinematic Footprint* offers a new perspective on moving images and the natural resources that sustain them *The Photographic Experience, 1839-1914: Images and Attitudes*, 1994 *Planning and Designing Sustainable and Resilient Landscapes* Cerasella Crăciun, Maria Bostenaru Dan, 2014-02-03 This book deals with planning issues in landscape architecture which start at the evaluation of the existing fabric of society its history and memory approached and conserved through photography film and scenographic installations a way in which the archetypes can be investigated be it industrial derelict sites or already green spaces and cultural landscapes It provides approaches to intervention through rehabilitation and upgrade eventually in participative manner To such evaluation and promotion a couple of disciplines can contribute such as history of art geography and communication science and of course landscape architecture The field of landscape architecture reunites points of view from such different disciplines with a view to an active approach a contemporary intervention or conservation The book presents case studies from several European countries Romania Germany Austria Italy Portugal mostly for large landscape in the outskirts of the cities and in the parks *The Photographic Collector*, 1983 **Primitive Photography** Alan Greene, 2013-04-11 Primitive Photography considers the hand made photographic process in its entirety showing the reader how to make box cameras lenses paper negatives and salt prints using inexpensive tools and materials found in most hardware and art supply stores Step by step procedures are presented alongside theoretical explanations and historical background Streamlined calotype procedures are demonstrated featuring different paper negative processes and overlooked developing out printing methods Primitive Photography combines the simplicity of pinhole photography the handmade quality of alternative processes and the precision of large format For those seeking alternatives to commercially prepared material as well as digital photography it provides the instructions for creating the entire photographic process from the ground up Given its scope and treatment of the photographic process as a whole this may be the first book of its kind to appear in over a century **Review of Scottish Culture**, 1988 **The Face of Britain** Simon Schama, 2015-09-16 Simon Schama brings Britain to life through its portraits as seen in the five part BBC series *The Face of Britain* and the major National Portrait Gallery exhibition Churchill and his painter locked in a struggle of stares and glares Gainsborough watching his daughters run after a butterfly a black Othello in the nineteenth century the poet artist Rossetti trying to capture on

canvas what he couldn't possess in life a surgeon artist making studies of wounded faces brought in from the Battle of the Somme a naked John Lennon five hours before his death In the age of the hasty glance and the selfie Simon Schama has written a tour de force about the long exchange of looks from which British portraits have been made over the centuries images of the modest and the mighty of friends and lovers heroes and working people Each of them the image maker the subject and the rest of us who get to look at them are brought unforgettably to life Together they build into a collective picture of Britain our past and our present a look into the mirror of our identity at a moment when we are wondering just who we are Combining his two great passions British history and art history for the first time Schama's extraordinary storytelling reveals the truth behind the nation's most famous portrayals of power love fame the self and the people Mesmerising in its breadth and its panache and beautifully illustrated with more than 150 images from the National Portrait Gallery *The Face of Britain* will change the way we see our past and ourselves

**Photography and the Arts** Juliet Hacking, Joanne Lukitsh, 2020-10-29 Photography both in the form of contemporary practice and that of historical material now occupies a significant place in the citadels of Western art culture It has an institutional network of its own embedded within the broader art world with its own specialists including academics critics curators collectors dealers and conservators All of this cultural activity consolidates an artistic practice and critical discourse of photography that distinguishes what is increasingly termed art photography from its commercial scientific and amateur guises But this long awaited recognition of photography as high art brings new challenges How will photography's newly privileged place in the art world affect how the history of creative photography is written Modernist claims for the medium as having an aesthetic often turned on precedents from painting Postmodernism challenged a cultural hierarchy organized around painting Nineteenth century photographs move between the symbolic spaces of the gallery wall and the archive de contextualised for art and re contextualised for history But what of the contemporary writings images and practices that negotiated an aesthetic status for the photographic Photography and the Arts revisits practices both celebrated and elided by the modernist and postmodernist grand narratives of art and photographic history in order to open up new critical spaces Written by leading scholars in the fields of photography art and literature the essays examine the metaphorical as well as the material exchanges between photography and the fine graphic reproductive and sculptural arts
