**James Ciment**

## **Terror Over America:**

**Terror in America, Ii** Leslie Herzberger, 2008-06-04 There is no available information at this time      *Terrorism in America* Brent L. Smith, 1994-01-01 Using extensive records from federal district courts national archives the U S Sentencing Commission and the Administrative Office of U S Courts Brent Smith examines the activities of persons investigated for acts of terrorism during the 1980s He traces the lives of the men and women who turned to terrorism in America the goals that motivated their behavior and the crimes they committed In addition the book provides detailed information regarding how shifts in federal priorities led to the capture and subsequent conviction of most of these offenders as well as the severity with which these men and women were punished      *Terrorism in America* Robin Maria Valeri, Kevin Borgeson, 2018-05-11 Offering a fresh perspective on the changing face of terror attacks *Terrorism in America* focuses on domestic groups examining the beliefs actions and impacts of American based terrorists and terror organizations Editors Robin Valeri and Kevin Borgeson and their contributors draw on theories from criminology psychology and sociology to explore the ideologies of right wing left wing and extremist religious groups how and why they convert followers recruit financially and take extreme action against others No competing text offers such in depth and nuanced coverage of the radical ideologies behind these attacks or the ensuing fear domestic terrorism creates as well as the strategies to combat violent extremism A core text for domestic terrorism courses and an excellent supplement for any counterterrorism or homeland security course *Terrorism in America* brings its singular focus to the growth and evolution of terrorism in the United States Interviews case studies from the field and chapter themes make this a highly readable text for criminal justice psychology sociology and homeland security students professors or practitioners      **Understanding Terrorism in America** Christopher Hewitt, 2003-09-02 Christopher Hewitt s comprehensive book surveys the characteristics and causes of terrorism and governmental responses to it He also examines the organizational structure of terrorist networks how they are financed and their ideological agendas Groups covered include Islamic fundamentalists white and black racists black nationalists revolutionary communists neo Nazis militant Jewish groups anti abortionists and migr groups This book is essential reading for students of American politics and terrorism It also provides a highly readable account for interested readers wishing to know more about a topic which has recently become tragically relevant to world affairs      *Female Terrorism in America* Jonathan Matusitz, Elena Berisha, 2020-09-17 This book provides a comprehensive analysis of female terrorism in America both past and present The volume takes a fresh look at women s actions of left wing political violence right wing political violence and religious extremist violence among others It also examines the multitude of roles that women have played over the past few decades in such organizations including leadership positions and more passive roles not to mention the diverse methods of recruitment radicalization and propaganda The objective of this book is to examine using a wide range of case studies facts statistics and theoretical methodologies how collective or personal factors have influenced or reinforced the actions that these women take

Government agencies continue to underestimate the ability of women to support and perpetrate terrorism As such the United States is facing a wholly inaccurate and incomplete picture of the complexities of domestic terrorism and this is contributing to a serious neglect of the issue at the national level This volume ultimately aims to offer policy relevant solutions to decrease the threat of domestic female political violence in the United States Female Terrorism in America will be of much interest to students of terrorism and political violence American politics gender studies and sociology

**America's 'War on Terrorism'** John E. Owens, John W. Dumbrell, 1955-01-01 How has 9 11 and George W Bush's self declared war on terror changed American government and US foreign policy This is the central question addressed in the nine original essays in this book Following an introduction by the editors in which they survey issues and debates raised by America's War on Terrorism and its consequences for US government and politics foreign policy and for American foreign relations the contributions to this volume from British and American scholars explain the implications of the post 9 11 mobilization and reconfiguration of US foreign and internal security policies Issues addressed in the book include the growth of presidential power executive branch reconfiguration and the managerial presidency the Bush doctrine of pre-emption the changing role of the US in the international order the impact of the war on terrorism on the US military intelligence failure and the changed role of US intelligence renewed tension in US European relations and Bush's alliance with Tony Blair's government in the United Kingdom Taken together the essays represent an original and timely assessment of the domestic and international repercussions of George W Bush's responses to the terrorist attacks September 11 2001

**The Historical Origins of Terrorism in America** Robert Kumamoto, 2014-02-05 When we think of American terrorism it is modern individual terrorists such as Timothy McVeigh that typically spring to mind But terrorism has existed in America since the earliest days of the colonies when small groups participated in organized and unlawful violence in the hope of creating a state of fear for their own political purposes Using case studies of groups such as the Green Mountain Boys the Mollie Maguires and the North Carolina Regulators as well as the more widely known Sons of Liberty and the Ku Klux Klan Robert Kumamoto introduces readers to the long history of terrorist activity in America Sure to incite discussion and curiosity in anyone studying terrorism or early America The Historical Origins of Terrorism in America brings together some of the most radical groups of the American past to show that a technique that we associate with modern atrocity actually has roots much farther back in the country's national psyche

**Terror in Europe** United States. Congress. Senate. Committee on Homeland Security and Governmental Affairs, 2017 [Terrorism in America](#) J. Lutz, 2007-10-29 Terrorism is often seen as a Middle Eastern problem and terrorists are often perceived as only having a Muslim background It may surprise many to learn that Americans are and have been terrorists since the birth of the nation This book investigates and discusses many instances in which Americans were themselves the terrorists and the victims

**Human Rights and Counter-terrorism in America's Asia Policy** Rosemary Foot, 2020-11-25 This book examines the effects of the terrorist attacks on New York and Washington of 11

September 2001 on America's human rights and counter terrorism policies towards a number of countries in Asia Five countries have been chosen for examination divided into two front lines states Pakistan and Uzbekistan two second front countries Indonesia and Malaysia and a third front country China The paper also looks at changes in US domestic legislation and its treatment of prisoners at Guantanamo Bay and elsewhere in order to analyse the extent to which the US promotion of an external human rights policy might also have been compromised by its own legislative changes as a result of the struggle against terrorism The paper concludes that the attacks on US territory overall have constrained America's willingness and capacity to promote an external human rights policy with respect to these five countries However some attention especially at the rhetorical level to these countries human rights records has been retained to differing degrees among the five states This degree of difference is not explained entirely in reference to a country's perceived centrality to the struggle against terrorism It depends on the extent to which the US executive and legislative branches are united either singly or in combination in their disapproval of a state's record or in their understanding about how best to reach the policy goals that are sought

**Transnational Feminist Perspectives on Terror in Literature and Culture** Basuli Deb, 2014-11-13 This book offers a transnational feminist response to the gender politics of torture and terror from the viewpoint of populations of color who have come to be associated with acts of terror Using the War on Terror in Afghanistan and Iraq this book revisits other such racialized wars in Palestine Guatemala India Algeria and South Africa It draws widely on postcolonial literature photography films music interdisciplinary arts media new media and activism joining the larger conversation about human rights by addressing the problem of a pervasive public misunderstanding of terrorism conditioned by a foreign and domestic policy perspective Deb provides an alternative understanding of terrorism as revolutionary dissent against injustice through a postcolonial transnational lens The volume brings counter terror narratives into dialogue with ideologies of gender race ethnicity nationality class and religion addressing the situation of women as both perpetrators and targets of torture and the possibilities of a dialogue between feminist and queer politics to confront securitized regimes of torture This book explores the relationship in which social and cultural texts stand with respect to legacies of colonialism and neo imperialism in a world of transnational feminist solidarities against postcolonial wars on terror

**Modern American Extremism and Domestic Terrorism** Barry J. Balleck, 2018-06-01 Highlighting a breadth of American individuals and groups that engaged in extremist behavior across history this book provides a succinct concise overview of extremist behavior in the past and examines today's increasingly common incidences of hate and extremism Since the election of Barack Obama in 2008 extremist and hate groups have seen a resurgence on the American political landscape Members of these subgroups within the American population have become concerned that the America that they have always known is fading into oblivion with a majority of individuals in these groups holding fiercely anti immigration views and adhering to the belief that the United States should not admit large numbers of any group that is not white Christian or predominantly European Others believe that the

principles and precepts of the U S Constitution have gone by the wayside and that drastic measures are required to protect the underlying tenets that were the essential elements of the Constitution and many of their nation s founding principles How did these individuals come to feel this way is it possible to bring these impassioned extremists back into the fold and if so how This book provides comprehensive illuminating and sometimes disturbing insights into the individuals groups and events that have illustrated extremist behavior in post World War II America Ranging from the anti communist rhetoric and activities of the John Birch Society to the radical socialist ideals of the Black Panthers to the goals of a pure America articulated by white nationalists this book documents the various extremist elements that shaped the second half of the 20th century as well as the first two decades of the 21st century Readers will grasp how events in the histories of individuals and groups as well as perceived injustices have lead to the incidences of hate and extremism in American society The encyclopedic entries of the book are specifically written to accessible to readers without specific knowledge of extremism political science or sociology

**National Security and Policy in America** Wesley McCann, Francis Boateng, 2019-11-28 This book investigates the strategic use of America s historical crime control counterterrorism national security and immigration policies as a mechanism in the modern day Trump administration to restrict migration and refugee settlement with a view of promoting national security and preservation National Security and Policy in America critically explores how American culture neocolonial aspirations and indifference towards others negatively impact long term global security This book examines immigration and security policies and their origins purpose impact and evolution vis vis the recently imposed travel ban and proposed border wall across the Southern border as well as how foreign policy influenced many of the migration flows that are often labeled as security risks The book also seeks to understand why immigration has been falsely associated with crime terrorism and national insecurity giving rise to counterproductive policies despite evidence that immigrants face intolerance and turmoil due to the powerful distinctions between them and the native born This book uses an interdisciplinary framework in examining the U S current response to immigration and security and will thus appeal to undergraduate and graduate students of law social justice criminology critical theory neo colonialism security studies policing migration and political science as well as those interested in the practical questions of public administration

*Utopia and Terror in Contemporary American Fiction* Judie Newman, 2014-07-17 This book examines the quest for failure of Utopia across a range of contemporary American transnational fictions in relation to terror and globalization through authors such as Susan Choi Andr Dubus Dalia Sofer and John Updike While recent critical thinkers have reengaged with Utopia the possibility of terror whether state or non state external or homegrown shadows Utopian imaginings Terror and Utopia are linked in fiction through the exploration of the commodification of affect a phenomenon of a globalized world in which feelings are managed homogenized across cultures exaggerated or expunged according to a dominant model Narrative approaches to the terrorist offer a means to investigate the ways in which fiction can resist commodification of affect and

maintain a reasoned but imaginative vision of possibilities for human community Newman explores topics such as the first American bestseller with a Muslim protagonist the links between writer and terrorist the work of Iranian Jewish Americans and the relation of race and religion to Utopian thought      **Profiling and Criminal Justice in America** Jeff

Bumgarner,2014-12-16 An unbiased examination of profiling in the criminal justice system one of the most hotly contested public policy issues on the streets in the courts and in the jails and prisons of America In the post 9 11 world profiling by law enforcement has become standard operating procedure Profiling by prosecutors judges and corrections officers is pervasive in other criminal justice contexts as well Is profiling actually effective in preventing crime or identifying likely offenders and therefore justifiable This accessible single volume reference book examines profiling as it pertains to the criminal justice system in the United States providing non partisan information that illuminates the full scope of the profiling issue and discusses the possible impact of profiling on all American citizens Addressing this highly controversial topic holistically the book considers questions such as whether the criminal justice system in the United States unfairly targets minorities how the rights of minorities can be protected while enabling law enforcement to use every resource available and whether justification for profiling techniques exists This work will serve students at the high school and college level as well as general readers who are interested in criminal justice issues and issues relating to equality and fairness before the bar of justice      **Surveillance and Terror in Post-9/11 British and American Television** Darcie Rives-East,2019-07-18 This

interdisciplinary study examines how state surveillance has preoccupied British and American television series in the twenty years since 9 11 Surveillance and Terror in Post 9 11 British and American Television illuminates how the U S and U K bound by an historical cultural and television partnership have broadcast numerous programs centred on three state surveillance apparatuses tasked with protecting us from terrorism and criminal activity the prison the police and the national intelligence agency Drawing from a range of case studies such as Sherlock Orange is the New Black and The Night Manager this book discusses how television allows viewers writers and producers to articulate fears about an increased erosion of privacy and civil liberties following 9 11 while simultaneously expressing a desire for a preventative mechanism that can stop such events occurring in the future However these concerns and desires are not new encompassing surveillance narratives both past and present this book demonstrates how television today builds on earlier narratives about panoptic power to construct our present understanding of government surveillance      **Terrorism in American Cinema** Robert Cettl,2009-10-21 The American

cinema of terrorism although coming to prominence primarily in the 1970s amidst high profile Palestinian terrorist activity actually dates back to the beginnings of the Cold War But this early terrorist cinema was centered largely around the Bomb who had it who would use it when and differs greatly from the terrorist cinema that would follow Changing world events soon broadened the cinema of terrorism to address emerging international conflicts including Black September pre 9 11 Middle Eastern conflicts and the post 9 11 War on Terror This analytical filmography of American terrorist films establishes terrorist

cinema as a unique subgenre with distinct thematic narrative and stylistic trends It covers all major American films dealing with terrorism from Otto Preminger s Exodus 1960 to Ridley Scott s Body of Lies 2008      **Human Rights and America's War on Terror** Satvinder S. Juss,2018-10-25 This volume examines the success of the 9 11 attacks in undermining the cherished principles of Western democracy free speech and tolerance which were central to US values It is argued that this has led to the USA fighting disastrous wars in Afghanistan and Iraq and to sanctioning the use of torture and imprisonment without trial in Guant namo Bay extraordinary rendition surveillance and drone attacks At home it has resulted in restrictions of civil liberties and the growth of an ill affordable military and security apparatus In this collection the authors note the irony that the shocking destruction of the World Trade Center on 9 11 should become the justification for the relentless expansion of security agencies Yet this is a salutary illustration of how the security agencies in the USA have adopted faulty preconceptions which have become too embedded within the institution to be abandoned without loss of credibility and prestige The book presents a timely assessment of both the human rights costs of the war on terror and the methods used to wage and relentlessly continue that war It will be of interest to researchers academics practitioners and students in the fields of human rights law criminal justice criminology politics and international studies      **'War on Terror' and American Film** Terence McSweeney,2014-11-11 This compelling theoretically informed and up to date exploration of contemporary American cinema charts the evolution of the impact of 9 11 on Hollywood film from Black Hawk Down 2001 through Batman Begins 2005 United 93 2006 to Olympus Has Fallen 2013 Through a vibrant analysis of a range of genres and films which in turn reveal a strikingly diverse array of social historical and political perspectives this book explores the impact of 9 11 and the war on terror on American cinema in the first decade of the new millennium and beyond      *Social Issues in America* James Ciment,2015-03-04 More than 150 key social issues confronting the United States today are covered in this eight volume set from abortion and adoption to capital punishment and corporate crime from obesity and organized crime to sweatshops and xenophobia
