Lessons on Leadership by Terror Manfred F. R. Kets de Vries,2005-01-01 A serious but readable study that should be widely read by all concerned with leadership issues Long Range Planning This book is the most up to date available investigation of the understanding of tyranny and terror that psychologists psychoanalysts and experts on group and institutional behaviour can provide Manfred Kets de Vries has produced a masterpiece He draws on a wealth of published research in the field and relates it in an academically excellent yet eminently readable way to the premier problem of the beginning of the 21st century I strongly recommend it Anton Obholzer formerly Tavistock Centre London Psychoanalyst and Organizational Consultant From constructive narcissism to

reactive narcissism we are but one step away from megalomania and terror Professor Kets de Vries traces the origin of leadership by terror to early childhood in this case study of Shaka Zulu A gruesome story warns us that terror may be inherent in the human condition Abraham Zaleznik Harvard Business School US Kets de Vries has written another terrific book on leadership However this work will prove both timely and insightful to students of leadership and political psychology Through the tale of Shaka Zulu Kets de Vries introduces us to our very own despotic tendencies and thus familiarizes the reader with the human side however horribly oppressive and destructive of leadership by terror Here is a genuine contribution to the field of leadership studies Michael A Diamond University of Missouri Columbia US What makes despotic leaders tick How do they become despots On a lesser but far more common scale why are some people ruthlessly abrasive in the workplace Why do some business leaders appear to lose their sense of humanity How and why do they create a culture of fear uncertainty and doubt in their companies Lessons on Leadership by Terror attempts to discover what happens to people when they acquire power and whether the abuse of power is inevitable Manfred Kets de Vries examines the life of the nineteenth century Zulu king Shaka Zulu in order to help us understand the psychology of power and terror During his short reign Shaka Zulu established one of the most successful regimes based on terror that has ever existed from which the traits of despotic leaders are illustrated Shaka s life history is a study in the psychology of terror and he can be a proxy for the behavior of any despot be it from antiquity or modern times From his leadership behavior fifteen cautionary lessons are derived offering valuable principles for contemporary leaders The book also explores the characteristics of totalitarian states and discusses what can be done to prevent despotic leaders from coming to the fore Clear parallels are drawn between Shaka s behavior and that of other more contemporary leaders including Hitler Stalin Pol Pot and Saddam Hussein This fascinating and highly original book will be of enormous interest to a broad audience from students and academics focusing on leadership political science and political psychology to practitioners such as managers executives consultants and leadership coaches

Tyree, 2021 Wonder Horror Mystery is a dialogue between two friends both notable arts critics that takes the form of a series of letters about movies and religion One of the friends J M Tyree is a film critic creative writer and agnostic while the other Morgan Meis is a philosophy PhD art critic and practicing Catholic The question of cinema is raised here in a spirit of friendly friction that binds the personal with the critical and the spiritual What is film What s it for What does it do Why do we so intensely love or hate films that dare to broach the subjects of the divine and the diabolical These questions stimulate further thoughts about life meaning philosophy absurdity friendship tragedy humor death and God The letters focus on three filmmakers who challenged secular assumptions in the late 20th century and early 21st century through various modes of cinematic re enchantment Terrence Malick Lars von Trier and Krzysztof Kie lowski The book works backwards in time giving intensive analysis to Malick s To The Wonder 2012 Von Trier s Antichrist 2009 and Kie lowski s Dekalog 1988 respectively in each of the book s three sections Meis and Tyree discuss the filmmakers and films as well as related ideas about philosophy theology and film theory in an accessible but illuminating way The discussion ranges from the shamelessly intellectual to the embarrassingly personal Spoiler alert No conclusions are reached either about God or the movies Nonetheless it is a fun ride *Hospitality in a Time of Terror* Lindsay Anne Balfour, 2017-11-02 Hospitality in a Time of Terror Strangers at the Gate offers a reading of hospitality that suggests the encounter with strangers is at the core of cultural production and culture itself in the aftermath of the terrorist attacks of September 11 2001 It documents the significance of hospitality after the terrorist attacks particularly as such an ethics is so provocatively raised or disavowed by a predominantly visual and cultural archive that has been and continues to be consumed by millions of people around the world This book utilizes works of cultural memory film art and literature that show the breadth of hospitality s influence but that offer a depth of insight historical specificity and theoretical intensity that only a product created in the aftermath of 9 11 allows The September 11 Memorial and Museum in New York City for example is best understood as an institution defined by the question of hospitality particularly as hospitality is engaged or disavowed through

an experience with loss This book also considers how hospitality might function in consideration of the violence perpetuated against bodies marked by discourses of race gender and sexuality as is the case in the 2011 film Zero Dark Thirty and separately explores how alternative modes of hospitality are enabled by the fluid and dynamic space of the street and the urban art found there The final chapter examines Don DeLillo's 2007 novel Falling Man and argues that the novel demonstrates a sustained engagement with hospitality through the figure of organic shrapnel a metaphor that suggests the possibility of being literally and figuratively embedded by another The purpose of this book is to point out the diverse and even devastating ways that hospitality appears in ways that remind us that if hospitality as we understand it is failing it matters more than ever how we deploy it
