Terrorists And Their God The Crisis In Islam:

God's Terrorists Charles Allen, 2009-03-05 What are the roots of today's militant fundamentalism in the Muslim world? In this insightful and wide-ranging history Charles Allen finds an answer in an eighteenth-century reform movement of Muhammad ibn Abd al Wahhab and his followers the Wahhabi who sought the restoration of Islamic purity and declared violent jihad on all who opposed them. The Wahhabi teaching spread rapidly first throughout the Arabian Peninsula then to the Indian subcontinent where a more militant expression of Wahhabism flourished. The ranks of today's Taliban and al Qaeda are filled with young men trained in Wahhabi theology. *God's Terrorists* sheds much-needed light on the origins of modern terrorism and shows how this dangerous ideology lives on today. *Terrorists and Their God* Hilton E. Fyfe, 2002

New Political Religions, Or an Analysis of Modern Terrorism Barry Cooper, 2005-08 While terrorism has been used throughout the ages as a weapon in political struggles there is an essential difference between groups who use these tactics for more or less rational political goals and those seeking more apocalyptic ends. Cooper argues that today's terrorists have a spiritual perversity that causes them to place greater significance on killing than on exploiting political grievances. He supports his assertion with an analysis of two groups that share the characteristics of a pneumopathological consciousness: Aum Shinrikyo the terrorist organization that poisoned thousands of Tokyo subway riders in 1995 and Al Qaeda the group behind the infamous 9/11 killings. **Comparative Philosophy and Religion in Times of Terror** Douglas

Allen, 2006-01-01 Comparative philosophy and religion can help us to understand the violence and terror that often dominate our world. These new creative studies ranging in scope from ancient Biblical Greek Indian and Chinese formulations to recent religious and philosophical positions broaden and deepen our understanding of terror and present new possibilities for greater nonviolence, peace, and true security. World Terrorism: An Encyclopedia of Political Violence from Ancient Times to the Post-9/11 Era James Ciment, 2015-03-10

First Published in 2015 This collection holds three volumes. Terrorism is a term that defies easy definition and its meaning has also changed over the course of history. Because this encyclopedia aims at comprehensiveness across time, geography, and the conceptual landscape it applies the broadest definition of terrorism: the use of violence or the threat of violence to effect political change through fear in which the victims of the violence. The encyclopedia is divided into six parts. *The Islamic Quarterly*, 2005 Modernity, Religion, and the War on Terror Richard

Dien Winfield, 2016-04-15 The war on terror cannot be truly understood without investigating the legitimacy of modernity, the challenge that religion presents to modernization, the inescapable conflicts attending the emergence and expansion of modernity, and the post-colonial predicament from which Islamist reaction arises. Richard Dien Winfield illuminates the war on terror in light of these issues, presenting an anti-foundationalist justification of the rationality and freedom of modernity while assessing how religion can stand in opposition to modernity and why Islam has been a privileged vehicle of anti-modern religious revolt. Winfield shows that the privatization that religion must undergo to be compatible with modern freedom

involves no capitulation to relativism but rather is a theological imperative on which the truth of religion depends Exposing the limits of any purely secular modernization of Islam Winfield shows how Islam can draw upon its core tradition to repudiate the oppression of Islamist reaction and become at home in the modern world *Jihad, Radicalism, and the New Atheism* Mohammad Hassan Khalil, 2018 This book compares the conflicting and consequential interpretations of jihad offered by mainstream Muslim scholars violent Muslim radicals and New Atheists *Fighting Terrorism in the Liberal State* Samuel Peleg, Wilhelm F. Kempf, 2006 Contains papers that illustrate the balanced dichotomy between terrorism and counter terrorism against the background of the liberal state How to establish the equilibrium of combating terrorism while preserving the liberties of the open society This book begins with this question and tackles different aspects and dimensions of this dilemma **Global War on Terrorism**, 2004 *Sacred Terror* Daniel E. Price, 2012-07-19 This book places the current wave of religion based terrorism in a historical perspective explaining why religion is associated with terrorism comparing religion based terrorism to other forms of terrorism and documenting how religion based terrorism is a product of powerful political socioeconomic and psychological forces Religion based terrorism is perceived as one of the most significant threats to U S homeland security in the 21st century *Sacred Terror How Faith Becomes Lethal* makes the central argument that religion based violence and terrorism is primarily a result of political socioeconomic and psychological forces thereby demystifying religion based terrorism and revealing its inherent similarity to other forms of terrorism and war Daniel Price examines religious texts and traditions in Judaism Christianity and Islam looks at the history of religion based terrorism and explores why religion facilitates violence He builds upon this foundation to explain how religion as an ideological force that motivates violence is not as powerful as commonly believed and that religious fervor is not unlike other non religious ideologies such as Marxism nationalism and anarchism The work also presents in depth analysis of the political socioeconomic and psychological forces that are behind religion based violence and discusses case studies from multiple religions that illustrate the author s argument *Issues in Terrorism and Homeland Security* CQ Researcher, 2010-09-21 With six new articles covering topics such as terrorism and the internet prosecuting terrorists and homeland security this reader friendly textbook will inspire students whilst helping them to understand the key material in this field **The Ideological War on Terror** Anne Aldis, Graeme Herd, 2006-11-22 This edited book addresses the appropriateness of US and other counter terrorist CT strategies in Europe and Eurasia the Middle East the Asia Pacific region and in Latin America with a view to improving their effectiveness The book has three main objectives to re examine terrorists strategic goals and sources of legitimacy and the nature of their ideological support to analyze current US and regional CT strategies and assess their success in de legitimizing terrorists and undermining their support to provide a strategic synthesis and policy recommendations in light of the research findings This book will be of interest to students of political violence and terrorism security studies and international relations in general *Defeating Islamic Terrorism* Patrick Bascio, 2007 This book

addresses the difficult problem of defeating Islamic terrorism from a surprising and very effective vantage point There are 59 million Muslims in Central Asia They have experienced the threat of Wahhabi terrorism and have been able to contain it at the same time The author calls on the U S Government to ally itself with this part of the world The people there being Muslim understand Islam from the inside and would be happy to help us in this global effort if their traditions and independence were respected The author calls on the U S Government and its allies to both diplomatically and compassionately focus on this part of the world *Traces of Terrorism, II* Matthias Plügge, 2025-08-14 In this second volume of *Traces of Terrorism* the focus is on Jihadist organizations such as al Qaeda and Islamic State The volume begins with 9 11 al Qaeda s attacks on the World Trade Center in New York and the Pentagon in Washington The Global War on Terrorism that followed in response is described in detail as is the hunt for Osama bin Laden and his killing by US Navy SEALs It also covers terrorist organizations operating in Africa and Asia as well as so called franchise groups radicalized sympathizers who carried out attacks in the name of al Qaeda The book concludes with terrorism in the US in recent years and the growing threat of domestic ECCWS 2019 18th European Conference on Cyber Warfare and Security Tiago Cruz ,Paulo Simoes, 2019-07-04

Terror and Liberalism Paul Berman, 2004-05-11 He calls for a new radicalism and a liberal American interventionism to promote democratic values throughout the world a vigorous new politics of American liberalism **BOOK JACKET** **Tales of Terror** Bethami A. Dobkin, 1992-04-20 Conventional research suggests that news coverage of terrorism is a tool of the terrorist to gain public support and recognition Based on an analysis of more than 200 evening newscasts aired during the first six years of the Reagan administration *Tales of Terror* offers a detailed account of the ways in which news media escalate public panic about terrorism and encourage support for specific U S policy objectives rather than build sympathy for terrorists Bethami Dobkin explores similarities between news media and government portrayals of terrorism combining textual criticism with an interpretation of official U S policy statements and argues that government depictions and news presentations of terrorism reproduce an ideology that supports military strength and intervention Dobkin examines several specific features of news coverage the dramatic format of television news and the political interests that this format serves the narrative construction of enemies by television journalists and public officials and the political significance of the terrorist label the use and significance of testimony particularly that of people affected by crisis the mutual exploitation of political crisis by both television news producers and public officials the function of journalism in shaping the conduct of public diplomacy and public perceptions of foreign conflict and the creation of consensus about the need for military responses to political violence This revealing study will be of particular interest to scholars of communications and political science Homeland Security Organization in Defence Against Terrorism IOS Press, 2012-06-26 The threat of terrorist attack continues to feature prominently in the field of homeland security Dealing with this issue demands a balanced strategy which will defeat the terrorist threat whilst at the same time ensuring that vulnerable communities and individuals feel

included in society and are not pushed towards radicalization and violent extremism by the very measures implemented to prevent this. This book presents the proceedings of the NATO Centre of Excellence Defence Against Terrorism COE DAT Advanced Research Workshop entitled Homeland Security Organization in Defence Against Terrorism held in Ankara Turkey in November 2009. The workshop brought together participants from some 13 countries and consisted of five sessions: current threats to homeland security from terrorism; homeland security organization; legal and security responses to terrorism in homeland security; the challenge of international terrorism; other threats and countering radicalization and the psychology of terrorism. During these sessions, presentations by thirteen expert speakers from eight countries were followed by a debate. The workshop concluded with a final discussion of all the topics reflected in the individual papers presented. Representing a significant contribution to furthering the science of counterterrorism, this book will be of interest to all those whose work involves them in aspects of homeland security and the terrorist threat.

Terrorism Eluma Ikemefuna Sylls, 2006. Building Spiritual Muscles is written in five parts. Part I talks about how my encounters with ordinary people during my world travels helped put my years of metaphysical understandings into perspective. Part II is a sketch of my early life where the seeds of my metaphysical thought processes were sown. Part III offers advice for developing physical strength and endurance based on my many years of body building and work as a personal trainer. In part IV I share insights, instructions, meditations and exercises that I use for building spiritual strength. Part V highlights essential metaphysical guidelines that can expand and have expanded my capacity for inner peace no matter what I've encountered on life's journey. This book is not a traditional 'how to' book. I believe that each individual must find his or her own path to happiness and peace of mind. My belief is that sharing my personal experiences and revelations would motivate others on their journey to peace of mind. This is a journey of the heart. It begins by being open to others, being non-judgmental, having compassion and self-love. It takes living and experiencing to discover your own individual way. The only person who can teach you about yourself is you. However, every once in a while, people show up in our lives as guides. Guides help smooth out the path, but it's our own personal experiences that generate wisdom.
