

Human Condition of Terror: Radiation, Terrorism, Viruses

Māris Kūlis, University of Latvia, Institute of Philosophy and Sociology, Riga, Latvia¹

Abstract: The aim of this chapter is to outline the use of phenomenological and hermeneutic ideas in terrorism studies through the reinterpretation of ‘terrorism’ as ‘terror’. The chapter will first consider contemporary trends in the methodology of terrorism studies and the shortcomings to be found. Current mainstream terrorism studies can be divided into two major directions but there is a third option available for terrorism studies, one that would employ ideas of phenomenology and hermeneutics. Eco-phenomenology would look at narratives and meanings as they appear over the horizon of history and culture. The introduction of phenomenology and hermeneutics in terrorism studies would cause a conceptual shift that should return the focus to the fundamental element of terrorism — that of terror. The final part of the chapter will illustrate this approach using some instances of terror (the atomic bomb and radiation; military terrorism and a virus) by expanding and commenting on phenomenologically-observable shifts in meaning: with chemical and nuclear weapons ‘breath’ becomes a threat; with military terrorism and counter-terrorism ‘sky’ becomes a source of danger, while a virus lands threats on ‘surfaces’. The development of thought from terrorism studies to the pandemic is a reflection of an eco-phenomenological idea viewing the environment as imbued with meanings and ideas rather than a material totality.

Terror, Terrorism and the Human Condition C. Webel, 2016-03-05 This book is an attempt to clarify the often murky connections between terrorism terrorists and terror It is designed for the general educated audience interested in recent events the history leading up to them and the prospects for dealing with the after effects Using personal accounts from people who have lived through various forms of terror survivors of the Dresden fire bombing Hiroshima the 9 11 attacks and others the book explores terror and its use as a weapon Providing a unique perspective on terrorism the book places current events within the broader context necessary to understand how we got here and where we are going , **Ethics of Terrorism & Counter-Terrorism** Georg Meggle, Andreas Kemmerling, Mark Textor, 2013-05-02 We are supposed to wage war against Terrorism but exactly what we are fighting against in this war there is nearly no consensus about And much worse nearly nobody cares about this conceptual disaster the main thing being whether or not you are taking sides with the good guys This volume is an analytical attempt to end this disaster What is Terrorism Are terrorist acts to be defined exclusively on the basis of the characteristics of the respective actions Or should we restrict such actions to acts performed by non state organisations And most important is terrorism already by its very nature to be morally condemned But having a clear idea of what Terrorism is would be only the beginning Rational moral assessment still needs two further components The relevant facts and the relevant values and norms Now in a field where systematic disinformation has been even proclaimed to be the official policy facts are obviously very hard to get at This volume is mainly interested in Ethics What s wrong with Terrorism And what is morally right or morally wrong respectively with all the different means of Counter Terrorism What are the moral boundaries for waging war against terrorism What are the right ways of dealing with terrorists And what about the alleged anti terrorism wars on Afghanistan and Iraq With contributions from Marcelo Dascal Tomis Kapitan Daniel Messelken Seumas Miller Olaf L Mueller Igor Primoratz Charles P Webel Per Buhner R diger Bittner C A J Tony Coady Haig Khatchadourian Georg Meggle Peter Simpson Carolin Emcke Ralf Groetker Laurence Lustgarten Thomas Mertens Aleksandar Pavkovic Filimon Peonidis Janna Thompson Vronique Zanetti Peace and Conflict Studies David P. Moral Philosophy and the Modern World Donald Phillip Verene,2013-08-27 This work raises for the contemporary reader the ancient and abiding question of the nature and meaning of human virtue In Part 1 it draws upon Plato Aristotle and Cicero and the works of Renaissance Christian humanists who were influenced by them such as Pico Vives and Erasmus The moral act guided by the cardinal virtues and the good is seen as the key to human happiness and the formation of character Character is the basis for the pursuit of self knowledge decorum and dignity which properly guide human affairs Part 2 takes up Hegel s principle of the labor of the negative as applied to three phenomena of modern life the presence of terrorism the personality of the psycho sociopath and the problems of the technologically dominated life of the modern person These are the most powerful impediments to the good life in the modern world and pose problems to which the ethical doctrines of utilitarianism and the categorical imperative provide an insufficient response To confront these phenomena we are led back to the classical conception of the role of prudence or practical wisdom as the foundation of ethical life

Webel,2011-11-14 Presenting the reader with provocative articles that critically examine the morality of the war on terrorism as it has evolved over the past eight years this book consists of articles that effectively address specific aspects of the war on terrorism that are missing or underrepresented in ethical discourse since 9 11

Christian Ethics Non-violent Resistance Approach to Boko Haram Anthony Okechukwu Nnadi PhD STD,2024-04-10 The book takes a practical look at the complexity of the nature of violence terrorism in Nigeria in the light of the Catholic social teaching on non violent resistance With the critical analyses of some policies strategies used to address the problem of Boko Haram terrorism in Nigeria the book explores a range of questions Does severe punishment work effectively as deterrence against possible involvement in terrorism Does applying lex talionis reduce or exacerbate recidivism What are the right mechanisms to stop terrorism violence in Nigeria This book is convinced that nothing is resolved through violence and that violence begets violence alluding that responding to terror with terror is a retaliatory method that is self defeating On the whole it has been noted that the principle or law of retaliation Lex Talionis alone cannot stop armed insurgency in Nigeria thus the book suggests non violent resistance as the best way to address terrorism and violent conflicts Non violent resistance does not mean condoning violent attacks against innocent civilians Based on the Christian ethical principles of the dignity of the human person and justice this book explicitly declares that the killing of innocent civilians is absolutely immoral The book explores the use of the term Islamic terrorism and the Islamic ethics of justice peace and nonviolence and underlines that the Islamic core moral principles in no way support terrorism While stating that terrorism is morally wrong this book states that the causes of terrorism must be addressed with justice and fairness On this basis the book insists on critically investigating the following religious extremism corruption bigotry in politics and religion the glaring sense of apathy among the political elite to the suffering of the oppressed and the mismanagement and abuse of political positions or

the nation's resources for selfish interest There must be a rethink aimed at finding the best way to build an ethical society a framework for justice and peace *Planning and the Human Condition* , **Law, Text, Terror** Ian Ward,2009-04-16 Ian Ward places contemporary political and jurisprudential responses to terrorism within a broader literary cultural and historical context **Indictment of Terror** Vladimir Vasil'evich Ustinov,2003 **Assessing the War on Terror** Charles Webel,Mark Tomass,2017-02-17 This volume is a collection of articles that critically examine the efficacy ethics and impact of the War on Terror as it has evolved since 9 11 During the decade and a half of the Global War on Terror GWOT numerous books have considered the political psychosocial and economic impacts of terrorism However there has been little systematic effort to examine the effectiveness of the GWOT in achieving its goals Furthermore there is virtually nothing that presents a comparative analysis of the GWOT by the people most directly affected by it citizens and scholars from conflict zones in the Middle East There is therefore great need for a book that analyzes the strategies tactics and outcomes of the GWOT and that also presents facts and ideas that are missing or underrepresented in the dominant public narratives The contributions in this volume were chosen to specifically address this need In doing so it uniquely provides not only Western perspectives of the GWOT but also importantly includes perspectives from the Middle East and those most directly affected by it including contributions from scholars and policy makers Overall the contributions demonstrate how views differ based on geographical location and how views have changed during the course of the still evolving War on Terror The book will be of much interest to students and scholars of terrorism and counter terrorism foreign policy Middle Eastern politics security studies and IR as well as policy makers *Human Rights in the 'War on Terror'* Richard Ashby Wilson,2005-10-03 This book asks whether human rights since the 9 11 attacks and the war on terror are a luxury we can no longer afford or rights that must always remain a fundamental part of democratic politics in order to determine the boundary between individual freedom and government tyranny This volume brings together leading international lawyers policy makers scholars and activists in the field of human rights to evaluate the impact of the war on terror on human rights as well as to develop a counter terror strategy which takes human rights seriously While some contributors argue that war is necessary in defense of liberal democracy others assert that it is time to move away from the war model towards a new paradigm based upon respect for human rights an internationally coordinated anti terror justice strategy and a long term political vision that can reduce the global tensions that generate a political constituency for terrorists
