Social Investment And Economic Growth A Strategy To Eradicate Poverty Oxfam Insight Series:

Social Investment and Economic Growth Patrick Watt,2000 This book argues with examples that absolute poverty is not an inevitable consequence of economic growth that equitable economic growth is necessary to secure the eradication of poverty and that the benefits of economic growth need to be invested in developing socio political structures that can foster sustainable democracy and accountability *Urban Livelihoods* Tony Lloyd-Jones,Carole Rakodi,2014-10-14 One of the most promising approaches to poverty reduction in developing countries is to encourage sustainable livelihoods for the poor This takes account of their opportunities and assets and the sources of their vulnerability Based on recent and extensive research this volume thoroughly assesses the value of the livelihoods approach to urban poverty The book reviews the situation and strategies of the urban poor and identifies the policies and practical programmes that work best Lasting improvements depend not just on economic development but on political commitment and structures that are responsive to the claims and needs of different groups of poor people **Development as Peace** Wole Adegbile,2023-08-04 The colonial definition of development has not served Africa well While Western assessments have generally revolved around a nation s GDP infrastructure and the like African cultures and the Yoruba people in particular have traditionally measured development in relation to the amount of peace experienced in a society and the wellbeing of its people In this study Dr Wole Adegbile examines the political theological and cultural contexts of contemporary development activity in Africa including the impact of modernization theory on African nation states He then draws on traditional Yoruba political thoughts and practices including the similarities between the Yoruba conception of a thriving community and the biblical principle of shalom to formulate a contextual political theology of development that would holistically address cultural identity and spiritual restoration Rooted in the intersection of Scripture and traditional African values this book suggests a way forward for African society its political leaders and the church The British National Bibliography Arthur James Wells,2000 Social Investment and Economic Growth Patrick Watt,2000 **Africa Insight** ,2001 **Subject Guide to Books in Print** ,1971 **Rural Development Abstracts** ,1995 **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 **Responsible Investment: A force for poverty alleviation** Rory Sullivan,Helena Viñes Fiestas, **The New York Times Index** ,2002 *Whitaker's Books in Print* ,1998 The Oxfam Poverty Report Kevin Watkins,1995 Fifty years ago the United Nations Charter proclaimed universal rights to shared prosperity peace and security How far has that vision of world citizenship been realised Despite advances in human welfare and technology there is today a growing polarisation between rich and poor One in four of the world s people live in absolute poverty unable to meet their basic needs armed conflict is affecting millions of people and the global environment is under threat Yet there is a failure of political will to address the silent emergency of poverty The Oxfam Poverty Report draws on Oxfam s experience of working in over 70 countries to examine the causes of poverty and conflict It identifies the structural forces which deny people their basic rights

and gives a wide range of examples of the ways in which men and women are bringing about positive change at every level from the household to the international arena Oxfam believes that it is time to renew the UN vision of universal basic rights The Report concludes by proposing policy and institutional reforms which would transform international institutions and trading relations and calls for a new commitment to work together to eradicate poverty and bring sustainable peace and security for all the world's people

Making Markets Empower the Poor: Programme perspectives on using markets to empower women and men living in poverty Erinch Sahan, Julia Fischer-Mackey, **Poverty Reduction and Beyond** T. Shiraishi, T. Yamagata, S. Yusuf, 2009-06-25 This book highlights strategies for poverty reduction in developing countries with emphasis on the power of the market mechanism and vigor of the private sector focusing ODA on a few longer term challenges and leveraging advances in technology to the fullest and underlining the importance of human rights and security

Social Investment, Productivity and Poverty Robert Cassen, Ganeshan Wignaraja, Geeta Kingdon, 1997 **Social Impact Investing** Kim Tan, Brian Griffiths, 2022-02 Huge strides have been made in the last 20 years in reducing the number of the world's population living in extreme poverty More people have access to clean water and sanitation and more children are at school Diseases such as malaria and HIV AIDS are under control However progress has been patchy with most improvement seen in countries with good economic growth such as China and India which have lifted millions of their citizens out of extreme poverty Economic development rather than international aid has been the main reason behind this reduction global poverty We have seen the growth of a new breed of social investors using a social impact investment approach to design businesses that tackle poverty and its related social issues Tan Griffiths describe the growth of the social impact investment sector using case studies and the emergence of social impact funds they argue that social impact investing has the potential to become a new asset class to bring in much needed private capital to create jobs and reduce poverty in the developing countries

From Poverty to Power, 2nd Edition Duncan Green, 2012 From Poverty to Power argues that a radical redistribution of power opportunities and assets rather than traditional models of charitable or government aid is required to break the cycle of poverty and inequality The forces driving this transformation are active citizens and effective states Published in association with Oxfam GB

Reframing Global Social Policy Christopher Deeming, Paul Smyth, 2018 As neoliberalism begins to reach its limits and the new landscape of social and public policy that it has left in its wake becomes clearer there is a great need to define and explain the new roles that social policy non governmental organizations and citizens are taking on In this book internationally renowned contributors provide a sustained analysis of this new landscape reframing social and public policy and bringing in the latest thinking on social investment and inclusive growth on a global scale Scholars and practitioners working in development human geography politics and international political economy will all need this book as they look at what's to come

Reducing Poverty and Investing in People Victoria Monchuk, 2014 For two decades Africa's strong economic growth has paved the way for poverty reduction Nevertheless high chronic poverty

levels persist and the gap between income groups in terms of human capital and access to basic services is growing Also poor households are vulnerable to frequent shocks By providing regular reliable support to poor households and helping them invest in productive activities targeted interventions such as safety nets help reduce persistent poverty reverse the trend of increasing inequality and build household resilience Until recently safety nets were implemented only on an ad hoc basis in Africa However in the wake of the global economic crisis policy makers are increasingly viewing safety nets as core instruments for reducing poverty and managing risk Also a momentum toward rationalizing public spending to provide more adequate and targeted support to the poorest is emerging in response to growing evidence that safety nets can successfully reduce poverty and vulnerability and promote inclusive growth This book assesses the status and analyzes the objectives features systems performance and financing of safety nets in 22 African countries It then identifies how governments and donors can strengthen safety net systems and protect and promote poor and vulnerable people Overall the book finds that safety nets are on the rise in Africa and are beginning to evolve from fragmented stand alone programs into integrated systems Social protection programming has started to change from largely emergency food aid programs to regular predictable safety nets including targeted cash transfers and cash for work programs Some countries including Ghana Kenya Rwanda and Tanzania are working toward consolidating their programs into a national system Impact evaluations of safety nets in Africa are also increasingly being undertaken and with recent research into the productive aspects of cash transfer programs have yielded encouraging evidence that safety nets reduce poverty and vulnerability The timely analysis of safety nets in Africa provides a solid foundation for evidence based policy dialogue and programming As a result of the growing body of evidence that safety nets contribute to inclusive growth African decision makers are now putting safety nets high on their development agendas
