Insights and Commentaries: South and Central Asia Ms Anita Sengupta, Mr Mirzokhid Rakhimov, 2015-08-15 This volume emerged out of a search for scholarship that has studied connectivity between South and Central Asia from a variety of perspectives Geographically and culturally the vision that India has had of the region she referred to as Central Asia is of a space extending across China westward upto the Aral Sea and including within it Balkh Bukhara and Samarkand The Indian fascination with the region extends to various levels as this is the region out of which invading tribes entered India across whose Silk Routes trade flourished and also the region where Indian culture and religion spread Keeping this in mind the

volume begins with an overview of positions from which the region has been traditionally situated from the Indian perspective as also reflections on the current scenario in terms of the geopolitical transformations of recent times. It then moves on to examine the history of the political, cultural and economic connections between the two regions from comparative perspectives. Written by specialists from Uzbekistan, the articles reflect on connections that had ancient roots and shared historical experiences. The first set of articles focus on the historical linkages between the two regions. Another set looks at similar developments in the region in terms of transformations in the socio-political life of the people as also in the economy. Encounters and the necessity of security cooperation between the two regions is the focus of a third set of articles. The second part of the volume looks into certain issues that are significant in both South and Central Asia. Written with Uzbek insight, they reflect on Soviet and post-Soviet state policies on a range of issues from gender and maternity policies, ethnic policies and social stratification, information policy and policies related to global organizations that have comparable relevance in the Indian context.

Understanding Terrorism in South Asia Imtiaz Ahmed, 2006. Terrorism is now an over-defined concept. With the state, intellectuals, dissenters and anti-state activists constantly battling out its meaning, the understanding of terrorism in South Asia cannot remain immune from the global discourse of violence and terror. The authors of this volume, albeit in the light of their own scholarly pursuits, have tried to make sense of the South Asian situation by going beyond the statist discourses of our time. Contributors include Nira Wickramasinghe, Ranabir Samaddar, Jehan Perera, Shahedul Anam Khan, Sanjoy Hazarika among many others.

Religious Militancy and Security in South Asia Mufleh R. Osmany, Shaheen Afroze, 2006. *Counterterrorism* Graeme Colin Stracey, Steven, Rohan Kumar, Gunaratna, 2004-09-14. An up-to-date analysis of the wave of terrorism in the post-Cold War era and the ways in which states and societies are responding. *Counter Terrorism: A Reference Handbook* outlines the threat of terrorism and ways to combat it. Written by two expert insiders in the field, this extensive examination surveys a wide range of diverse terrorist groups from the Provisional Irish Republican Army (PIRA) to Al Qaeda. It shows how key trends and patterns in domestic and international terrorism, such as suicide bombings, require counter-strategies and tactics including surveillance and reconnaissance. Case studies of terrorist organizations in Europe, Asia, Africa, Latin America, the Balkans and the Caucasus and profiles of terrorists like Khalid Sheikh Mohammad, alias Mokhtar The Brain, who masterminded the Al Qaeda attack on 9/11, illustrate the growing network of groups and leaders harnessing the forces of globalization. Finally, the authors suggest that no single state can act effectively on its own to confront terrorism; instead, a wide range of strategies needs to be adopted by all.

Body of Victim, Body of Warrior Cabeiri deBergh Robinson, 2013-03-08 This book provides a fascinating look at the creation of contemporary Muslim jihadists Basing the book on her long term fieldwork in the disputed borderlands between Pakistan and India Cabeiri deBergh Robinson tells the stories of people whose lives and families have been shaped by a long history of political conflict Interweaving historical and ethnographic evidence Robinson explains how refugee seeking has become a socially and politically debased practice in the Kashmir region and why this devaluation has turned refugee men into potential militants She reveals the fraught social processes by which individuals and families produce and maintain a modern jihad and she shows how Muslim refugees have forged an Islamic notion of rights a hybrid of global

political ideals that adopts the language of human rights and humanitarianism as a means to rethink refugees positions in transnational communities Jihad is no longer seen as a collective fight for the sovereignty of the Islamic polity but instead as a personal struggle to establish the security of Muslim bodies against political violence torture and rape Robinson describes how this new understanding has contributed to the popularization of jihad in the Kashmir region decentered religious institutions as regulators of jihad in practice and turned the families of refugee youths into the ultimate mediators of entrance into militant organizations This provocative book challenges the idea that extremism in modern Muslim societies is the natural by product of a clash of civilizations of a universal Islamist ideology or of fundamentalist conversion **Peace**

Processes and Peace Accords Samir Kumar Das, 2005-11-05 The second volume in the South Asian Peace Studies series Peace Processes and Peace Accords looks at the political question of peace from three perspectives the process of peace the contentious issues involved in the peace process and the ideologies that come in conflict in this process Arguing that peace is not a one time event to be achieved and rejoiced over but a matter to be sustained against various odds the contributors show that the sustainability of peace depends on a foundation of rights justice and democracy Peace accords they maintain are only a moment in the process the very act of signing an accord could mark either a continuation of the same conflict or simply its metamorphosis Therefore as this volume shows negotiation should be redefined as joint problem solving on a long term sustained basis rather than one off hard bargaining **CBMs In India-Pakistan Relations** Surender
