Bejarano,2013-09-01 During the past decade racial ethnic minority women have made significant strides in U S politics comprising large portions of their respective minority delegations both in Congress and in state legislatures This trend has been particularly evident in the growing political presence of Latinas yet scholars have offered no clear explanations for this electoral phenomenon until now In *The Latina Advantage* Christina E Bejarano draws on national public opinion datasets and a close examination of state legislative candidates in Texas and California to demonstrate the new power of the political intersection between race and gender Underscoring the fact that racial ethnic minority women form a

greater share of minority representatives than do white women among white elected officials Bejarano provides empirical evidence to substantiate previous theoretical predictions of the strategic advantage in the intersectionality of gender and ethnicity in Latinas Her evidence indicates that two factors provide the basis for the advantage increasingly qualified candidates and the softening of perceived racial threat leading minority female candidates to encounter fewer disadvantages than their male counterparts Overturning the findings of classic literature that reinforce stereotypes and describe minority female political candidates as being at a compounded electoral disadvantage Bejarano brings a crucial new perspective to dialogues about the rapidly shifting face of America s electorate *Texas State Directory* ,1997 **Directory of Corporate Counsel, Spring 2024 Edition** , *Playing Possum* John Marshall,2014-04-29 When Texas Gov Rick Perry signed a bill in May 2009 authorizing the Brazos River Authority to sell the entire inhabited shoreline of Possum Kingdom Lake not many people questioned it But the odd thing is that the property in question had been sold exactly one month earlier to a good ol boy that had earned the nickname the River Card While the Texas legislature had been busy considering the will of the people the Brazos River Authority had been busy selling the land The final sale price was fifty million dollars The estimated value of the land was one billion dollars *Playing Possum* offers a detailed analysis of the most costly political scandal perpetrated in Texas since the Sharpstown Stock Fraud scandal It involved the states most powerful politicians including the governor the lieutenant governor and the attorney general but to this day very few people know what really happened It also involved the leading candidates for those same offices in 2014 This true account reveals how the taxpayers of Texas were cheated out of approximately one billion dollars worth of prime Texas real estate in a story of high stakes real estate poker
