Listening to Radio, 1920-1950 Ray Barfield,1996-07-30 Ray Barfield has done something quite new in media studies Rather than trace the history of radio through the usual route he has sought out a body of oral history from those who grew up with and listened to radio He has not only collated the responses of his informants but

placed their comments in a larger cultural and historical context and thus provided a kind of history from the ground up. He demonstrates thereby just how important and influential radio was in the lives of ordinary Americans. General readers and scholars alike will learn something from Barfield's engaging narrative about why radio was once such a compelling force in our culture. From the Foreword by Thomas Inge: This fresh and engaging account of early radio's contributions to U.S. social and cultural life brings together varied perspectives of listeners who recall the programs that delighted and entranced them. The first electronic medium to enter the home, radio is examined as a chief purveyor of family entertainment and as a bridge across regional differences. Barfield draws from over 150 accounts providing a forum and a context for listeners of early radio to share their memories from their first impressions of that magical box to favorite shows. Opening chapters trace the changing perceptions of radio as a guest or an invader in U.S. homes during the exuberant 1920s, the cash-scarce 1930s, and the rapidly changing World War II and post-war years. Later chapters offer listener responses to every major program type, including news reporting and commentary, sportscasts, drama, comedy series, crime and terror shows, educational and cultural programs, children's adventure series, soap operas, audience participation shows, and musical presentations. Science Fiction, Fantasy, and Horror Film Sequels, Series, and Remakes Kim R. Holston, Tom Winchester, 1997. Science fiction, fantasy, and horror films have spawned more sequels than any other film genre. While the perhaps overly familiar *Dracula* and *Frankenstein* have inspired dozens of additional films, such movies as *Quatermass* and *The Omen* have also produced several sequels. Over 400 horror, science fiction, and fantasy films are analyzed in this comprehensive reference to the genre's sequels, series, and remakes. Filmographies are given for each film, providing year of release, studio, running time, cast, and credits. This is followed by a plot synopsis, reviews of the work, and a critical analysis.

Columbia Pictures Horror, Science Fiction and Fantasy Films, 1928-1982 Michael R. Pitts, 2014-01-10. From 1928 through 1982, when Columbia Pictures Corporation was a traded stock company, the studio released some of the most famous and popular films dealing with horror, science fiction, and fantasy. This volume covers more than 200 Columbia feature films within these genres, among them *Close Encounters of the Third Kind*, *The 7th Voyage of*

Sinbad Earth vs the Flying Saucers and The Revenge of Frankenstein Also discussed in depth are the vehicles of such horror icons as Boris Karloff Bela Lugosi and John Carradine Additionally highlighted are several of Columbia s lesser known genre efforts including the Boston Blackie and Crime Doctor series such individual features as By Whose Hand Cry of the Werewolf Devil Goddess Terror of the Tongs and The Creeping Flesh and dozens of the studio s short subjects serials and made for television movies
