Bloomsbury Pie Regina Marler, 2025-06-25 Celebrated and maligned with equal vigor the Bloomsbury Group is the best documented artistic coterie in twentieth century literature The novelists Virginia Woolf and E M Forster the artists Roger Fry Duncan Grant and Vanessa Bell and the economist John Maynard Keynes were among this charmed circle that emerged in London before the First World War and came to exercise a complex lingering influence on English art and letters Theirs was a world of great talent even genius sexual intrigue and gossip they cultivated an atmosphere in which it was possible to say anything do anything Their peak of influence in the 1920s was followed by forty years of sustained sidelong derogation and occasional frontal attack from such famously hostile critics as D H Lawrence and Wyndham Lewis until in the 1960s the idea of Bloomsbury exploded in the public imagination transforming the Group into an almost mass market attraction Not in their darkest nightmares could Bloomsbury's contemporary detractors have imagined that Charleston Farmhouse where Vanessa Bell and Duncan Grant once lived and painted would eventually attract some 15 000 visitors each year or that a high profile film Carrington would be based on Lytton Strachey's largely platonic love affair with an obscure artist on the fringes of the hallowed Group Bloomsbury Pie examines the persistent allure of Bloomsbury a fascination driven by nostalgia adoration and antipathy and tracks the resurgence of interest in the Group from a handful of biographies in the 1960s through the feminist discovery of Virginia Woolf in the 1970s and the enshrinement of the Bloomsberries as cultural icons in the 1980s and 1990s Drawing on a wealth of material generated by this revival Regina Marler chronicles the story of the Bloomsbury boom its scholars collectors and fanatics and explores the industry it has spawned among writers publishers and art dealers In the process she creates an impressive social history of a tenacious and unwieldy cultural phenomenon

The Men who Built Britain Ultan Cowley, 2001 The contribution of the Irish Navy to the British construction industry has indeed been immeasurable For over two centuries for hundreds of thousands of rural male Irish emigrants to Britain the best chance of a start was in construction While the men themselves have been largely forgotten or ignored the canals the railways the roads tunnels dams and public utilities of Britain stand as lasting monuments to their sacrifices and achievements The Men who Built Britain has been researched by Ultan Cowley over a number of years In it he quotes extensively from numerous interviews with Irish navvies and subcontractors senior English management and relatives of those involved Generously illustrated with striking pictures many never previously published this book ensures that the true story of the Irish navy will not be forgotten

BOOK JACKET Ireland's Holy Wars Marcus Tanner, 2003-01-01 For much of the twentieth century Ireland has been synonymous with conflict the painful struggle for its national soul part of the regular fabric of life And because the Irish have emigrated to all parts of the world while always remaining Irish the troubles have become part of a common heritage well beyond their own borders In most accounts of Irish history the focus is

on the political rivalry between Unionism and Republicanism But the roots of the Irish conflict are profoundly and inescapably religious As Marcus Tanner shows in this vivid warm and perceptive book only by understanding the consequences over five centuries of the failed attempt by the English to make Ireland into a Protestant state can the pervasive tribal hatreds of today be seen in context Tanner traces the creation of a modern Irish national identity through the popular resistance to imposed Protestantism and the common defense of Catholicism by the Gaelic Irish and the Old English of the Pale who settled in Ireland after its twelfth century conquest The book is based on detailed research into the Irish past and a personal encounter with today's Ireland from Belfast to Cork Tanner has walked with the Apprentice Boys of Derry and explored the so called Bandit Country of South Armagh He has visited churches and religious organizations across the thirty two counties of Ireland spoken with priests pastors and their congregations and crossed and re crossed the lines that for centuries have isolated the faiths of Ireland and their history *Dictionary of Munster Women Writers 1800-2000* Tina O'Toole, 2005 This dictionary will make an important contribution the knowledge of writing in Munster in both Irish and English over the past 200 years The dictionary has entries on 560 writers including 220 in Irish Each entry contains a bibliographical note a list of key references and a bibliography where applicable advances literary and cultural as distinct from primarily historical research on the region of Munster over the last two centuries enables a new view as a whole of the work of women writers juxtaposes the work of Irish English language and bilingual writers and thereby helps to develop an understanding of the province of Munster as a diverse cultural milieu and focus on the role of regionality in the process of cultural creation The Munster Women Writers Project based in the English Department at University College Cork was a recovery project aiming to make available the basic materials for biographical and literary research and analysis on the extensive number of women writers with Munster backgrounds or strong Munster connections in the period 1800-2000 The objective was to make more information on these writers available for future literary historians feminist critics and social historians to develop knowledge and understanding of this material By making available the basic materials for scholarly research in this field the project aims to help generate critical analysis of the role of regional class and gender factors in the formation of writers and the intersection of these factors in the nature of the work produced *Books in Print*, 2005

Handel's Oratorios and Eighteenth-Century Thought Ruth Smith, 1995-05-04 In this wide ranging and challenging book Ruth Smith claims that the words to Handel's oratorios reflect the events and ideas of their time and have far greater meaning than has hitherto been realised She explores eighteenth century literature music aesthetics politics and religion to reveal Handel's texts as conduits for the thought and sensibility of their time The book thus enriches our understanding of Handel his times and the close relationship between music and its intellectual contexts
