Shaw,Jennifer P. Mathews,2022-08-23 Mexico s southern state of Quintana Roo is often perceived by archaeologists as a blank spot on the map of the Maya world a region generally assumed to hold little of interest thanks to its relative isolation from the rest of Mexico But salvage archaeology required by recent development along the Maya Riviera along with a suite of other ongoing and recent research projects have shown that the region was critical in connecting coastal and inland zones and it is now viewed as an important area in its own right from Preclassic through post contact times The first volume devoted to the archaeology of Quintana Roo this book reveals a long tradition of exploration and discovery in the region and an increasingly rich recent history of study Covering a time span from the Formative period through the early twentieth century it offers a sampling of recent and ongoing research by Mexican North American and European archaeologists Each of the chapters helps to integrate sites within and beyond the borders of the modern state inviting readers to consider Quintana Roo as part of an interacting Maya world whose boundaries were entirely different from today s In taking in the range of the region the authors consider studies in the northern part of the state resulting from modern development around Canc n the mid state sites of Muyil and Yo okop both of which witnessed continual occupations from the Middle Preclassic through the Postclassic and new data from such southern sites as Cerros Lagartera and Chichmuul The contributions consider such subjects as ceramic controversies settlement shifts site planning strategies epigraphic and iconographic materials the impact of recent coastal development

and the interplay between ancient historic and modern use of the region Many of the chapters confirm the region as a cultural corridor between Cob and the southern lowland centers and address demographic shifts of the Terminal Classic through Postclassic periods while others help elucidate some of Peter Harrison s Uaymil Survey work of the 1970s Quintana Roo Archaeology unfolds a rich archaeological record spanning 2 500 years depicting the depth and breadth of modern archaeological studies within the state It is an important touchstone for Maya and Mesoamerican archaeologists demonstrating the shifting web of connections between Quintanarooense sites and their neighbors and confirming the need to integrate this region into a broader understanding of the ancient Maya **Site Matters** Andrea Kahn,Carol J. Burns,2020-12-21 In the era of the Anthropocene site matters are more pressing than ever Building on the concepts theories and multi disciplinary approaches raised in the first edition this publication strives to address the changes that have taken place over the last 15 years with new material to complement and re position the initial volume Reaching across design disciplines this highly illustrated anthology assembles essays from architects landscape architects urban designers planners historians and artists to explore ways to physically and conceptually engage site Thoughtful discourse and empirically grounded pieces combine to provide the language and theory to contextualize the meanings of site in the built environment The increasingly complex hybridity of constructed environments today demands new tools for thinking about and working with site Drawing contributions from outside and within the traditional design disciplines this edition will trace important developments in site thinking with new essays on topics such as climate change landscape as infrastructure shifts from global to planetary urbanization debates and the proliferation of participatory site transformation practices Edited by two leading practitioners and academics Site Matters juxtaposes timeless contributions from individuals including Elizabeth Meyer Robert Beauregard and Robin Dripps with original new writings from Peter Marcuse Jane Wolff Neil Brenner and Thaisa Way amongst others to recontextualize and reignite the debate around site An ideal text for students academics and researchers interested in site and design theory Governor's Houses and State Houses of British Colonial America, 1607-1783 Hoke P.
