Social Democracy Revolutions Of Our Time:

Reflections on the Revolution of our Time (Works of Harold J. Laski) Harold J. Laski, 2014-10-30 This is Laski's most important book after *A Grammar of Politics*. It discusses on a grand scale every aspect of American public life. Laski surveys American traditions and the American spirit, political institutions, the entire educational, religious, economic, and social scene. America as a world power and Americanism as a principle of civilisation. Laski's unsurpassed knowledge of American constitutional, social, and cultural history is set in the perspective of his deep study of comparative constitutional history and political theory. He was one of very few people to see U.S. politics from the inside as a result of his friendships with Roosevelt, Brandeis, and Oliver Wendell Holmes.

Revolutions of Our Time J. E. Vaizey, 1971

The Revolution of Our Times Abdulmouti Souwed, 2024-06-13 The book. With the decline of cultural discourse in our contemporary century and the strong emergence of the economic phenomenon and its dictators in the daily life of people in today's world, which has created amazing poverty in the discourse of reason and extreme poverty in awareness of the meaning of life and higher values. Economic control has led to the birth of elites of money and business and wealth. Lightness in weight and lightness in intellectual production and meaning in its speeches, but is economics a speech? Money first, but then what? A collection of questions and discussions about the fate of the world that does not think. In return, the tragedy of the era has generated poverty, famine, hunger. See On April 17, 2024, the 2023 Global Hunger Index (GHI) Report UN and daily misery for huge segments in today's world. As the saying is broadcast, an empty stomach does not think, and we are faced with double poverty: an economy poor in thought and the poor deprived of the strength of the stomach and the head. Does humanity today think about acquiring the skill of thinking?

Post-Marxism Stuart Sim, 2013-04-15 This book traces the crystallisation of post-Marxism as a specific theoretical position in its own right and considers the role played in its development by post-structuralism, postmodernism, and second-wave feminism. It examines the history of dissenting tendencies within the Marxist tradition and considers what the future prospects of post-Marxism are likely to be.

The Dilemma of Our Times (Works of Harold J. Laski) Harold J. Laski, 2014-10-24 This book, originally published in 1952, unfinished and perhaps imperfect, is the last book of one of the most acute political thinkers of the twentieth century. Laski's earlier optimism about a swing to the Left was beginning to be reversed, and in this volume he saw the defects of his previous optimistic surveys, which in his opinion still had value but needed to be brought up to date and consequently he began to write an additional chapter which was never completed. It remains a valuable last word of an author who for thirty years was respected and listened to on the topic of civilisation's survival through change.

The Princeton Theological Review, 1906

The Heritage of Our Times Ernst Bloch, 2018-03-15 *Heritage of Our Times* is a brilliant examination of modern culture and its legacy by one of the most important and deeply influential thinkers of the 20th century. Bloch argues that the key elements of a genuine cultural tradition are not just to be found in the conveniently closed and neatly labeled ages of the past.

but also in the open and experimental cultural process of our time One of the most compelling aspects of this work is a contemporary analysis of the rise of Nazism It probes its bogus roots in German history and mythology at the very moment when the ideologies of Blood and Soil and the Blond Beast were actually taking hold of the German people The breadth and depth of Bloch's vision together with the rich diversity of his interest ensure this work a place as one of the key books of the 20th century

Marxism for Our Times Martin Glaberman, 1999 Rarely as in the collection here can one encounter an essayist novelist historian and political leader like the late C L R James in the working throes of forming and then fomenting personal political theory In *Marxism for Our Times* editor Martin Glaberman has gathered the writings and theoretical discussions of this noted Caribbean writer These pamphlets mimeographs letters and lectures by James were nearly inaccessible until now Within these works James works to situate himself within the classical Marxist tradition while rejecting the Vanguard Party as unsuitable for our times The writings in this collection begin in the 1940s when Marxists were wrestling with acts that many deemed betrayals of the revolution Stalin's pact with Hitler and the war in Europe They end in the late sixties just before the dissolution of Facing Reality the final form of the American Marxist organization founded on James's principles For many years James born in Trinidad and Tobago was leader of the Trotskyists in the United States He continued his work even after his exile from America Of great value to scholars of Marxism are the papers in which James examines Marx Lenin and Trotsky and applies their theories to the class conflicts he was witnessing at mid century and to changes he foresaw in the future James argues for the rejection of historical principles and theories and urges Marxists to adapt themselves to changes occurring in capitalism and the working class Glaberman worked alongside James but sometimes disagreed with him in the movement James founded They were close associates for 45 years With *Marxism for Our Times* Glaberman not only has preserved and made available the political theories of a noted writer but he also has created a window on a turbulent period of optimism and failure a failure Glaberman calls rich in meanings and lessons for anyone interested in a democratic revolutionary Marxism C L R James is the author of the novel *Minty Alley* and *The Black Jacobins* the classic history of the Haitian Revolution and many other works Martin Glaberman is a professor emeritus at Wayne State University in Detroit He joined the socialist movement at age thirteen and worked for twenty years in the auto industry and as an active union member
