Más allá del núcleo Chris Zook,Efraín Sánchez,2004 Innovation Leaders Jean-Philippe Deschamps,2009-08-25

Innovation leaders promote and address the innovation agenda in their company Through personal conviction or competitive necessity they are obsessed with providing superior value to customers through innovation They know how to mobilize their staff behind concrete innovation initiatives and do not hesitate to personally coach innovation teams For innovation to occur leadership has to be collective To create a momentum for innovation in their company leaders from different functions need to team up to build innovation networks Innovation leadership is not just an innate talent that can be selected at the hiring level It can be developed within an appropriate company culture through careful leadership development typically achieved through career management and coaching Innovation leaders also need to stay on board and it is the responsibility of the top management team to create an attractive climate to develop and keep its innovation leaders There are plenty of books that deal with innovation or with new product development or with leadership this is different in its focus on the specifics of innovation leadership that particular form of leadership that stimulates and sustains innovation This book maps the broad territory of innovation leadership and contributes new thinking on the focus of the emerging leadership role of the CTO distinction between front end and back end innovation leaders the concept of aligning leadership styles with strategy and the chain of leadership concept Combining practice based and empirical research based observations with simple conceptual frameworks illustrated by many company examples and case stories from a broad range of industries in the US and Europe this is a systematic presentation of innovation drivers and their implications in terms of what leaders need to do to make it work **The Committed Enterprise** Hugh Davidson,2003-04-02 The Committed Enterprise represents Hugh Davidson s

major statement on what makes a sustainable and excellent organization It is based on over a year of intense fieldwork during which the author interviewed in person the most senior executives in 126 organizations in the US and Europe It is much easier to describe vision and values than implement them Vision and values management is in the dark ages compared with that of Marketing Finance or Operations It is often derided and all too often just doesn't work The Committed Enterprise takes a hard approach to this soft topic and describes how to build unstoppable organisations whether businesses or charities hospitals or orchestras by managing vision and values scientifically yet creatively It shows how to lay the foundations for success by understanding the conflicting needs of stakeholders and uniting them through the right vision and values These forge uncompromising commitment and transform organizations teams and countries Hugh Davidson details Seven Best Practices for making vision and values work every day at every level based on analysis of his interviews with leaders of 125 high calibre enterprises in USA and UK These include Design and timing Linkage to key success factors Communicating through action Embedding via appraisal and rewards Branding the organization Rigorous measurement Using a unique fast track scenic route format the book includes hundreds of examples quotes and checklists from enterprises as diverse as PepsiCo Caltech Tesco Mayo Clinic BP New York Police Department DuPont Save the Children UPS New York Philharmonic and many others The Committed Enterprise brings a new dimension to managing organisations It is designed for leaders and managers of every kind of enterprise So buy it read it then make it happen The Committed Enterprise J. Hugh Davidson,2005 Based on interviews with leaders of 125 great organisations this practical text brings a new dimension to managing organisations in the next century **Swedish Graphic Design 2** Monika Sarstad,2006 Introduction to Product/Service-System Design Tomohiko Sakao,Mattias Lindahl,2009-11-27 Introduction to Product Service System Design contains a collection of practical examples demonstrating how to design a PSS in industry These recent examples are the results of applying various theories developed in different countries and therefore accommodating diverse cultural differences Providing a useful overall guide to the state of the art in theory and practice each chapter covers the cutting edge of a different methodology or practice The book's focus on design is also evident in the discussion of how to anticipate and utilize the various dynamics within each dimension Introduction to Product Service System Design will help improve working processes and inspire creative thinking for the wide range of people involved in designing a PSS designers marketing professionals sales staff production engineers and service engineers It can also serve as a reference book for university students on advanced courses **Proactive Companies** L. Araújo,R. Gava,2012-02-14 Why do some companies succeed better than others It is well known that there are many variables such which may impact a company's performance The authors present their new model for Market Proactiveness which shows organizations how to anticipate change and respond to it before they are forced to do so and improve their overall performance **Surf the waves of opportunity** Dietrich Legat,2017-02-03 This book positions operational leadership where it deserves to be as a separate domain of business

management and the prime driver for consistent lasting business success Operational leadership is a top management job delegating it equals abdication from accountability for business results To do this task well which is hard and difficult work business leaders must do five things right 1 Set one single operational goal not many KPIs or scorecard items 2 Define constraint focused operational plans not by top down planning but giving each unit its own specific operational plan 3 Meticulously lead the execution of each operational plan 4 Adjust each unit s plan in agile operational sprints 5 Lead execution of Plan Execute Check cycles for each unit and the development of strong culture of operational excellence

Milk in Spain and the History of Diet Change Fernando Collantes,2024-11-14 Praise for Milk in Spain and the History of Diet Change Unpacks the fascinating journey of Spain s relationship with dairy products Once a symbol of moving from poverty to prosperity fresh milk s appeal has dwindled as consumers favour plant based drinks and gourmet yogurts and cheeses Spain s late adoption and early shift out of fresh milk highlight a broader trend people often do not act in their own best interests This stimulating book examines the reasons behind these choices revealing the complex interplay between health commercial innovation culture and consumer behaviour A thought provoking exploration of how food choices reflect deeper societal shifts Avner Offer University of Oxford UK A triumph of food history This is an important book on changing food systems since 1950 While it focuses on Spain it has wider implications for dietary shifts and the food industry in Western Europe Milk is the product under consideration and Fernando Collantes cleverly teases out the main trends in supply and consumption using a combination of detailed empirical evidence and explanatory theoretical models The result is a satisfying mix of nutritional economic and socio cultural insights While it may seem obvious blanco y en botella leche I now realise that the story of milk is complex and this book should be read by anyone interested in the trends behind modern food history Peter Atkins Durham University UK In barely three generations the Spanish diet has changed beyond recognition The traditional concerns around nutritional health and scarcity have been mostly left behind but they have given way to new problems linked to excess In this book Fernando Collantes shows how the dairy industry has been central to this societal shift From widespread calcium deficiency in the 1950s to the more recent and controversial turn to highly processed foods it provides a recent history of diet change in Spain Probing the reasons behind why this shift has occurred and how it shows that when it comes to food society politics economics and the law are intrinsically linked Taking the reader beyond the world of food Milk in Spain and the History of Diet Change combines qualitative and quantitative methods to position diet change within the broader debate on consumer society and the good life Contrasting two models of food consumption it shows that unless public policy takes the challenge of affluence seriously the food system can become an obstacle to a better society

Scaling up inclusive innovations in agrifood chains in Asia and the Pacific Gálvez, E.,2022-06-21 The publication looks at

innovations happening at all stages of the food value chain from production to manufacturing and retailing This also includes the extended value chain for example input supply financial services and agribusiness support services Yields are improving and primary production is becoming more resilient as a result of digital technologies such as precision agriculture agricultural drones and digital farming services and marketplaces and novel business models such as plant factories crowdsourcing for farmers Data and robotics help lift productivity and food safety in the manufacturing process Online grocery commerce and food delivery services are revolutionizing the way consumers purchase food Distributed ledger technology such as blockchain allows making payments and tracing back food products along the chain in order to increase transparency and trust New business models are springing up to shorten the chain by removing or shifting stages and to make it fairer and greener stimulated by enabling technologies and changing customer behaviours Innovations such as these are discussed and illustrated by almost 200 practical examples from 21 countries in the Asia Pacific region across various types of firms and commodities By observing emerging trends and providing concrete examples the book discusses the nature of these innovations how they are affecting food systems and value chains positively or negatively and how to deal with trade offs It concludes with a reflection on the impacts of these innovations the policy solutions identified and lessons learned to future proof the region s food systems particularly in the wake of the COVID 19 pandemic **Research**
