Kathryn Jasper focuses on the innovations undertaken at the hermitage of Fonte Avellana in central Italy during the eleventh century by its prior Peter Damian d 1072 The congregation of Fonte Avellana experimented with reforming practices that led to new ways of managing property and relations among clergy nobles and the laity Jasper charts how Damian's notion of monastic reform took advantage of the surrounding topography and geography to amplify the sensory aspects of ascetic experiences By focusing on monastic landscapes and land ownership Jasper demonstrates that reform extended beyond abstract ideas Rather reform circulated locally through monastic networks and addressed practical concerns such as property boundaries and rights over water orchards pastures and mills Putting new sources both documentary and archaeological into conversation with monastic charters and Damian's letters *Bounded Wilderness* reveals the interrelationship of economic practices religious traditions and the natural environment in the idea and implementation of reform

The Murmuring Stories of the Priestly School David Frankel, 2014-09-03 This book deals with the stories of Israelite complaint or murmuring in the wilderness found in the books of Exodus and Numbers that were composed and edited by the priesthood of ancient Israel. It discusses the significance of the theme of rebellion and complaint for the ancient priests and analyses the part they played in the development of the theme in the Pentateuch. After a general introduction on the theme of murmuring and on the Priestly School, the book goes on to analyze four major priestly texts: the manna story (Exodus 16), the story of the Scouts (Numbers 13-14), the story of the rebellions surrounding the figure of Korah (Numbers 16-17), and the story of the Waters of Merivah (Numbers 20). The significance of the book is two-fold. First, it develops a methodology that allows one to discriminate between early priestly narrative materials and later priestly editorial supplementation. Second, the work demonstrates the antiquity of the priestly narrative lore in the Pentateuch and the significant role which the priests played in creating and developing major narrative traditions in ancient Israel.

Proceedings of the 2003 Northeastern Recreation Research Symposium, 2004 **Herod the Fox** John A. Darr, 1998-01-01 In foregrounding the themes of witnessing, seeing and hearing and recognition, Luke urges readers to reflect on their own hearing. Reading of his story to become certain kinds of readers and to read in particular ways. So the need for a reader-oriented methodology in interpreting Luke Acts is evident. But what is the best theory to deploy? Charting a path through the thickets of modern literary theory, Darr develops a new reader-oriented model insisting that the original extratext, the repertoire of literary and social conventions of Luke Acts, and not simply the text itself, should be taken into account in any critical evaluation of how this story works. To demonstrate this new hermeneutical model, Darr undertakes an extensive study of Lukan characterization and especially his portrayal of Herod the Tetrarch.
