[Counseling to End Violence against Women](#) Mollie Whalen, 1996-04-10 Feminist theory has viewed violence against women as being a result of a male dominated society however traditional counselling approaches to helping battered women have neither addressed this view nor encouraged social change. The author of this challenging volume seeks to bridge this gap by incorporating feminist theory with counselling practice. Whalen argues that a counsellor working with an abused woman should not aim merely to empower the client to change a situation that is intolerable for that particular woman the counsellor should also aim to change the social conditions that foster abuse. The author's model focuses on women collectively seizing power and ending violence against all women

THE FACES OF VIOLENCE George B. Palermo, 2011-12-01 Thoroughly revised and rewritten this new Second Edition addresses the manifestations of violence with an unusual clarity and down to earth objectivity that studies poverty drugs access to guns joblessness poor education inadequate housing and the lack of stability that comes from an integrated family. Doctor Palermo has spent a lifetime observing criminal violence as a psychiatrist for Milwaukee County. He is well known for his plainspoken unpretentious testimony in the trial of serial killer Jeffrey Dahmer. The author takes the position that there is an absence in the United States of a coherent culture of its material obsession the destructiveness of welfare the disintegration of the family unit and how all these forces have come together to perpetuate and increase violence in our daily lives. Although the book deals with crimes against the physical person other forms of criminal behavior that have recently appeared on the social scene are explored such as Internet crimes white collar crimes and identity theft. It is a must read for all those professionals in the psychiatric criminological and forensic fields

The Battle and Backlash Rage On Stacey Elin Rossi, 2004-07-07 In *The Battle and Backlash Rage On* Why feminism cannot be obsolete edited by Stacey Elin Rossi hot topics include misogyny antifeminism and or bigotry in men's rights groups and feminist groups such as ifeminists critiques of the mainstream view that feminism is an outdated idea and no longer needed contemporary obstacles to overcoming backlash such as corrupt manipulation of data in antifeminist rhetoric and the like. Issues covered include Rhetorical denial that men hold the responsibility to end rape Me tooism by some men in regard to women's only programs such as healthcare Distortion of the image of the father by men's rights groups Implicit and explicit misogyny and antifeminism among ifeminists and men's rightists Sexism and the patriarchal birthright in divorce and its harm to children manifest in the custodial decisions taking

away children from their mothers and leaving them in the hands of the abuser Prevalence of domestic violence and its impact on the nations children Backlash against an ill informed view of affirmative action and political correctness that allegedly gives privilege particularly to women The compendium presents a combination of scholarly and nonscholarly works a blend that appeals to both academics and nonacademics alike Its ultimate purpose is to demonstrate that feminism works for the benefit of all humankind and not as claimed to the detriment of men These articles and essays will hopefully demystify the issues give a desperately needed more powerful force in favor of feminism and serve to controvert rampant antifeminism which can be in effect cleverly masqueraded misogyny This material is all rather cutting edge No volume to date has encompassed these very current developments in the sexual political landscape All over the westernized world the cultural melee surrounding the issue of sex gender sounds like a cacophony of agitated voices screaming in rage From angryharry blaming global warming on feminists as well as rape on women the very victims themselves 1 to MS Magazine bulletin board participants claiming that men hate women² the ideological battle seems to be at a greater intensity than ever before However this battle remains relatively confined to the fringes of society and to academe feminism per se is no longer part of our cultural mainstream While women all over the world particularly in developing countries are increasingly associating themselves with the label feminist women in the United States seem to be abandoning the term in droves From boardrooms to bedrooms not the four letter version but the eight letter F word appears verboten As criticized by some European feminists American women particularly those otherwise would be feminists dont like to offend their men Standing by their men they have begun to increasingly eschew feminism and even have begun to join the ranks of the enemy the mens rightists A search on the internet for articles and essays may produce thousands of hits on the obsolescence of feminism however polls and general trends indicate that the vast majority of women as well as men believe in gender equity One might hear a young woman say contradictorily Sure I believe women should be equal to men but Im not a feminist According to Geni Hawkins Somehow the term nazi has gotten tacked onto the end of the word feminist and the prevailing opinion seems to have become that the word connotes a shrill man hating bra burning I m surprised they re not still going off about us bobbing our hair unfulfilled female ³ One major unresolved and possibly unresolvable problem is unsurprisingly just how to proceed in such a splintered and alienating movement and one that has been given such a bad reputation Like so many other cultural stereotypes such as the shad

Domestic Violence and International Law Bonita Meyersfeld, 2010-03-23 Domestic Violence and International Law argues that certain forms of domestic violence are a violation of international human rights law The argument is based on the international law principle that where a state fails to protect a vulnerable group of people from harm whether perpetrated by the state or private actors it has breached its obligations to protect against human rights violation This book provides a comprehensive legal analysis for why a state should be accountable in international law for allowing women to suffer extreme forms of domestic violence and how this can help individual victims It is irrelevant that the violence is perpetrated by individuals and not state actors such as soldiers or the police The state's breach of its responsibility is in its failure to act effectively in domestic violence cases and in its silent endorsement of the violence it becomes complicit The book seeks to reformulate academic and political debate on domestic violence and the responsibility of states under international law It is based on empirical data combined with an honest assessment of whether or not domestic violence is recognised by the international community as a human rights violation Domestic Violence in International Law provides an original provocative and much needed legal framework for the coherent development of a norm against domestic violence in international human rights law Dr Meyersfeld has developed a thoroughgoing analysis that asks and answers the most difficult questions often neglected by academics lawyers and activists who dismiss the possibility that systemic violence against women could violate international law Most fundamentally this book is memorable for the hope and optimism it expresses about the transformative possibilities of international law For without compromising such intensely human values as privacy autonomy and cultural identity Dr Meyersfeld moves her reader with an abiding conviction that international law fueled with the power of transnational actors can propel public actors to protect abused and vulnerable people in their most private worlds From the Foreword by Harold Koh The Legal Adviser United States Department of State 2009 Preaching as Weeping.
