Annual Report United States. National Commission on Acquired Immune Deficiency Syndrome,1990      **Social Studies Curriculum Resource Handbook** ,1992      *The Testing Grounds of Modern Empire* Christoph Strobel,2008 The Testing Grounds of Modern Empire examines the transformation and the gradual creation of colonial racial order on an American and a South African frontier respectively This study focuses on the Ohio Country a region including parts of present day western Pennsylvania Ohio Indiana and Michigan and the South African Eastern Cape a region located on the southeastern tip of the African continent in the late eighteenth and the nineteenth century This book compares and juxtaposes the processes of indigenous dispossession and white efforts at undermining Native American and African sovereignty While the scenarios in the Ohio Country and the Eastern Cape did not repeat themselves identically in other locations comparable patterns would emerge in later years as the United States expanded westward and Britain expanded into southern and eastern Africa Christoph Strobel explores how various white and indigenous people tried to shape the creation of colonial racial order in the two regions An emerging compromise among white settlers government officials and other white interest groups gradually led to the implementation of systems of colonial racial order in both the Ohio Country and the Eastern Cape by the mid nineteenth century This transformation shaped by violence conflict and cooperation left a legacy that influenced the development of colonization and the contested construction and representation of race in the United States southern Africa and around the world      **Why Learn History (When It's Already on Your Phone)** Sam Wineburg,2018-09-17 A look at how to teach history in the age of easily accessible but not always reliable information Let s start with two truths about our era that are so inescapable as to have become clich s We are surrounded by more readily available information than ever before And a huge percent of it is inaccurate Some of the bad info is well meaning but ignorant Some of it is deliberately deceptive All of it is pernicious With the Internet at our fingertips what s a teacher of history to do In *Why Learn History When It s Already on Your Phone* professor Sam Wineburg has the answers beginning with this We can t stick to the same old read the chapter answer the question snoozefest If we want to educate citizens who can separate fact from fake we have to equip them with new tools Historical thinking Wineburg shows has nothing to do with the ability to memorize facts Instead it s an orientation to the world that cultivates reasoned skepticism and counters our tendency to confirm our biases Wineburg lays out a mine filled landscape but one that with care attention and awareness we can learn to navigate The future of the past may rest on our screens But its fate rests in our hands Praise for *Why Learn History When It s Already on Your Phone* If every K 12 teacher of history and social studies read just three chapters of this book Crazy for History Changing History One Classroom at a Time and Why Google Can t Save Us the ensuing transformation of our populace would save our democracy
